that she had shot and killed him. This, said Thorn, was the first intimation he had of the purpose for which Mrs. Nack had rented the Woodside cottage. Up to that moment he had un-derstood she was going to start a baby farm there, and that he was to live with her and share the profits.

He described in detail how, after Mrs. Nack had begged of him to help her get rid of the body, he accompanied her to the room on the second floor, where he found Guldensuppe lying dead from a bullet wound in the right side of the head. Mrs. Nack told him that ahe had carried the revolver in her hand, covered by a handkerchief, and that as Guldensuppe was looking into a closet she shot him. Thorn then said he went out and bought two pounds of plaster of paris, at Mrs. Nack's di-

afterward. When he got back to where the body lay Mrs. Nack was still there, and he helped her undress the corpse. I tween them they carried the body the bath tub, and Mrs. Nack cut it into five pieces. She first cut the head from the trunk with the aid of a knife and Then she severed the trunk, and boasted of her knowledge of anatomy while so doing. Then she severed the legs, using the knife and saw. The knife looked like a butcher's knife. It was not a stiletto or dirk knife. Mrs. Nack, according to the witness, re-mained these all that day until 4 o'clock in the afternoon, when she went out to get some fresh air, as it was

very warm and sultry in the house. About 5 o'clock she returned, and then she carried a bundle containing the tol. saw and knife, and he, with the head in a parcel under his left arm, left the nume and took a trolley car to murdered man's clothes and the the Ninety-second street ferry to New Mother dangers lurk, dropped the head into the East river, and when they reached New York she and when they reached New York she they reached New York she and when they reached New York she in the rooms on Ninth avenue went to her rooms on Ninth avenue and burned the clothes in a cooking stove. The next day the rest of the body was made up in three parcels and dised of in the manner which Mrs.

Nack stated at the last trial. In rebutal three witnesses swore that they had seen Mrs. Nack in her ours in New York between half past o'clock and 4 o'clock on the aftern of June 25, and Mrs. Walley said that she had seen Mrs. Nack leave the cottage about 20 minutes after she and the man with the light suit had entered. The prosecution did not put Mrs. Nack on the stand, and the court ruled against Mr. Howe's attempt to introduce the testimony given by Mrs. Nack at the mistrial.

New York, Nov. 20.—The trial of Martin Thorn for the murder of Guidensuppe was closed yesterday so far as the taking of evidence was concerned. It is not expected that the charge of Justice Maddox will be very optimized by the will be case may be with the Jury. Ophilons, both lay and legal, differ very materially as to the probable result. MUNYON'S GERMANY AND HAYTI.

Phase of the Lueders Case Presented by the Little Republic.

UNCLE SAM MAY BE INVOLVED.

The Hartian Government, While Not Prepared to Contend Against the German Nation, Would Prefer to Be Crushed Rather Than Yield.

Washington, Nov. 30 .- The attention of the department of state at length has been formally directed to the friction that has arisen between Germany and Hayti as a result of the arrest by the officials of the latter country of a half blood named Lueders. Mr. Legur. the minister from Hayti to Washington, yesterday called on Assistant Sec-retary Day, and the attitude of Germany in Lucders' case was discussed. The intimation was given out at the state department that our government so far has gone only to the length of Instructing Ambassador White at Berlin to watch developments and keep his government informed. He will lodge a protest only in the event of the performance by Germany of some act that is not consistent with justice and international law, something that is not anticipated here. In other words, the state department does not feel that it has a right to interpose so long as the demands of Germany for redress are kept within the bounds of sound practice in international disputes.

The department has been informed

that the statement of facts that has been made in the case of Lueders is somewhat misleading, in that it makes some important omissions. For instance, the foundation of the claim of Hayti that it had the right to punish the man as it did lies in an assertion that he was a citizen of Hayti. Lucfors was born in Hayti of a German THIS MORNING ? father and a native Hayti woman, and according to the laws of the republic that made him a full fledged citizen of Hayti.

The Haytian government is prepared to show that Lueders had been twice arrested and convicted of the same offense, namely, restring and assaulting an officer. The first offense was com-mitted a little over a year ago, and the Haytian law, like that of our country in such cases, provides for much more severe penalty in the case of a sec and conviction.

As an indication that there was no discrimination practiced towards Lueders on the score that he was a German subject, it can be shown that the person arrested with him at the same time for the same offense, a native full blooded Haytian, was subjected to ex-actly the same penalty—4500 fine and a year's imprisonment—that was meted

The Haytian minister states that the republic is preparing for any eventualtry, considering that its honor is involved in the present trouble, and that it cannot yield to demonstrations of force by a powerful nation. The minister says that Hayti's ports are unfortified and that the country has no navy, but has an army of fair proportions. Naturally it could not expect to con-tend against one of the most powerful nations on the globe, but with the hon-or of the republic at stake, he declares, it would resist to the last, and would prefer to be crushed rather than yield

to what it regards an injustice.

The Haytlan authorities consider that the Monroe doctrine applies to the present case, and for that reason expects that the people of the United States will not approve of the crushing of Hayti by a powerful European government, or that the authorities here will not re-main inactive if the Monroe doctrine becomes involved.

Germany Will Brook No Interference Berlin, Nov. 30.—The Berliner Tage-blatt says it is reliably informed that the German government only wants monetary reparation from Hayti for the recent arrest and imprisonment of Herr Emile Lueders by the Haytian tellumate but that it will not brook any Interference in the matter on the part of the United States.

A woman's attractiveness in the eyes of man depends largely on her physical appearance. Nature in order to preserve the race, guides mankind by the instinctive preference for a mase who is physically nound and wholesome.
