# AMERICANS MUTILATED.

They Were in the Service of the Belgians in Congo Free State.

VICTIMS WERE WASHINGTONIANS

Washington, Nov. 28.—A startling and horrible story of the killing of two Washingtonians and the mutilation of the bodies by the natives of the Congo Free State, has just been received here in a letter from Mr. Leo Harmon, of 1723 Ninth street, northwest. The men were members of a party who during November and December, 1894, and January, 1895, went from this city to the Congo State, to the native army of the Congo State. Those enlisted included Edward Thornton, a commissioned officer of the National Penitentiary employed in the war department; Lindway G. Burke, Frank Batchelor, Harry R. Andrews, Barry Sparlin and a Mr. Molineux. The party was at one time a non-commissioned officer in the United States army. All except Thornton and Molineux were members of the National Guard of the district.

The information received by Mr. Harmon is that Burke and a party of 50 men were sent out to dislodge a band of savages who had been working and ambushed and killed. An Arab who was with the command, but who was some distance off at the time of the ambush, states that he knows Burke was dead before the natives reached him and that the most hideous looking little man he ever saw at one time and cut Burke's head off with one blow of a knife. The chief then began to slice pieces of his legs and arms and distributed them among his followers.

There were so many of the flocks that the pieces were very small, and before they had concluded there was a free fight to see who could have the little remaining. In some manner the dwarfs became alarmed and left the place, one following carrying off Burke's arm. The Arab saw the cause of their alarm as a New Yorker who had been in command of another detachment of soldiers sent out on the same errand, arrived a few hours after the natives departed. Windley gathered up the remains of Burke and buried them. When Windley learned the strength of the rebels he hurried back to Michigan and notified the commandant of the port.

The other Washingtonian who lost his life was killed when the troops under the command of Barua Dhamis revolted near Kabambarre and assassinated a number of officers of their regiments. The body of Molineux was buried in the Congo Free State, his heart having been cut out and burned so that his courage could not again be used against the rebels by the whites, as it is their belief that unless the heart is burned and the body is buried, the spirit of the man descends to his brethren.

Thornton is said to be in a very precarious situation at Basaka, but a relief expedition has been sent to his rescue.

Postoffice Clerks Organized.

Pittsburg, Nov. 28.—Delegates representing the first and second class postoffice clerks of the country met in convention here yesterday and formed a permanent organization, with the object of bettering the condition of this branch of postal employees. A bill was framed looking to this end, which will be submitted to congress at the coming session. The following officers were elected: President, Joseph P. Healy of New York; vice president, W. T. Shaw of Baltimore; treasurer, B. W. Connolly of Pittsburgh; secretary, W. H. Hart of Philadelphia.

Murder on the Teyvenne Cutter Rush, San Francisco, Nov. 28.—As the outcome of a quarrel between two Japanese employed on the revenue cutter Rush, Imal, a boy, was shot and killed by the chief steward, Charles Wismura. The coroner's jury exonerated Wismura on the ground of self defense, but subsequently the steward was arrested and lodged in the Marin county jail, booked for murder.

J. C. Berry, one of the best known citizens of Shenandoah, testifies that he cured himself of the worst kind of piles by using a few boxes of DeWitt's Witch Hazel Salve. He had been troubled with piles for over thirty years and had used many different kinds of so-called cures; but DeWitt's was the one that did the work and he will verify this statement if any one wishes to write him. # A Desperate Woman.

Expects in insanity tell us that when anyone goes insane, frequently their whole nature is reversed. They do and say exactly the opposite thing to what they would do in their sane minds. A mother whose mind breaks down under extreme nervous tension may turn upon the one object in all the world most precious to her—her baby. The terrible nervous tension under which many women live and suffer because of some weakness or disease of their sex, keeps them on the very verge of insanity. The constant drag and drain upon the complicated and delicate organism affects the whole nervous system and works upon the brain with an almost irresistible madness.

Thousands of suffering women have been literally saved from the insane asylum by the timely influence of Dr. Pierce's Favorite Remedy. It is the one perfect and positive specific for every derangement of woman's special organism. It is a scientific and permanent cure for those severe chronic, nervous conditions which occasionally consider hopeless. It is the only medicine of its kind devised by an educated and skilled physician.

Mrs. Mary E. B. Dayton, Case Co., Mo., in a letter to Dr. Pierce, writes: "It was in the winter of 1892 that my sufferings commenced. It was close to my mind, and I was unable to grip, and that with the labor pains all went to my head. I suffered dreadfully, and when I gave birth to my little boy, I was getting weaker and weaker, and I was unable to express my sufferings. I was advised by a lady to try your medicine and I did. I got out of my bed, and I was able to walk. I had taken two bottles of the medicine when I felt like another woman. I began to gain strength and health, and now my little boy is one year old. This is true, and it was your medicine that saved my life."
