FRIDAY, JANUARY 14, 1898.

We are not done growing. There are abundant opportunities for capital here at home if it is allowed to exert itself unimpeded.

REMEMBER your own soul must be illuminated before you can help others; the spring does not brim over with refreshing waters that has not a hidden source.—Light on the Hidden Way.

It is proposed to place a tax on bachelors in Virginia. We suppose that this is rather a revenue necessity than, as might be supposed, a condemnation of celibacy, since there is little else upon which to place a tax in that Commonwealth.

GENERAL LEW WALLACE says that if the United States does not take Hawaii now it will have to fight for it fifteen years hence. Rather than break the peace so early in the new century it will be the part of wisdom to let the island lie without delay.

A TIME honored phrase in the South used to be "hog and hominy," but the political slogan in Texas just now is "Hogg and harmony." If the Democrats of the state will furnish the harmony the ex-Governor will promptly furnish the Hogg.

REV. O. P. CHRISTIAN, of Milwaukee, who married the eloping daughter of Robert T. Lincoln to W. W. Beckwith, is finding himself in great demand as a tier of matrimonial knots, couples going even long distances to be "married by the man who married Abraham Lincoln's granddaughter."

THE movement which has been started to prevent any further restriction of immigration has nothing to commend it to the support of right-minded American citizens. No one can question the fact that the country has grievously suffered during the past ten years from the amount and the character of immigration, which has swept in regardless of existing industrial conditions. A vast number of the most degraded inhabitants of Southern Europe had been dumped upon our shores, to the infinite injury of workmen in the manufacturing and mining regions. Something must be done to prevent the continued degradation of American labor, and all foreign and semi-foreign steamship combinations, the object of which is to keep the gates wide open, should be discontinued by patriotic citizens.

THE Need of a Navy. Theodore Roosevelt, assistant secretary of the navy, in an article in Guntton's magazine for January, on "The Need of a Navy," speaking on the Monroe doctrine and the navy, says: "Either kind of sentiment, either the belief that we can dare anybody to fight, without preparation, or the belief that we ought never to fight or adopt a policy which might lead to fighting, is bad enough; but the result of a mixture of both is even worse; and it is this mixture in our foreign policy which offers a perpetual menace to our welfare and honor."

"If we build and maintain an adequate navy and let it be understood that, while we haven't the slightest intention to bluster or to commit any wrong, yet we are perfectly ready and willing to fight for our rights, then the chances of war will become infinitesimal and no power will dream of protesting against the Monroe doctrine."

"If, on the other hand, we announce in the beginning that we do not class ourselves among the really great peoples who are willing to fight for their greatness, that we intend to remain defenseless, hoping thereby to escape the anger of anyone, and that we shall of course refrain from pushing any policy, whether that embodied in the Monroe doctrine or any other, if it can possibly be distasteful to nations who actually fight—why, under such circumstances we doubtless can remain at peace, although it will not be the kind of peace which tends to exalt the national name, or to make the individual citizen self-respecting."

"But if together with a policy of refusing to fight at need we allow the policy of blustering self-assertion to go hand in hand, we may at any time find ourselves in a very awkward position. We asserted the Monroe doctrine against Great Britain in the Venezuelan case. Personally I am very glad we so asserted it, but it would be a cause for bitter humiliation if, having once taken this position, we failed to assert it against any other power, no matter

what it might be, which should attempt a policy of territorial aggrandizement at the expense of any state in America."

Major George I. Donnell, Jr., of Missouri, was in Cuba, his wife's information from the state department on Wednesday said that 90,000 persons have perished by starvation in the province of Santa Clara since Jan. 1, 1897. Major Donnell says he cannot go to Cuba without a passport, and he is a woman or child begging for something to eat, and that a person cannot sit down to a meal without being asked for bread by starving children.

To Squelch "Outlaw" Race Tracks. Annapolis, Md., Jan. 14.—The first gun in the fight of the "law and order society" against the "outlaw" race tracks at Elkton, Iron Hill and Parkdale was fired here yesterday when Senator Crothers introduced into the senate a bill prohibiting all forms of betting on horse races of any kind. The bill applies alone to Cecil county, within the limits of which all the winter tracks on or near the Maryland state line are located, and if passed will effectively put an end to racing in that vicinity.

GUILTY, but Irresponsible. London, Jan. 14.—The trial of Richard Arthur Prince, the "super" who killed William Terriss, the actor, on Dec. 14 last, began yesterday at the Old Bailey. Prince pleaded not guilty. The jury, after hearing the evidence, returned a verdict that Prince was "guilty, that he was aware of what he did; but the jury, accepting the medical testimony, declare him to be irresponsible."

TO CURE NERVOUS DYSPEPSIA. To Gain Flesh, to Sleep Well, to Know What Appetite and Good Digestion Mean, Make a Test of Stuart's Dyspepsia Tablets.

Interesting Experience of an Indianapolis Gentleman. No trouble is more common or more misunderstood than nervous dyspepsia. People having it think that their nerves are to blame and are surprised that they are not cured by nerve medicine and spring remedies; the real seat of the mischief is lost sight of; the stomach is the organ to be looked after.

Nervous dyspepsia often do not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every other organ; in some cases the heart palpitates and is irregular; in others the kidneys are affected; in others the bowels are constipated, with headaches; still others are troubled with loss of flesh and appetite, with accumulation of gas, sour risings and heartburn.

Mr. A. W. Sharper of No. 61 Prospect St., Indianapolis, Ind., writes as follows. A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets. I have been a sufferer from nervous dyspepsia for the last four years; have used various patent medicines and other remedies without any favorable result. They sometimes gave temporary relief until the effects of the medicine wore off. I attributed this to my sedentary habits being a bookkeeper with little physical exercise, but I am glad to state that the tablets have overcome all these obstacles, for I have gained in flesh, sleep better and am better in every way. The above is written not for notoriety, but is based on actual fact.

Respectfully yours, A. W. Sharper, 61 Prospect St., Indianapolis, Ind. It is safe to say that Stuart's Dyspepsia Tablets will cure any stomach weakness or disease except cancer of stomach. They cure sour stomach, gas, loss of flesh and appetite, sleeplessness, palpitation, heartburn, constipation and headache. Send for valuable little book on stomach disease by addressing Stuart Co., Marshall, Mich. All druggists sell full sized packages at 50 cents.

A Trades Union Victory. New York, Jan. 14.—President Frank Moran and Warden DeWitt D. Connelley of the Yarnishers' union, appeared in the center street court yesterday to answer a summons to explain why the union had caused Edward Koch and Edward Wagner to be discharged, thus violating the penal code. After a hearing Magistrate Flamminger said the firm had a right to discharge the men if it was thought their presence would cause a strike and dismissed the union, Koch and Wagner were non-union men, and worked for less wages than the union scale.

EXILED FROM CUBA. For Refusing to Urge Her Husband to Yield to Spain.

New York, Jan. 14.—Senora Inez Ponce de Roque, wife of the insurgent Colonel Ponce de Roque, arrived on the steamer Seneca yesterday. Mrs. De Roque, who is a strikingly beautiful woman, was exiled from Cuba by order of General Blanco. A letter which she wrote to her husband was intercepted by the Spanish authorities, and as it contained information inimical to their interests Mrs. De Roque was arrested and thrown into prison in Matanzas. She spent 17 months and four days in jail, most of the time incommunicado. She was released under the general amnesty granted by the queen, regent. After her release she refused to try to persuade her husband to lay down his arms, and was banished in consequence.

A Senator's Resignation Urged. Frankfort, Ky., Jan. 14.—Representative Saunders, Democrat, yesterday introduced a resolution in the Kentucky house of representatives questioning the Democracy of United States Senator William Lindsay, and asking him to resign. The resolution was referred to a committee on positions and grievances by a viva voce vote, which disposed of it for all time. The resolution is the result of the heated fight over the currency question.

Expulsion For Opposing Hanna. Cleveland, Jan. 14.—The Tippecanoe club last night adopted resolutions asking Senator Burke, Representatives Bramley and Mason and Mayor McKison and Corporation Counsel Norwick, who were active in opposition to the candidacy of Senator Hanna, to resign. McKison made a speech in which he refused to resign. The directors will now be asked to expel the five members, and will undoubtedly do so.

Killed in a Restaurant Fight. Newark, N. J., Jan. 14.—Caldwell H. Abel, a young society man of this city, who was injured in a fight in a restaurant with Frederick G. SEMINOLES BEHAVING NOBLY. Collecting Evidence Against the Mob That Burned Three Trifolians.

Washington, Jan. 14.—Governor D. M. Barnett, of Oklahoma, has reported to Secretary Bliss that the Indian massacre story was wholly false. The county authorities reported there was no excitement and no danger threatened over the burning of the two men. The governor says he has just learned that the tragedy by the mob took place in Oklahoma, Indian Agent Windom, at Muskogee, I. T., writes as follows:

"There is no probability of uprising of the Indians. Commissioner Fears is proceeding with the investigation into the burning of the two Indians, and collecting evidence against the mob. Governor Barnes, of Oklahoma, has offered \$1,000 reward for the conviction of members of the mob that burned the Indians. It is believed some of the guilty parties will soon be identified and arrested. The Seminoles are behaving nobly and peacefully under trying circumstances."

ARTIFICIAL FOOD.

Princeton Professor says the Question Will soon be Solved. Princeton, N. J., Jan. 14.—Professor George MacCloskie, professor of biology at Princeton university, an extensive writer on scientific subjects, when questioned as to his opinion regarding Professor Schenck's discovery concerning the possibility of sea selection, said that he had been expecting something of the kind for some time. He said: "Modern science has been confronted with two very serious problems—namely, the increase of population and the decrease in the supply of food. The latter problem will have to be met, and will, indeed, in the near future be so met by the production of food by artificial means. There is no way, then, to decrease the population except by the generation of a larger number of human beings than of food. That is what Professor Schenck's scheme, if successful, will in all probability bring about. This thing has already been accomplished in the plant world, and in some forms of animal life."

Mr. Magawon said that he will return to Atlantic City in a few days and resume the organization of committees for the purpose of competing for prizes and will enter the list of names which he has already made and published.

Why Your Back is Lame—Why it Aches and Pains, and How to Cure it.

Do you know what it is to have a back that is never free from aches and constant pain, a lame back, a sore back, an aching back, a back that makes you life a burden? What have you done for it and does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition, a cure for it will be a blessing you do not doubt desire. Plasters won't do it, but only assist in bringing strength, judgment was used, for while it may give temporary relief it does not cure the cause. Therefore, there's the point, there's where to make the attack. Most backaches come from dislocated kidneys; therefore you must correct their action if you would be cured. People in Stenodach are testifying that DeWitt's Kidney Pills cure "back aches" and it is not hard to prove their statements. Here is one of them.

Mr. Andrew Kileyne, of 235 East Lloyd street, found in the old Quaker Kidney Cure, DeWitt's Kidney Pills, something which he can conscientiously recommend from having used it himself. Preserving them at the Kilmory Pharmacy and using them, when asked if they did him any good, he said: "I had trouble with my kidneys and a lameness across my back. I felt as though I became very lame and stiff and standing caused my back to ache. If I stopped sharp pains came on me and when attempting to lift anything I was so sore I could not touch the ground. My back aches and my legs are so sore that I can hardly walk. I have had no trouble of the above description since."
