Many Varieties.

There are publications and publiations. There are some that are sar at any price, where the adverser is concerned. A merchant can o to some newspapers, and while he rate may seem exorbitant vet it very reasonable in proportion to the returns received. Supposing be would say to the business manager. 'No. you must run this advertisement for much less or I will give it to your competitor." He places his ad, in the cheap-rate paper, strides home with the satisfaction of having 'done-up" and got even with that righ-priced concern, and probably nagines the paper will discontinue siness.

The two papers when printed look good deal alike. He got his cheap advertisement, which probably wasn't worth one-third what he paid for it, and then becomes a confirmed pessimist on the question of advertising. As he was probably a two cent man, he doubtless got the worth of his money.

The paper asking the higher and reasonable price goes right on giving good value received, publishes an upto-date medium. The cheap coneern in time drops out of the race and quits in disgust and doesn't know "what's the matter." The cheap advertiser has let his more prudent

competitor get the start of him, and he quits and doesn't know "what's the matter."

The cheap paper publisher and the cheap advertiser both thought they knew it all, and both looked down in isdain on their respective competors. They are both in time looking r a job and giving past acquaintces as references. Their business ad not been a success on account of

IN SENATE AND HOUSE.

Congressmen More Liberal in Warlike Appropriations.

Washington, Feb. 25.—The house de-voted itself strictly to business yesterday, and disposed of 40 additional pages of the sundry civil appropriation bill. An unsuccessful attempt to increase the appropriation for the suppression of epidemic diseases \$200,000 led to considerable debate on the advisability of establishing a national quarantine. The fact that the government is preparing for contingencies was recognized in the house yesterday when Chairman Can-non, who has been laboring to keep down appropriations, accepted without a word of protest an amendment to in-crease the appropriation to care for the unused machinery at the Springfield arsenal. Mr. Gillett explained that necessity for using this machinery might occur at any time. Resolutions which were objected to a few weeks ago for the appointment of two ex-naval cadets to positions in the en-gineer corps of the navy were also adopted. One of them will fill a vacancy caused by the death of Lieutenant Merritt, of the Maine.

A feature of the senate's session yes-

A reature of the senate's session yes-terday was the speech of Mr. Spooner, of Wisconsin, on the right of Henry W. Corbett to a seat in the senate from Oregon under appointment of the governor. Mr. Spooner made a constitu-tional argument in favor of seating Mr. Corbett, and had not concluded when the senate adjourned. An effort was made to obtain consideration of the Alaska homestead and railway right of way bill, but on a parliamentary technicality it went over. The resolu-tion offered on Wednesday by Mr. Al-len to appoint a committee of five sen-ators to investigate the Cuban situation was withdrawn by its author when it was laid before the senate.
