WEDNESDAY, JANUARY 26, 1916.

LIKE the politicians, all the bad Indians are not dead yet, and none of the good ones are still living.

THE election of McComas as United States Senator by the Maryland legislature is looked upon as in accordance with the national administration's desires. Thus a Republican succeeds a Democrat, and Arthur P. Gorman steps out.

THE Citizens party enters the municipal campaign with bright prospects for a decided victory next month, while the Democratic forces are somewhat demoralized because of unpopular nominations in several of the wards.

THERE are some candidates for the legislative nomination in this county, seeking a re-election, who should get a few lantern slides and take to the lecture platform while their boom is on. Revolving pictures, representing their past record, would be a drawing card.

THE banquet of the Burns Club last evening was a decided success in every particular, and the toasts were responded to in an able manner. Especially was this true in reference to the address of our journalistic friend, J. Harry James, Esq. His eulogistic remarks to the memory of Burns thrilled his hearers, who love to honor the memory of the poet of humanity.

THE reappointment of Genl. Mulholland as pension agent at Philadelphia is a just recognition of the part of President McKinley of the many thousand sound money Democrats in Pennsylvania who supported the Republican ticket in the last presidential election. Although a life-long Democrat, the appointee is retained in the office to which Cleveland appointed him. Genl. Mulholland had the endorsement of every Grand Army Post in Philadelphia with a single exception.

The Loud Bill.

There is no measure more wide-spread in its application, or more sweeping in its effect, than the so-called Loud bill now pending in Congress. The same measure was up in the last Congress, and although it bore, as it now does, the name of the Chairman of the House Committee on Postoffice and Post Roads, it was in point of fact prepared and fathered by the Cleveland Administration. It passed the House of Representatives in the last Congress, but failed in the Senate.

On its face the bill proposes to prohibit the sending of newspapers through the mails under the postpaid rates, except to prepaid subscribers, unless at a ruinous charge for postage. It proposes to greatly restrict the nature and form of supplements and other matter sent by publishers frequently as adjuncts to increase the attractiveness of their publications. Without going into detail with reference to the measure, which is somewhat lengthy, it is enough to say that it should be designated "A Bill to Restrict Other People's Business."

There are many reasons why the public, or should be, awake to the danger to the general welfare which lurks in this pet bill of Mr. Loud's. It is not only a blow at education, and at general business interests, but also strikes at labor, and thus reaches every home in the country however humble.

The full scope of the measure has not been appreciated by the public at large. Its effect would be greatly to decrease the amount of printed matter issued from the press and circulated through the mails. Should it become a law it would decrease the demand for white paper by thousands of tons every year; it would throw thousands of printers, machinists and pressmen out of work. It would curtail perhaps 80 per cent the demand for presses, and its effect upon the great shops where printing machinery is constructed would be ruinous, not only to the proprietors, but the artisans employed.

The hundreds of articles that are advertised in the newspaper press in all sections of the country would suffer a decrease because of the restrictions on cheap avenues of publicity, and the thousands of people engaged in the preparation of all kinds of goods would suffer accordingly.

With all these reasons, and many others that might be cited for hostility to the measure, it follows that the only way the bill will pass Congress will be through the neglect of the people. If the constituents of the

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Applied as it is, it is a sure cure for all kinds of ailments, such as indigestion, headache, neuralgia, rheumatism, etc. It is a vegetable preparation, and is entirely safe for all ages.

IT IS EASY TO TELL.

People who fail to look after their health are like the carpenter who neglects to sharpen his tools. People are not apt to get anxious about their health soon enough. If you are "not quite well" or "half sick" have you ever thought that your kidneys may be the cause of your sickness?

It is easy to tell by setting aside your urine for twenty-four hours; if sediment or settling indicates an unhealthy condition of the kidneys. When urine stands clear it is evidence of kidney trouble. Too frequent desire to urinate, scanty supply, pain or dull ache in the back is also convincing proof that the kidneys and bladder are out of order.

FATAL GALE IN ST. LOUIS.

Two People Killed and Another Seriously Injured. St. Louis, Jan. 25.—A gale that reached the highest velocity of any experienced here since the tornado of May 27, 1896, when the destruction of life and property was so great, prevailed yesterday. Its velocity was 66 miles an hour. Two deaths, one fatal injury and several minor casualties were reported, as well as considerable destruction of property. The dead are: August Weymeyer, aged 47, a carpenter, who was blown from the roof of the Shields school; Thomas Joseph Peterson, aged 4, blown from the roof of a porch. Mrs. Sarah Lorin had her spine crushed, and she may die. The injury was caused by the blowing down of a fence, splintering slams were blown down, window panes broken, outbuildings demolished, fences leveled, telegraph poles and wires broken, and in some instances roofs were taken off.

The Greatest Discovery Yet.

W. M. Rogers, editor Tickler, Ill., "Chief," says: "We won't keep house with our Dr. King's New Discovery for Consumption Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as it is so certain and sure as care for Croup, Colds, Whooping Cough, etc." It is able to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not so good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at A. Waley's drug store.

THE MONETARY CONVENTION.

It Presents the Appearance of a National Political Convention. Indianapolis, Jan. 25.—Four hundred delegates were present at the Grand Opera House yesterday when Chairman Hanna of the executive committee, called the monetary convention to order. This was an increase of 100 over the number of delegates that attended the first Indianapolis convention of a year ago. The hall presented the appearance of a national convention of one of the two great political parties, the various delegates being indicated by standards bearing the names of the various states. Governor Mount delivered the speech of welcome and Governor Shaw of Iowa, spoke for more than an hour on the gold standard and the retirement of the greenbacks. His homely and forcible comparison of our financial system with the gradual growth of a pioneer's home, gradual addition of "lean-to's" and "bath roofs," which ought to be replaced in our more advanced condition by a new structure upon firm foundations and of harmonious architecture, caught the audience with great effect, and brought forth round after round of applause.

THE NEW ENGLAND STRIKERS.

Prospects Not Good. For speedy Settlement of Labor Troubles. Boston, Jan. 25.—With increasing discontent and unrest among the operatives at Fall River, with increasing privations among the strikers and the increase in cost for fuel and the New Bedford, and the slow movement of a 2 1/2 per cent wage increase in the Pepperell mills and a 2 per cent increase in the Lawrence mills, the prospects are not good for a settlement of the labor troubles in New England this year.

The new turn of affairs yesterday in Rhode Island, at the Centerville cotton mill, where a new contract was reported by the weavers, and the work on the claim that their new agreement is for a settlement of the labor troubles in New England this year.

In New Bedford an unexpected rumor was current that one party would break its agreement and renege the old wage scale. When the weavers' executive committee met in that city the fine issue was not mentioned, showing that the strikers are not inclined to compromise on any point. The strikes and promised wage gains, substantial, judging from reports given out, have been reinforced by a positive refusal.

PRESIDENT DOLE IN WASHINGTON

Met at Station by Secretary Sherman and Assistant Secretary Ade. Washington, Jan. 25.—President Dole of Hawaii, arrived in Washington today. As there was no military display on his entry to the city, the presence of President McKinley was not required, according to diplomatic precedents. Secretary of State Sherman, accompanied by Assistant Secretary Adelman, met President Dole's train at the Baltimore and Ohio depot at 11:56. Accompanied by an escort of mounted police, the party proceeded at once to the Arlington hotel, where President Dole was assigned to what is known as the "royal suite," which has been occupied by many notables. These rooms have been especially decorated by the government for this, and are arranged with every view to the convenience of Hawaii's executive.

As soon as the party was installed at the hotel Secretary Sherman and Mr. Adelman left them, and they received a call from Secretary Porter and Colonel Bingham, who inquired at what hour it would be convenient for President Dole to receive a call from President McKinley. Owing to the fact that President McKinley did not meet his guest at the depot, it is to be expected that he will not visit him. It is believed the formal visit will be this evening.

CHICAGO POLICE METHODS.

Chicago, Jan. 25.—The committee from the state senate investigating the Chicago police board heard testimony yesterday tending to show that a regular police system of blackmail on the Chinese and white union joints exists. Several Chinese appeared before the committee, but with one or two exceptions said they were afraid to testify. Sing Tin, the proprietor of an opium joint, said in reply to questions that if Governor Tanner or Mayor Harrison would guarantee him protection, he would tell all he knew. Sing Tin said that within the past ten days the police had visited all the opium joints and warned all keepers against giving testimony before the senate committee.
