The man who does not know what
wrecked the Macon is not yet among
the missing.

A train in New York week guest
represented a vegetable. It is pre-
sumed that when the engine and the
horse-drawn car entered there was not a
dry eye in the house.

There is a general demand among
the people of Shenandoah for paved
streets, and the probabilities are one
or two squares will show marked im-
provement in this respect this summer.

Some of the Democratic applicants
would be delighted to place a mine
under the Councilman's caucus, if an
explosion would break the "state" and
help their cause. They should re-
member, however, that there are not
sufficient offices to go around.

The principal contest in the organ-
ization of the Borough Council at
Mahanoy City, is over the presidency.
W. E. Jones, the present incumbent,
is opposed by D. L. Van Horn, and
the fight has developed exciting
features. Both gentlemen are well
known here.

SENATOR BUTLER, of North Caro-
lina, says "Populism stands for the
Democracy of Jefferson and Jackson
and the Republicanism of Lincoln."
The Pop. theorist, feels at liberty to
fuse with any party for an office.
His historical knowledge and political
principles are well matched.

COMB to think of it, we haven't
heard the name of Schuyler county's
warrior bold mentioned for the
gubernatorial nomination. The
above said "favorite son" should at
once open this dispatch: "Washing-
ton, D. C., Dear Jack: Call the boys
together at Joe's, and whoop up my
boom. We must deliver the delegates
for the 'Old Man.' The Congressional
nomination is at stake."

THE circulation of the HERALD is
now greater than it has been at any
other time in many years. The efforts
of the present management is to
offer a newspaper to the citizens of
Shenandoah and the Mahanoy valley
that they can welcome in their homes,
a newspaper that is progressive, and
the success attending our efforts
shows that we have not misjudged
the wants of our thousands of
readers. And for this reason the
HERALD commands a large advertising
patronage.

THE Savannah News says that the
first contributor to the fund for the
new Roman Catholic Cathedral to be
erected in Savannah was the six-year-
old son of the Rev. Robb White,
rector of Christ Episcopal church in
Savannah. The little fellow had
been frugal with his savings, and he
had accumulated \$5. This he con-
verted into a gold piece, and in a
manly fashion carried it to a member
of the Cathedral congregation and
tendered it as a starter for the re-
building fund. The gentleman ac-
cepted the little fellow's contribution
and added \$500 to it on his own ac-
count.

THE readers of the HERALD are
always gratified at any success of one
of their former townsmen, Thomas
J. Foster, now located at Scranton,
The Colliery Engineer, of which he
is the editor and principal stock-
holder, has increased his capital stock
from \$750,000 to \$1,000,000, and the
Times of that place says: "Our hat
is off to Thomas J. Foster, the presi-
dent of this concern, to whose bright
mind and active energy the success
of the great enterprise is largely due.
May he live long to witness still more
amazing developments of his creation,
still in its infancy. It is capable of
enormous development, for its field is
the whole civilized world."

ARCHBISHOP IRELAND, a patriotic
American whose public utterances
always command attention, said in
an interview on the Spanish ques-
tion: "Certainly, if guilt is brought
to the door of Spain full retributive
justice should be the order of the
day; liberal indemnity, apologies
and full reparation ought to be pre-
ferable to the legislators rather than
that course which would entail upon
the country the consequences of
war. The attitude of the Adminis-
tration is dignified, worthy of this
great nation. War scares and the
rumors of war do not move it. It
is the necessity of war, mean-
while making ready. Mr. McKinley
will not rush the country into a
conflict. Should the honor of
the country demand that Mr. Mc-
Kinley sign the proclamation of war
to do it with the same love for

peace, the same courage and the
same trust in the God of our nation
that characterized Abraham Lincoln
nearly forty years ago."

THE WEEK IN CONGRESS.

Some Think Advertiser May Be
Reached by May or June.
Washington, Feb. 23.—Beyond the
fact that the Corbett case will be de-
cided today, and that after the discus-
sion of the bill regarding the right of way
for railroads in Alaska and for other
purposes will probably be taken up,
the program in the Senate for this week
is quite indefinite. The Alaska bill is
in the hands of the Finance committee
and it will not be voted upon
without considerable discussion. There
is no general disposition to defeat the
bill, but some members are of the op-
inion that it should be amended in sev-
eral particulars, and they will seek
to secure these changes before the vote
is taken. It is believed the bill will
pass after a day or two of talk upon it.

It is probable that after the Alaska
bill is disposed of some of the bills of
less general importance on the calen-
dar will be considered. One of these
is the bill for the payment of the claim
of the bank owners of the Southern
Methodist church for property destroyed
at Nashville during the civil war. This
bill appropriates \$25,000, and has
aroused some opposition.

Senators generally agree that unless
there is some reason for postponing
adjournment it can be reached by May
or June. The friends of the Hawaiian
treaty say, however, that some of the
appropiation bills will be held back
until the question of annexation is de-
cided.

The program of the house for the
coming week includes the completion
of the sundry civil bill, which has been
under consideration since last Wed-
nesday, action on the bill for the re-
lief of the victims and survivors of the
Maine disaster, the senate bill authoriz-
ing the enlistment of two additional
regiments of artillery, and the Loud
bill relating to second class mail mat-
ter. The latter bill has been made the
special order for Tuesday, Wednesday
and Thursday, and a spirited contest
is anticipated.

ECHOES FAR AND NEAR

Down One Street and Up Another,
From Every Ward in Shen-

Hard to hold down the enthusiasm of our
people under such circumstances as those
surrounding the work of the little coqueror.
There is no place in the world where a good
thing is better appreciated than right here at
home. We are quick to see it and quick to
"rush along" in the manner that it merits.

From all parts of the city come the same re-
ports, success follows in every footstep and in-
vestigation of each new case but adds to the
endorsement that has gone before and places
their claims beyond the shadow of a doubt.
This report comes from West Poplar street,
where our representative found Mr. Robert
S. Jones, miner, at his place of residence.

The following statement will interest our
readers:
"For years I had headache, but of late it
seemed to have changed more to headache.
I also had difficulty with the kidney sec-
tion, accompanied by too frequent action.
I was troubled with a listless or tired feeling
and though I used about every kind of medi-
cine I knew about, I cannot name one that
has not failed. I got no permanent relief
from any of them. I finally read about
Doan's Kidney Pills and got them from Kir-
lin's Pharmacy. They were the first remedy
which gave me positive relief. They stopped
the bladder trouble and I have had none of
those headaches since. I recommend Doan's
Kidney Pills as the best kidney medicine
that ever came out."

NOT FOR EVERYTHING.

But if you have weak kidneys, bladder
trouble or distressing kidney complaint, the
Swamp-Root will prove to be just the remedy
you need. Too frequent desire to urinate,
scanty supply, pain or dull ache in the back
is convincing evidence that your kidneys and
bladder need doctoring.

There is comfort in the knowledge so often
expressed, that Dr. Kliner's Swamp-Root,
the great kidney remedy fulfills every wish
in relieving pain in the back, kidneys, liver,
bladder and every part of the urinary
passage. It corrects inability to hold urine,
and sending pain in passing it, or bad effects
following use of liquor, wine or beer, and
overcomes that unpleasant necessity of being
compelled to get up many times during the
night to urinate. The mild and the extra-
ordinary effect of Swamp-Root is soon
realized. It stands the highest for its
wonderful cures of the most distressing cases.

If you need a medicine you should have the

PLEASURE SEEKERS KILLED.

Seven Meet Death While Going to a
Surprise Party.
Chicago, Feb. 23.—A bus filled with
pleasure seekers was struck by a Grand
Trunk passenger train in the south-
western part of the city Saturday
night. Six of the number were killed
outright and one died soon afterward.
None of the occupants of the vehicle
escaped without injury, two being badly
hurt. A slight down grade pre-
vented the driver from stopping the
vehicle, as it slipped on the ice and
snow, and just as the frightened horses
leaped across the railway tracks the
heavy locomotive struck the vehicle
fairly in the middle, hurling human
bodies and fragments of debris far
from the tracks and continuing on its
northward journey several hundred
feet before it could be stopped, passing
over several bodies in its progress.

The victims of the disaster were on
their way from West Hurley to Blue
Island, where a surprise party was to
be given, and continuing on its
northward journey several hundred
feet before it could be stopped, passing

RED ROUGH HANDS
TRIED TO KILL A KING.

George of Greece Fired Upon While
Driving With His Daughter.
Athens, Feb. 23.—While King George
was returning from Phaleron Saturday
evening in a motor, accompanied by
the Princess Maria, two men who
were hidden in a ditch alongside the
road opened fire with guns upon the
occupants of the carriage. The first
shot missed, but the second wounded
a footman in the arm. The coachman
whipped up his horses, and the royal
party dashed away at a gallop. The
microscopic fired seven shots after
them, none of which took effect, and
the king and princess returned to the
palace unhurt.

When the second shot whizzed past
the carriage the king rose and stood
in front of his daughter, in order to
shield her. One of the horses was
slightly wounded. One of the assail-
ants knelt in the middle of the road
and aimed straight at the king, who
noticed that the man's hand was shak-
ing. The shot missed, and the king
had a clear view of this man, who, his
majesty says, was barely 20 years old.
He continued to fire after the carriage
until it was out of range. His com-
panion, who was more cowardly, did
not leave the ditch.

The action of his majesty in shield-
ing his daughter, the princess, at the
risk of his own life has aroused great
enthusiasm.

The first shot was fired at a distance
of 20 yards. The king relates that he
perceived a third individual a little fur-
ther away, and several persons who
were in the vicinity during the after-
noon report seeing suspicious looking
men in a field behind the road.
