### A BOY ABUSED.

Parents Make Serious Accusations Against Two School Teachers.

Complaint was made before Justice Shoe maker last night that a six-year-old Polish boy had been shamefully abused by two femal teachers in one of the public schools town. The child's proper is Stiney Modszeiwisky, but he is known in the schools as Stiney Casper. If the facts alleged by the parents are correct were covered with bruises, and back of the thigh there was a mark about six inches long and three inches wide which the little fellow received by coming in contact with a hot heating pipe. All these injuries the child is alleged to have received in the school room. After consultation in the Justice's office the parents concluded to consult a lawyer before instituting suit. It is stated that there have been several complaints recently of teachers using more severe punishment than the cases seem to warrant.

Mr. Roosevelt. Just before the department closed Secretary Roosevelt had word of the sailing of the cruiser Montgomery from fullest apology and also an agreement Tampa for Key West. Up to that time the vessel had been given no orders, so that the date of her departure for Havana, if she is to go at all, is conjectural. The ship went to Tampa instend of Key West on her return from San Domingo in order to facilitate the speedy return to his duties in Wash-ington of Captain Crowninshield, the chief of the navigation bureau, saved a full day by the movement.

Since so much depends upon the re-port of the court of inquiry it may be interesting to note that so far Secre-tary Long himself does not know when to expect this important document, up to this time having heard nothing from any of the members on this point. He rather expected that the court, which has complete power to work on its own lines, would wind up its work at Havana before leaving, so as to avoid the necessity for a return trip. One member of the cabinet had a more definite opinion on the subject, expect-ing the receipt of the report from the

court about the middle of next week.

There is reason to believe that meantime, and to prepare for the reception of a report that would show the disas-25 Cents German Lutheran church, were entered at the residence of their teacher, on North accident, some of the officials of the administration have been looking up the subject of indemnities, so as to lay the subject of indemnities, so as to lay the foundation of a case, in the event it should be decided to resort to that

method of settlement.

There are a large number of precedents which will aid the authorities in shaping their action in this direction when the facts are fully established. While none of the cases show the feardrill factics and the first drill win presented in Shenandoab. The latter place was represented at the meeting by Frank B. methods of redress have included demands for indemnity, proclamations excluding the war ships of the offending cluding the war ships of the offending one harbors, display of nation from our harbors, display of force, non-intercourse, withdrawal of our minister, reprisal and blockade. Some of these steps border very closely on war, although they are regarded as the movements just preliminary to actual hostilities, and as amounting to a threat that force will follow if repara-

tion is not made. The case of the Water Witch is con-

feeling was aroused in the United States when the facts became known. The president reported the facts to congress, and in his message asked authority to make a demonstration of force which would ensure suitable redress. In response to this congress authorized him to "use such force as is necessary" to secure ample reparation.
Accordingly an armed fleet was hast-

fly assembled on a scale which was re-garded as remarkable for those days. The expedition included 19 armed ships, 25 heavy guns and 2,500 malors and marines. Accompanying this formidable outfit were civilian plenipotentiaries, prepared to make the demands of this government and then enforce them by calling on the armed ships.
