British Steamer Brings in the Crew of a Norwegian Bark.

THRILLING RESOUE FROM DEATH

The Norweglans Had Given Up in Despair When the Kildonia Hove in Sight and Ton Brave Sattors Came

Newport News, Va., Dec. 14. - The

British steamship Kildonia, Captain Roberts, arrived in port yesterday from Shields, having on board Captain C H. N. Nymann and Andreas Michalsen Eibert Eilingsen, Sugure Nilson, Vaidemar Linier, Juan Vila, Andrew Varges and H. Karpp, the crew of the Norwegian bark Njemmeti, which was lost in midocean on Sunday, Dec. 5. The crew of the back tell a thrilling story of their experience. On Oct. 24 the Njemmett left Champarten, Yucatan, Central America, with a carge of logwood, for Falmouth, Eng. The ven-sel had not been at sea many days before she sprung a leak. Pumps were set to work, but the flow of water in-creased until it became necessary for all hands to stay at the pumps in order to keep the ship affoat. The men finally became exhausted. A signal of distress

was run up and the bark drifted aim-Several steamers were sighted, but none of them responded to the sig-nals. Captain Nymann and his crew had given up in despair when the Klidonts have in sight. A heavy sea was running and huge waves were beating against the sides of their ship, which had become waterlogged and was rapidly going to pieces. Captain Roberts saw the flag of distress and went to the rescue of the seamen. Going as near to the bark as could be done with safety, he ordered his crew to lower a lifeboat.

Ten men volunteered to risk their lives in order to save their fellow seaman. When they saw the lifeboat coming toward the bark some of the shipwrecked sailors were so delighted that they leaped overboard and swam to the little craft. All hands on board the vessel were rescued, though they lost all of their personal effects save what clothing they were. The arrival of the seamen was reported to the Norwegian vice consul at Norfolk, and he took charge of the men last night.

Indian Mail Carrier Declares That Twenty-five Per Cent of the Struggling Army Will Never Idve to Recite the Terrors of Their Flight.

Victoria, B. C., Dec. 13.—By steamer from Dyea news is received that more than a thousand ill provisioned men stampeded from Dawson during the latter part of October, and impelled by fears of famine are now forcing their way over the mountains. Auk, the Indian mall carrier, who brings this report, left the Yukon capital fully ten days after the Dalton party. He eays the vanguard of the terror strick-en army is following less than a week behind him. Ask declares that fully 25 per cent of the struggling army will never live to recite the terrors of their

The river steamers Bella and Wears, it now appears, did not land more than 100 tons of provisions on their arrival in Dawson in the early part of Oc-tober, owing to their having been held up at Circle City.

The only bright view of the situation is that the crossing of the pass above Dyes and Skaguay has lately been greatly improved, and within a month

will be in excellent condition.

Dyea parties, headed by George F.
Ulmer, propose to go to the relief of
the hungry at Dawson. They will make the United States government an offer to deliver \$5,000 pounds of provisions within \$50 days after the time of start-ing for Dawson for the sum of \$75,000. They already have \$,000 pounds of provisions cached at Lake Bennett, which they will take in over the Chikcot Pass this winter. Ulmer will go south by the next steamer to lay his plan before the secretary of war by wire.

SNOW LOCOMOTIVES TO RESCUE Secretary Alger Orders the Machines Mixel candle

Washington, Dec. 14.—The plan of using steam snow locomotives to open and maintain communication between outside world and the Klondike country has not been abandoned by any means. Secretary Alger was i consultation yesterday with several representatives of a company which has already made two of these locomotives, and the secretary, who is iners who are supposed to be suffering from the lack of food, authorized then to proceed to ship the machines to Alaska and make the effort to get through to the interior. The plan is to use either the Chilkoot Pass and the Dalton trail or the White Pass, with preference for the former route. The men who were at the war department yesterday assured Secretary Alger that they could take the locomotives up either of these passes, with the possibility of requiring the assistance of cable power in one place about half a mile long. Once over that place, near the head of the Chilkoot Pass, there would be no difficulty, they said, in making good time across country over the snow to Fort Seikirk, and thence
