"Whom the gods would destroy. they first make mad," is an off repeated quotation.

It will be surprising if there is not an epidemic of nervous prostrationwhen it is all over."

THE people of the United States ave come to the conclusion that when they "see it" in some of the metropolitan papers they know it isn't true.

THE sudden death of William M. Singerly was a severe blow to his large circle of friends throughout the state, and especially among journalistic friends. It is believed that his recent business reverses undermined his health and hastened his death.

HAZLETONIANS are experiencing a temperance crusade, as the result of effective work on the part of a ladies' temperance society connected with one of the Catholic churches at that place. On Sunday nearly one thousand members of the church at different masses signed a pledge to abstain from intoxicants during Lent. The organization should continue the good work and extend the influence ed by the government. On March 10 of their membership in this direction

IT is a curious and significant change in the condition of the United reasury that, while two years was straining every nerve to transfers of currency on telegraphic orders, and is doing this in order to protect its supply of legal tenders. A Word With Husbands.

"If husbands only knew, or if wing only cared, how very much words and manners affect the mperature of the home world, they ould never, by word or deed, leave enshrouded in gloom," argues Mrs. M. Marriot in an article entitled Praise Your Wife," in March Woman's Home Companion.

To most wives the husband is the sun around which every thought rethe meals, the way John likes this or that, or some remark he has made ng; a jolly, good-humored look, if he went away pleasant; if angry, a graff, defiant attend to your ownbusiness air takes the place of the so lately gentle pliable shapes in felt, and fairly bristle with wrath over Sold by all druggists. \$1; six for \$5. some trifle, but still enough to obssome trifle, but still enough to obs-sure the sun in the little world for Hood's Pills easy to buy, easy to take many a weary day, perchance, ere it

is seemingly forgotten. "There is no true woman but will repay her husband over and over again for kind, thoughtful treatment, He is ready to call her childish, and she may seem so to him; but one thing is sure, a woman never forgets. All little deeds of love or thoughtfulness sown by his hand yield a certain HANDSOMEST and BEST and abundant harvest. She may love her home better than any other spot on earth, yet she sometimes gets to weary of the daily routine of sional feeling of envy for those who nave more time for recreation, for oing abroad, for all the little things ar to the heart of every woman, st effectually debars her from enloying. Still, for all that, she would ces, even if she could, with any her woman, leaving home and John dear old John-as the price of her eedom from care.

"If your wife has been a faithful nd true wife to you, tell her so. Do ot think it lowers your manliness a place in your affections. She has any to let her know that she still has No jo tolled early and late for you and your children, through sickness and health, and self-denial has grown to be her motto. It takes but little from her loved ones to make her happy, so do not begrudge her a word of praise now and then as her just reward, and of far more value to her starving heart than gold. There are some things which money can never buy, and wounds which it cannot heal; but love levels all obstacles, over TERMS es all difficulties and immeasurably sweetens life."

COSTA RICA AND NICARAGUA May Draw All of Central America Into

Armed Conflict. Washington, March 1.-The condition of affairs between Nicaragua and Costa Rica is beginning to arouse serious apprehension in official circles, as it is said to threaten to involve not only these two countries in war, but also to draw all of the Central American republies into an armed conflict The diet of the Greater Republic, cluding Nicaragua, Honduras and Salvador, has submitted a demand on Costa Rica for an explanation of the entrance of an armed force of 500 men from Costa Rica into Nicaragua. No reply has been given, so far as is known by officials here. Nicaraguan authorities assert that the 500 armed men entering from Costa Rica were not an unauthorized force, but were acting with the knowledge of the president of Costa Rica. If Costa Rica gives no explanation in response to the mand of the diet it is feared serious

trouble will follow. The real controversy between Nicaragua and Costa Rica is over the territory adjacent to the inter-oceanic canal. A recent incident has intensified the feeling of the Costa Ricans over the boundary matter. This the arrest of Mr. Bache, the Costa Rican consul general to Nicaragua, on the charge of being a rebel. He was tried, convicted and sentenced to five years' imprisonment, but subsequently escaped. It is not generally known that Secretary Sherman intervened in this affair and requested President Zeiaya, of Nicaragua, in the interest of peace, to release Bache, President Zelaya assented, and in a decree announced that Bache would be liberated, in accordance with Mr. Sherman's request, if the tribunal convicted him of a revolutionary movement. Since then Nicaragua has published the secret eigher dispatches alleged to have passed between Bache and the Nicaraguan ragua claims fully establish a charge that Costa Rica's official was work-
