THE RECEPTION TO DOLE

Cordial Greeting at Chicago by City and Government Officials.

A VISIT TO FORT SHERIDAN.

A Parade of the Garrison Given in Honor of the Distinguished Visitors From the Pacific Island Republics. To Start For Washington Tomorrow.

Chicago, Jan. 24.—President and Mrs. Stanford B. Dole, of Hawaii, arrived in Chicago yesterday morning. A distinguished party greeted the president of the little island republic on his arrival. The federal government was represented by Judge Cassin, chief of the United States district court, and Hon. Thomas W. Cridler, of the state department.

PRESIDENT DOLE. In Chicago was represented by Mayor Harrison, and the army and navy by Major Helstand and Lieutenant and Commander Phelps, respectively, who were representative in full dress uniform. In addition to these gentlemen a distinguished party greeted the president of the little island republic on his arrival. The federal government was represented by Judge Cassin, chief of the United States district court, and Hon. Thomas W. Cridler, of the state department.

After the exchange of courtesies and a welcome to Chicago on behalf of the city by Mayor Harrison, President Dole cordially responded to the greetings and seemed greatly pleased at the hearty reception given to him. Mrs. Dole, who accompanied her husband, was greeted by her unaffected and pleasant manner, thanked the ladies of the committee for coming out so early in the day to welcome her, and seemed to appreciate very highly the reception she received in Chicago.

The party at once proceeded in carriages to the Auditorium annex, where a suite had been reserved for the guests. Their rooms are the same apartments occupied by President McKinley two years ago when he visited Chicago to address the Marquette club. The suite, which was decorated with Hawaiian roses and draped with a Hawaiian flag, consists of a drawing room and three bedrooms.

On arriving at the hotel General Brooke extended an invitation to President and Mrs. Dole to visit Fort Sheridan this morning. The invitation was accepted, and the party left Chicago this morning at 9 o'clock by special train. At the fort a parade of the garrison was given in their honor.

At 1 o'clock today luncheon was tendered the distinguished guests at Kingsley's, and afterwards a formal reception was held at the Union League club.

In an interview with a press representative President Dole discussed freely the conditions in Hawaii, but refused repeatedly to talk of the Hawaiian annexation question now before congress. "I cannot go into a discussion of a matter which is before congress now," he said. "It would be, I think, discourteous. But there is one thing I do wish to say. There is absolutely no foundation for those stories of Hawaii being renounced by Japan. There is absolutely nothing in it. We are not renouncing it."

The Dipper or the Dropper?

There are cough medicines that are taken as freely as a drink of water from a dipper. They are cheap medicines. Quantity does not make up for quality. It's the quality that counts. There's one medicine that's dropped, not dipped—Ayer's Cherry Pectoral. There's more power in drops of this remedy than in dipperfuls of cheap cough syrups and elixirs. It cures Bronchitis, Asthma, Croup, Whooping Cough, and all Colds, Coughs, and affections of the Throat and Lungs.

Ayer's Cherry Pectoral

is now HALF PRICE for the half-size bottles—50 cents.

MYSTERIOUS TROUBLES.

Few People Understand or Realize It. A Clear Explanation of Its Nature and How to Avoid It Clearly Shown. What is this mysterious trouble that is coming upon the people? Why is it that we see so many men who look weakened, nerveless and wholly out of condition? Why are so many women, whom we see with parched lips, dark lines under the eyes and a general lack of lustre?

These things seem to be greatly increasing of late, and without any apparent cause. We see more men who look weaker than ever before. We meet more women who seem broken-down than in the past. Surely there must be a cause for all this—and there is.

The trouble comes not from one source, namely: disordered kidneys or urinary organs. Indeed, it is now admitted that the origin of the lower body is the prime source of most physical life. As soon as the kidneys become diseased the blood becomes poisoned and all the troubles, such as sleeplessness, loss of appetite, nervousness, irritability, and indigestion depend thereon follow in its wake.

The truth is, people are not well, but they cannot see it, and they do not know how to take the means of recovery that are so near at hand. In writing upon this subject, a Gentleman, Doctor and Professor of Surgery of the United States Medical College, New York, says:

"In a large class of ailments where the disease is not of an organic nature, but where there is no evidence of organic mischief but where the general health is depleted, the face sallow, the urine colored, constituting the 'bilious' condition, the advantage gained from the use of Warner's Safe Cure is remarkable. I find also that in Bright's disease, the use of this medicine, as a solvent of albumen, is a most valuable remedy, and that it is a most adequate remedy which is able to fully control it and supplant sickness and misery with health and happiness."

Warner's Safe Cure is a most valuable remedy, and that it is a most adequate remedy which is able to fully control it and supplant sickness and misery with health and happiness.
