

Beware Of the Knife.

Mr. Lincoln Nelson, of Marshfield, Mo., writes: "For six years I have been a sufferer from a scrofulous affection of the glands of my neck, and all efforts of physicians in Washington, D. C., Springfield, Ill., and St. Louis failed to reduce the enlargement. After six months' constant treatment here, my physician urged me to submit to a removal of the gland. At this critical moment a friend recommended S.S.S., and I was given a deep-seated preventive against all patent medicines. I began its use. Before I had used one bottle the enlargement began to disappear, and now it is entirely gone, though I am not through with my second bottle yet. Had I only used your S.S.S. long ago, I would have escaped years of misery and saved over \$500."

This experience is like that of all who suffer with deep-seated blood troubles. The doctors can do no good, and even their resorts to the knife prove either fruitless or fatal. S.S.S. is the only real blood remedy; it acts at the root of the disease and forces it out permanently. S.S.S. (guaranteed purely vegetable).

DE LOME'S DEPARTURE

Will Not Be Hastened by Action of Our Government.

HIS RESIGNATION IS ACCEPTED.

And He is Now Only an Ordinary Spanish Citizen Lingering Long Enough in the Capital City to Pack Up and Remove His Effects.

Washington, Feb. 11.—A non-official dispatch received from Madrid yesterday says: "At a meeting of the Spanish cabinet the minister for foreign affairs, Senor Gullon, read the resignation of Senor Dupuy De Lome, the Spanish minister at Washington, saying that the published letter to Senor Canalejas was written by him, and that his position, consequently, had become untenable, and he begged the government to accept his resignation. The cabinet decided to accept the resignation of Senor Dupuy De Lome, and the ministers subsequently met and decided to telegraph to Senor De Lome accepting his resignation and entrusting the first secretary with the conduct of the affairs of the legation.

In view of the news from Madrid of the acceptance of the resignation of the Spanish minister it may be stated that our government is not disposed to split hairs over the method of the offending minister's retirement. In other words, it is not concerned as to whether he resigns or is removed, so long as he leaves the capital. It is true that the exact language of the message sent by the state department to Mr. Woodford indicated the president's desire that the minister be recalled, but the language was used as the most proper for such an occasion, and must not be taken to mean that the president is disposed to go further than is necessary in the pursuit of Mr. Dupuy De Lome, now no longer an official of the Spanish government representing it at Washington, but simply a Spanish citizen lingering at the capital only long enough to pack up and remove his effects.

The Madrid cable dispatch was communicated to the Spanish minister, and was his first knowledge that action had been taken by the cabinet and queen. The acceptance of his resignation was fully expected, and occasioned no surprise or change of plan. The effect of the acceptance is to close Senor De Lome's services as Spanish minister at Washington.

The future status of Senor De Lome in a matter of this nature is open to his government's recall to Spain or a transfer to another diplomatic post. A recall without designation to another post would leave him in the ranks of the diplomatic service, on waiting orders. This is the position of Senor Murugua, who preceded De Lome here. In case of a desire to transfer him to another post there are a number of important Spanish embassies and legations available. In some quarters it is thought that the sentiment of the Spanish people would approve a transfer of this character, but it is believed to be more probable that the Spanish government will wait until the strain of the incident is over before deciding the future of its retiring minister. This is the more likely since Senor De Lome is not a Liberal, but belongs to the Conservative party, which is now out of power.

The action of the cabinet in designating the first secretary as charge d'affaires leaves a question as to whether Senor Pablo Soler or Senor Dubosc will be in temporary charge, both having ranks as first secretaries. It has been understood that Pablo Soler would be named, but at the legation it was said nothing definite could be stated until the official notification from Spain was received.

Under the peculiar circumstances existing in the legation at this time, the departure of the Spanish minister is attended with much doubt. It is usual when a foreign representative leaves the country for him to be received in formal audience at the White House, when an exchange of well wishes takes place and the president and his cabinet. It is hardly expected that this formality will be observed in the present case, owing to the personal aspects of the incident.

In cases that approach this in most respects the minister has usually already been recalled to Spain, as presented by his successor, Senor Murugua, who was Senor Dupuy De Lome's predecessor, left Washington suddenly on leave of absence, shortly after the appearance in a newspaper of an interview in which he criticized our government. He did not return to Washington, but Senor De Lome appeared with the letters of recall of his predecessor and letters accrediting himself as his successor. So that there is precedent for a failure on the part of the retiring minister to take formal leave of our president. In such a case the department that there is no time limit within which Mr. De Lome must leave Washington, and being now only a private Spanish citizen, he may take a reasonable time to arrange his affairs here without calling for criticism.

The De Lome letter has already attracted the attention of foreign governments, and appears to be regarded by them as an important factor in the general Cuban question. Some of the foreign ministers at Washington have advised their governments fully on the occurrence. These reports, and the fact that the outgoing minister at the legation assumed that the letter was a forgery, and some advice conveyed this view of the case. Now that its genuineness has been established the facts have been sent to most of the foreign capitals. No incident in recent days has caused such a sensation in the ranks of the diplomatic corps. It has also aroused a keen discussion as to the right of criticism which a minister can indulge in, under the seal of a private letter. While there is no general consensus of opinion among diplomatic authorities, yet many of them take the view that it is not only a right, but a duty, for a minister to present every detail, even of a personal nature, which in his judgment may aid in a correct understanding of the situation. A distinction is made by them in official and personal letters.

DE LOME'S POSSIBLE SUCCESSOR.

It is Thought in Havana That Senor Murugua Is the Man.

Havana, Feb. 11.—The publication of the news of Senor De Lome's letter produced a profound sensation in Havana, in political and military circles, at the theaters and in the coffee houses it was the theme of eager discussion. Not for a long time has any piece of news been the subject of such widespread and absorbed attention. In all circles the letter is pronounced "indiscreet." Senor Murugua is considered as likely to succeed Senor De Lome.

La Lucha, commenting upon the De Lome affair, says: "At various times during past years we have said that Senor De Lome is not the man Spain needs at this moment in Washington. In spite of this, the most prominent Madrid politicians have not thought so. We have reliable information to the

effect that the letter attributed to Senor De Lome was intercepted before it was delivered to Senor Canalejas. Other things are said, which will be cleared up in time and cause considerable astonishment.

MADRID PRESS OPINIONS. *Weyler's Organ Says:* "Americans Have Become Our Lords and Masters." Madrid, Feb. 11.—Senor Sagasta, the premier, and other members of the cabinet state publicly that the De Lome incident will not affect the relations between Spain and the United States, and that a new envoy, competent to conduct the commercial negotiations, will be selected. *El Epoca says:* "Senor De Lome's resignation having been accepted, the international question disappears. Nevertheless the Cuban insurgents have succeeded in chasing from Washington a representative of Spain, who has always displayed great zeal to prevent filibustering expeditions, but they have done so by tricks only employed by the clients of penitentiaries." *Correspondencia Militar says:* "The government should not have accepted Senor De Lome's resignation. The American attitude is offensive and humiliating to Spain."

El Correo Espanola, the Carlist organ, says: "We are at the beginning of the end of our respect for the United States." *La Nacional, the Weylerist organ, reproaches the government for yielding to the exigencies of Washington, and adds:* "The Americans have become our lords and masters."

THE PITTSBURG FIRE.

Thirty-Nine Lives Have Probably Been Sacrificed. TWELVE DEAD BODIES FOUND. The Other Twenty-seven Are Doubtless Buried 'neath the Ruins of Wrecked Buildings—Property Loss Will Reach a Million and a Half.

Pittsburg, Feb. 11.—Twelve persons dead, 27 missing and 19 injured, and a property loss of \$1,500,000, with about 1000000000 in damage, are the results of the fire of Wednesday night. Following is a revised list of the known dead; Police Lieutenant A. J. Berry; William Scott, eldest son of the president of the Chattanooga Ice company, and his youngest brother, John; William McGonigle, the company's assistant engineer; John McHanna, Turkey Stone; John Dwyer, George Lovelace, William Smith, Albert A. Wolf, Thomas Claffey and William L. Wallehabentia.

The missing, all of whom are probably buried under the ruins, are: George Newman, fire inspector of Philadelphia, Pa.; Professor James Moxan, organist of the Evangelical Lutheran church, Brunston, Pa.; Samuel McLaughlin, Jacob Booth, Jack Farrell, George McDonald and four companions, who were in a saloon on Penn avenue when the falling wall crushed the building. Mrs. Mary Madden, with her family of eight children, who lived in a house on Mulberry alley, which was crushed; William Doran, William Finch, Edward Donnelly, Chris Schriver, James P. Morrison, D. B. Weckery and George Gerry. When the explosions of whiskey barrels took place those within the fire lines were seen to fall in all directions. Those outside the lines were not beyond reach of danger. Those not prostrated by the first blast were knocked down by the second. Many were killed as the falling walls created a vacuum that seemed to draw everything.

A company of firemen was throwing a stream into the great storage house from the narrow courtyard in the rear of Penn avenue, from which a much heavier fire broke out at the moment the first explosion took place, and part of the massive wall of the storage house toppled over on the roofs of the houses and into the courtyard. The firemen at work there escaped by the narrow chance.

The fire started in the Mulberry alley side, where the hoist derrick was anticipated. That the force of the explosion was the most severe, and there the greatest number of fatalities took place. Explosion followed explosion for about half an hour. Walls kept toppling down, and through the openings and spaces there were rendered almost powerless to act by the sense of awe and terror which the scene inspired. The old brick houses along Penn avenue from Thirteenth to Twelfth streets caught from the rear and burned rapidly.

All day long the city and other city employees worked at the risk of their lives, but little progress has been made in clearing away the debris. The work will be continued without cessation until it is known no bodies remain buried. Twenty streams are continuing to play on the burning ruins. A heavy pall of smoke overhangs the desolate scene, and the tired policemen have hard work to keep the thousands of curious onlookers from getting within the rope cordon. Many of the people who fled panic-stricken from their homes on Wednesday night are plucking up courage enough to return to the houses not jeopardized by the fire weakened walls.

Mayor Ford yesterday afternoon, realizing that some of the worst features of the calamity are yet to come, so far as the dead and bereaved families are concerned, and that many will be in need of prompt aid, issued a public letter suggesting subscriptions from the citizens for distribution among the needy victims.

Twenty Killed at a Funeral. Warsaw, Feb. 11.—During a funeral service in the synagogue at Hadenol, in Gorden, the woman's gallery collapsed. In the panic that ensued 12 women, 5 men and 3 children were crushed to death, and many others were seriously injured.

Retired From Dr. Chase's Church. New York, Feb. 11.—Eight resignations were presented to the meeting of the session of the Fifth Avenue Presbyterian church last night. The resignations were not acted upon, the reason assigned being that it was customary to place resignations on file for future action and to give those who resign an opportunity to reconsider their action.

In odd times mistaken enthusiasts used to indict upon themselves all manner of painful and horrible tortures. Men scourged themselves with whips and hot irons, and rubbed vinegar into the wounds. Nowadays such cruel tortures are considered manna. Nevertheless, men and women go on torturing themselves, only in a different and more serious manner than of old. They neglect their health, their health means physical torture of the worst description. It means slow starvation. Because it means forced food into the worst and impaired stomach, it does not follow that he feeds his body. The life-giving elements of the food taken into an impaired stomach are not assimilated into the blood. Instead, the impurities of the sluggish liver and bowels are taken up and carried to all parts of the body. The consequence is a general decay of the system, starved but poisoned. The immediate result is physical suffering from which the old time zealot would have drawn back in horror. The physical decay is accompanied by death. Dr. Pierce's Golden Medical Discovery is a scientific remedy that acts according to natural laws. It is not a violent purgative, nor does it stimulate the system. It gently, but surely and permanently, promotes the natural processes of secretion and excretion. It creates appetite, makes the assimilation of food perfect, invigorates the liver and purifies and enriches the blood. It builds up firm, muscular flesh. It cures nervous exhaustion, debility, indigestion and all the evils that follow in their train. Found at all medicine stores. Accept no substitute that may be represented as "just as good."

I can highly recommend Dr. Pierce's Golden Medical Discovery and advise all to anyone troubled with indigestion and torpid bowels. I feel compelled to say that my family physician could do nothing for me. I could eat nothing, and in a horrible distress and pain in my stomach. I have taken four bottles of your Golden Medical Discovery and feel like a new man, and can work all day."
