PROGRASTINATION is the thief of time; year after year it steals till all are fled; and to the mercles of a moment leaves the vast concerns of an eternal scene. Young.

THE January term of criminal court opened this morning. The large number of important cases on the calendar, together with the session of license court, will attract many to the county seat.

BISHOP POTTER, of New York, has created some discussion by a pessimistic statement be made in a speech the other evening that this country will never again see the prosperous times it experienced between 1873 and 1893, and that we have now reached the same conditions as other coun tries where profits are not made so rapidly as we have made them. The Bishop's assertion was made with such positiveness that the question of his competency to give an opinion of worth upon such a matter has been raised and financial men dispute the accurracy of his conclusions from his own statement of facts.

THE Irish American element of New Haven, Conn., is agitated to a degree equalling that of the 400 of Charleston, S. C., over the expulsion of an actress from a ball in the city recently. The cause of the agitation, Monday, January 3rd. however, is quite different. It appears that a Connecticut man connected with the militia was recently appointed Consul General at Ottawa, Can., and with a desire to show the Kanucks a fine body of Wooden Nutmeg Soldiers, he arranged to have the Second Regt., N. G. C., invited to parade in Ottowa on May 24th, next, the anniversary of the Queen's birthday. All the other companies of the regiment having voted to accept the invitation, Company C, the Sarsfield Guards, on the recommendation of Capt. Donovan, at a meeting Tuesday night also voted to accept. And this caused a row which will probably result in the resignation of Capt. Donovan, as the sentiment back of the Guards is of such nature that it does not look kindly upon Victorian celebrations of any kind.

Sacred Resolutions.

Thirty years ago, says a writer, a young man began to feel the burden Prices: - 25, 35, 50 and 75 Cents. of a rapidly increasing family. His co nions in the race of life pitied hin and prophesied that he would never get on with so large a family dragging upon him. The young man himself quailed before his responsibility and almost lost heart, for he had already seven children, and

was little more than 30 years of age. But on the last night of a certain year he made a resolution. He said : "I will do my duty to my children. I will strain every nerve to give them a good education to fit them for making their way in the world." For this end he toiled. His friends sighed for his lot, and pointed to the curse of a large family that weighed upon him and crushed him.

That imagined curse became a blessing. That man is now in the sere and yellow leaf, happy, contended, and well provided for by his sons and daughters, who, through the superior education they received. are now occupying positions in life which may almost be termed brilliant. This man, though poor, shaped all his actions by the rule of Christian charity, honesty and truth, and his resolutions were made in the home by the fireside and around the family circle, a place where good resolutions, when made, are sacred and more

likely to be remembered and kept. Let us seize the coming moment, as day morning, January 1st, at 10 o'clock.
