> London, Nov. 30 .- The latest reports from various points along the coast show that the gale which swept English waters Saturday and Sunday night was one of the worst storms of recent years.

In many places it was almost cy-donic in its violence, and the long list of disasters includes a large loss of life, many wrecks of large vessels and the loss of scores, if not hundreds of smaller craft, with serious damage to property ashore at many important towns. In the north the wind was accompanied by blinding snow and hall that hid the lights and immensely increased the difficiaties of navigation. Many ships are known to have foundered, in most cases, it is feared, with all on board. Scarcely a town on the coast has es caped with more or less injury, falling walls and flying debris adding to the loss of life.

There have been rocket and lifeboat rescues almost without number. Stor-tes of thrilling escapes come from all points. On the Norfolk coast, between Bacton and Mappisburg, five yessels as yet unidentified, went down, and the crews of all perished. A number of bodies have been washed ashore near Yarmouth. The British brig Ruby was wrecked off Hemsby. The coast guard service made desperate efforts to save the crew and succeeded in getting a line on board. A dying woman was "rocketed" in safety, and then the brig capsized, all the rest of the ship's company perishing. A large steam collier dashed upon
