CUBA IN THE HOUSE.

Insurgent Sympathizers Again Defeated by the Majority.

THE PLEA OF CHAIRMAN HITT.

He Declares That the Cry For Recognition is intended Merely to Involve This Government in War With Spain. President's Sympathy With Cubans.

Washington, Jan. 20.-All day yesterday the question of granting belilger-ent rights to the Cuban insurgants was argued in the house, but, as on Tuesday, the minority hurled itself against a stone wall. On the only vote taken yesterday—a motion designated to over-rule the decision of the speaker and direct the committee on foreign affairs to report without further delay the Cuban resolution passed by the senate at the last session—the Republicans stood

solid and voted to sustain the chair.

The galleries were banked to the doors, and there was considerable excitement throughout the early part of the session, when the members of the minority were successively pressing all sorts of amendments bearing on the Cuban question for the purpose of embarrassing the majority. During the general debate Chairman Hitt, of the foreign affairs committee, made an impressive speech of less than an hour explaining at length the situation which

made action by congress inadvisable.

Mr. Hitt spoke with impassioned words of the president's sympathy with the struggle for Cuban independence and the achievements of the present administration. The release of American prisoners in Cuba, the recall of Weyler, the abandonment of the policy of concentration and the autonomy scheme he attributed to the firm atti-tude of the president, and contrasted these results with the inaction of the last administration. He averred that belligerent rights could not aid the in-surgents' cause, and perhaps the most dramatic portion of his speech came when he declared that the insurgents only wished for belligerent rights in the hope and belief that this country would be embroiled in a war with Spain, which

the senate by the introduction of a resolution by Mr. Hoar, of Massachusetts, providing for an inquiry by the committee on postoffices and post roads concerning the recent order of the postmaster general reducing the force of letter carriers in several cities of the country. Mr. Hoar declared that the order had had the effect of a dynamite bomb in creating consternation among business men throughout the country while apparently all that was needed by the postoffice department was an ap-propriation of \$150,000 fully to maintain

the efficiency of the carrier service.

The debate took a wide range, Mr. Wolcott, chairman of the committee on postoffices and post roads, insisting that many New England people repre-sented by the senator from Massachusetts were responsible for the deficiency in the funds of the postoffice depart-ment, because they insisted that the government should carry second class mail at an enormous loss, and Mr. Allen, of Nebraska, charging that the government was annually defrauded out of millions of dollars through the underweighing of mail matter. The resolution in a modified form is still

Mr. Vest gave notice that he would move today to take up for consideration the Teller resolution reported by the finance committee providing that bonds of the United States may be paid in standard silver dollars. Mr. Vest's notice seems to indicate an intention on the part of some of the sen ators to displace, temporarily, the Ha-

Senator Morgan continued his speech in advocacy of the ratification of the Hawalian annexation treaty in the executive session of the senate. He an-nounced at the conclusion of the day's session that he probably would require one more day in which to complete his

He asserted that the president must assume the responsibility of any action which might eventuate in war, and appealed to both sides of the chamber to patriotically support the executive if a crisis shall come.

Mr. Dinsmore, of Arkansas, the leading member of the committee on foreign affairs, replied to him, and Messrs, Adams, Pennsylvania Republican, chairman of the Cuban sub-committee of the same committee; Berry, Kentucky Democrat, also addressed the house during the general debate. The debate will close at 4 o'clock today, when a final test will be made on a motion, of which Mr. Williams, Mississippi Democrat, gave notice, to recommit the bill with the instruction to report back the Cuban resolution to report

Senator Morgan dealt with the questions of the agricultural and commercial possibilities of the islands, with the character of the present government, and with the position of the residents of the islands on the subject of annexation. One of these came from Senator Dobler, of Baltimore city, who left the Shaw Dreyden, of Somerset, who was allsent on the first day of the bullot Major Shaw's loss through the deser tion of Senator Dobler was made up by the accession of Delegate Robinson, of Baltimore city, who voted for General Shryock on Tuesday. The outcome of the day's balloting followers of Judge McComas, they have ing confidently expected a gain of at least eight more votes than they got These were to have come from Dele-gate Chapline of Frederick, Senator Putzel of Baltimore, and the six who have been voting for ex-State Senator Parran. Why the latter did not change cannot be ascertained, as it was frank ly admitted later in the day by Mr. Parran himself that he fully expected they would go to McComas. Their fall-ure to do so is now thought to indicate the possible reappearance of Postmas-ter General Gary as a candidate, as these votes are looked upon as his whenever he wants them. General Shryock, who is regarded as

the most probable choice of the conflicting elements in the event of a compromise, expressed himself, after the ballot, as being well satisfied with the outlook. He is making a negative, rather than a positive, canvass, and hopes to eventually get the prize because of the inability of the members to unite upon any one eise. The "eleven" form Baltimore city will await the result of tonight's caucus and will probably hold a conference tomorrow morning after the result of the majority's caucus is known. Indica tions of an attempt at coalition between the "faithful eleven" and the Deme cratic members for the purpose of electing a Baltimore city non are growing stronger every hour. It is freely asserted that the only thing that stands in the way of it is the mability of the Democratic leaders to get so the possibility that some of the 11 may refuse to go into the scheme. Several refuse to go into the scheme. Severa of the most prominent of Mr. Gorman's fleutenants are in town, and confer-ences between them and the Democratic members are frequent. If the coalition can be affected and made to succeed the next senator from Maryland will be either Major Alexander Shaw or Willtam T. M lster, Speaker Sheefer is quoted as predicting that it will be Shaw, and that the fight will be over by tomorrow night.
