Bottled Up!

Whether in the form of pill powder or liquid, the doctor's prescription for blood diseases is always the same—mercury or potash. These drugs bottle up the poison and dry it up in the system, but they also dry up the marrow in the bones at the same time.

The suppleness and elasticity of the joints give way to a stiffness, the racking pains of rheumatism. The form gradually bends, the bones ache, while decrepitude and helplessness prematurely take possession of the body, and it is but a short step to a pair of crutches. Then comes falling of the hair and decay of the bones,—a condition truly horrible. dition truly horrible

Contagious Blood Poisou—the curse of mankind—is the most horrible of all diseases, and has always baffled the doctors. Their potash and mercury bottle up the poison, forth again attacking some delicate organ, frequently mouth throat, filling them with eating sores. S.S.S., is the only

LATTIMER'S MASSACRE

Further Evidence Showing Premeditation on the Part of Deputies.

A FATE WORSE THAN DEATH.

George Gasperick Carried Into Court in a Chair, His Arms and Legs Paralyzed by a Deputy's Bullet-Unable to Feed or Dress Himself.

Wilkesbarre, Pa., Feb. 18.-In the trial of Sheriff Martin and his deputies yes-terday John Pupka, the first witness of the day, testified regarding the in-tention of the deputies to shoot. He said he was standing in the road at West Hazleton when one of the deputies said to him: "You had better get off the road; you may be hurt. We are going to shoot. That's the sherift's orders." He heard another deputy say, "Get back there, I'm going to shoot you." "Shoot away," said the man, "if you see me do anything wrong."

Angelo Matz, the first Italian to tes-tify in the case, said he was gathering rags on the day of the shooting, and met the strikers, and joined their ranks in order to "see the fun." He said he could not tell who fired the first shot, the sheriff or the deputies. "Just after the big volley was fired," he said. "I saw a wounded striker near me trying to get on his feet, and a deputy ran over and pumped several shots into his

back, killing him."

Andrew Yesmot, John Dally and Casper Mozeer showed the sears left by their wounds, but their testimony developed nothing new.

George Gasperick had to be carried into the court on a big chair by four men. He is still suffering from a horrible wound received at Lattimer. His arms and legs are paralyzed, so he cannot feed himself nor dress himself, and is entirely helpless. The bullet which entered his head just over the right ear is still embedded there, and he says he cannot see well, and all the time he feels a rattle in his head. He said that at Lattimer he was about 25 feet from the head of the line, and had started to run when shot.

Another badly wounded witness was John Slebodnik, who still has a bulle in his head. He was in a Philadelphia hospital, where the bullet was located by an X-ray machine, but the surgeons would not remove it, saying the oper-

ation would be fatal. John Kulick and Anthony Angelo also showed their wounds, but gave unimportant testimony.

WHAT DO THE CHILDREN DRINK?

Don't give them tea or coffee. Have you tried the new food drink called Grain-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about I as much. All grocers sell it, 15c and

Nanaimo, B. C., Feb. 15.—A speci-rom Juneau, Alaska, Feb. 12, confirm the news of the loss of the Clara No vada, and says: "The cause of the dis-aster was doubtless the explosion of her boilers. Of the 50 people on board none are believed to have been saved. The Clara Nevada was a tramp steam-er, and as she was plying between United States ports she did not file her passenger list with the custom house officers. It is thought that she carried about 20 passengers, of whom two or three were women. Several were bound for Juneau and the others for Seattle.

The Pennsylvania Miliers. Altoona, Pa., Feb. 18.—Being unable to harmonize the interests of all sections of the state, the miners' con-vention yesterday, before final ad-journment, adopted a plan for district organization instead of a state organi-zation. It provides that District No. 2 shall take in the 13 counties which com-prise the whole eastern part of the state outside of Pittsburg district until a more complete organization can be affected, so as to include Maryland and the Virginias. In the event of no argeement being made with the operators before March 22 another convention of the miners will be called.

After years of untold suffering from piles, B. W. Pursell, of Knitersville, Pa., was cured by using a single box of DeWitt's Witch Hazle Salve. Skin diseases such as eczema. rash, pimples and obstinate sores are readily cured by this famous remedy. C. H. Hagen buch.

Cornell Will Row Yate and Harvard Ithaca, N. Y., Feb. 18.—Coach Courtney, of the Cornell 'varsity crew, last night received a telegram from Professor Benjamin Ide Wheeler, who, to-gether with Captain Colson, is in New York cepresenting Cornell in the conferences with representatives of Yale Harvard, Pennsylvania and Columbia university crews relative to the inter-collegiate races this coming spring. The telegram says: "Cornell will row Harvard and Yale in a triangular race June 23 and 24, at New London. Will also row Pennsylvania and Columbia, either at Saratoga or Poughkeepsis, July 1."
