The Cost Trade. The anthracite coal trade may be bene-fited somewhat by the colder weather which set in on Saturday, if it continues long enough. The past week has been a very dull one, the demand for coal being light and prices, if changed at all, were still weaks han they have been for the past month Doulers are buying sparingly, not caring to take the chance of carrying over this year the more stock of coal than is necessary to upply the immediate requirement of their ustomers. The continuance next year of he old a rangements for the regulation of voluction and prices has already been in-ormally supounced, and it is understood that the output of newly mined coal is to be tion of Bishop to the Diocese of Central working separate coal cally carrailed in the first half (at least) Panusylvania, to succeed the late Bishop until their accest. of not the whole of 1898. If the larger mincontrolling hand enforce the restriction a rigidly next year as they have done the here will be much suffering and distres among the families of the colliers and rail road laborers in the anthracite fields in the
