SATURDAY, FEBRUARY 26, 1935.

DURING all this bloody war with Spain it is remarkable that Senator Tillman, the pride of Salmykill's wilderness, has not offered the government his pit-bull.

There are two blind beggars in New York who have stood at their respective corners on Fifth Avenue every day for 35 years. It is believed that both have accumulated fortunes.

ONE of the most remarkable gifts that ornaments the home of Rev. Dr. Palmage since his return from his recent wedding trip is a Russian tar service of gold and enamel, a personal token from the Czar of Russia.

THE scheme suggested by some misguided patriot for electing Congressmen for four instead of two years is entitled to the dullest and most expeditions thought in the market. The people of the Thirtieth Congressional district would not tamely submit to a proposition of that character. There is a limit to all things.

ZOLA's condemnation, or rather the manner of Zola's condemnation, is of more than abstract and impersonal interest in other countries, especially in those where the notion is cherished that the only legitimate objects of legal procedure are the ascertaining of facts and the awarding of justice. But what certainty is there that a foreigner's rights will be respected in the French tribunals? Zola's fate might befall any one of these.

THE New York Sun prints this communication, signed "Fair Play": "I notice that ex-Gov. Hogg, of Texas, after naming his two daughters, Ima Hogg and Eura Hogg respectively, has again displayed his inimitable sense of humor by christening the latest addition to his family Moore Hogg. I suggest that the ex-Governor show his appreciation of the eternal fitness of things by changing his own first name to Adam."

PRESIDENT MCKINLEY'S firm and patriotic attitude in the recent crisis with reference to Cuban matters has been and is cordially commended by men of all parties. The dignified but vigorous stand taken by him in the De Lome incident has already resulted in a complete disavowal by the Spanish government, and his course and that of his official family in regard to the Maine disaster is receiving a general approval, and his hands in this trying moment are being cordially upheld by men irrespective of past party relationship.

THE queerest thing that strikes the observer who handles a large mail is how many instances there are where stationery is printed without anything on it to indicate the city or state from whence it came. When Chicago got so big her citizens thought Illinois, or its abbreviation, a useless adjunct to their date lines, they set a bad example. Here and there others followed the fad, until it became a nuisance. A letter came to this office recently from one of the large novelty and publishing houses, that had nothing on the printed heading by which to locate the town from which it came. Only the firm name, which was familiar, saved an important communication from going to the waste basket. It's a good plan to see that name, street, number, city and state are prominently, or at least legibly, displayed on every piece of printed matter that leaves an establishment.

**BLADDER TROUBLES.**  
The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

**SAMPLE SENT FREE.**  
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. It is comforting to know that Dr. Kilmer's Swamp-Root fills every wish in quickly curing bladder and urinary troubles. It corrects inability to hold urine and scalding or stinging pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail upon receipt of three two-cent stamps to cover postage on the bottle. Mention **HERALD** and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

**THE WRECKED MAINE SINKING. No Attempt to Raise the Battleship Will Be Made.**  
Havana, Feb. 26.—The wreck of the Maine is slowly but surely sinking into the mud. Before the hull could be raised it would be necessary to remove the guns and deck debris. For that reason the appliances practically nothing in this line has been accomplished. Aside from the officers' and cabin effects the salvage thus far has been pitifully small. The cloudy weather and rain made the work of the divers unsatisfactory yesterday.

**Coming Events.** March 14—Social and entertainment under the auspices of the Christian Endeavor will be held in the M. E. church. Refreshments. Admission 10 cents.

**IN SENATE AND HOUSE.**  
**An Exciting Debate Over River and Harbor Appropriations.**  
Washington, Feb. 26.—A long and somewhat exciting debate over the question of river and harbor appropriations was held in the house yesterday during the consideration of the sundry civil appropriation bill. It was practically agreed by all those who participated that there would be no river and harbor bill at this session of congress, and this led Mr. Moody to attack the contract item carried in the civil sundry bill. He selected an appropriation of \$250,000 for the harbor at New York, which is in Mr. Dingley's district, and his remarks in denunciation of what he termed favoritism in appropriation. Mr. Dingley denied that he had ever suggested the appropriation to the committee on appropriations or to any individual members of the committee. It was intimated that there was a plan to defeat all the items in the bill, so as to force the appropriation of a general river and harbor bill, but the intimation was not borne out by the vote upon the amendment upon which the debate rested. Mr. Berry, of Kentucky, succeeded in securing the adoption of an amendment increasing the appropriation for the Kentucky river from \$105,000 to \$250,000.

**Maine shows almost beyond the possibility of a doubt, in the opinion of my informant, that the Maine was blown up by an outside agency. Furthermore, Morgan's report was verified by the other American divers who descended yesterday.**  
The court has decided against any attempt to raise the ruined battleship. The members are convinced that it would be useless, as the could never be kept afloat, and the Spanish authorities here will be informed that if they wish the wreck removed from the harbor they must attend to the work themselves. This decision gives a better idea of the terrible havoc wrought in the Maine than columns of description could do. The Merritt Wrecking company, it was announced, wanted \$2,000,000 to raise the wreck. The company's representatives made this demand after viewing the condition of the ship.

**The wreckers yesterday turned their attention to salvaging the great guns. Those at least can be recovered in sufficiently good condition to warrant the effort.**  
Twenty unknown bodies of the crew were recovered from the wreck by the divers at noon yesterday. The bodies were frightfully burned and mangled, and it may be impossible to ever identify some of them. All the wounded will leave here tomorrow on the Bache for Key West. The physicians consider it safe to move them now.

**IS IT CURABLE.**  
A Question Often Asked by Those Afflicted With Piles.

Is a strained joint curable? Is local inflammation curable? Of course, if properly treated. So is piles.

People often become afflicted with piles and ask some old "chiropractor" who has always persisted in the wrong treatment and naturally he discourages them by telling them that their case is hopeless.

**LA CHAMPAGNE PROBABLY SAFE.**  
French Line Agent Expects Her Arrival in a Couple of Days.

New York, Feb. 26.—The Dutch tank steamer Bremerhaven, which arrived here yesterday afternoon from Antwerp, reports that on Feb. 19 she passed a steamer, apparently a Frenchman. She was almost stopped, and was heading northeast. She had two masts and two funnels. Regulation lights were burning, but no signals were displayed. It is quite probable that the Frenchman had sea anchors out, although it was too dark to see as if such were a fact.

**DO IT YOURSELF.**  
You can tell just as well as a physician whether your kidneys are diseased or healthy. The way to do it is to take a bottle of glass tubing and fill it with urine. If there is a sediment—a powder-like substance—at the bottom after standing a day and night, there is something wrong with the kidneys. Another sure sign of disease is a desire to urinate often, and still another sign is pain in the back. If urine is thin, there is no doubt that the kidneys are affected.

**Five Injured by Mitten Storm.**  
Pittsburg, Feb. 26.—Five men were badly injured by being splashed with hot metal at the Monacauba steel works, at McKeesport, about 2 o'clock in the morning. While workers were hoisting a huge mass of molten metal the pit collapsed and overturned, the contents running over the sides. William Sample was burned about the face and body, while four others, named Snyder, Chesler, McCarty and McClure, received injuries. All the men were taken to their homes except Sample, who was removed to the McKeesport hospital. His injuries, however, will not prove fatal.

**TO PROTECT NEW YORK.**  
Precautions Taken to Make the East River Entrance Inalienable.

New York, Feb. 26.—At Willott's Point, near the entrance to New York harbor, a so-called skirmish line of torpedoes is projected from the Willott's Point shore across the channel to Fort Schuyler. The torpedoes will be anchored so close together that it may be made impossible for a hostile vessel to cross the line without being blown up.

**For Transporting Troops.**  
Tampa, Fla., Feb. 26.—Although the officials of the company have not so stated publicly, they have arranged to have their line of steamer service to Havana and other ports in the West Indies, to be operated by the United States Army.

**Running on Time.**  
SOUTHERN RAILWAY FLORIDA TRAFFIC MAKING A REMARKABLE RECORD.  
Jacksonville, Fla., Feb. 26.—Last season it was not an uncommon occurrence for the trains from the North to reach here from one to five hours late. The remarkable regularity of the arrival on time of the Southern Railway trains this season is a matter of comment and favorable criticism around the hotels and by all incoming tourists. The schedule of the Florida Limited, the fast train over the Southern Railway and the Florida Central and Peninsular, is several hours shorter than that of last year, but the track has been put in excellent condition and the engineers of incoming trains say the new schedule is made with ease.
