WEDNESDAY, MARCH 2, 1909.

ACTORS have their ups and downs, the same as in all other professions. Heretofore it has been Frederick Warde and Louis James, but next season it is to be James and Warde.

THOUSANDS of patriotic men in the United States are regretting that they were named for Christopher Columbus, and yet he is about the only Spaniard that ever did anything for America.

BOTH Massachusetts and Iowa have defeated woman suffrage propositions this year. Populist states are not popular examples of the art of government with more evenly balanced communities.

BOSTON has subscribed \$44,000 for the families of several firemen who lost their lives at a recent conflagration. The liberality is a credit to the city, and shows a just appreciation of brave men.

SAM JOYNS has changed his mind about running for Governor of Georgia, and says he would not accept the nomination "if tendered on a silver platter." That illustration knocks him out with the free coinage men.

MR. SINGERLY, it is said, is another victim of the excessive use of tobacco, which aggravated heart troubles and brought on his sudden death. Mr. Singerly had been warned by his physicians to abandon the use of tobacco, and he had recently been more moderate in the use of the weed than in former years.

THERE is something of humiliation in the fact that laws are needed to prevent American citizens from using the National flag as an advertising medium, but that is, and therefore, prohibiting this particular expression of sordid vulgarity under threat of heavy penalties, ought to be passed at the first convenient opportunity.

THE trial of Sheriff Martin and his deputies, at Wilkesbarre, has now consumed one month, and it is expected two weeks more will be required to complete it. One of the great dangers now is that some of the jurors will break down before the end is reached. The prosecution has again appealed for funds. It is said only one mine boss or superintendent has contributed to the fund, and he is James E. Roderick, of the Coleraine mines. He gave \$100 to the fund.

THE first annual report of Mr. Frank Thomson, as president of the Pennsylvania Railroad Company, is exceedingly gratifying to the stockholders and to citizens generally who take an interest in this great corporation. And President Thomson himself must have pardonable pride in the showing he has been able to make of the condition of this great railroad. During the past year its gross earnings have been only exceeded by one other railroad in this country, and no other road has even approached it in its betterments.

IN one of his sermons recently Dr. Talmage, the well known divine, directed attention to the printing press, printers and editors, exhorting his people to pray more for the men who are daily engaged in the making of newspapers, the great educators of the public, the disseminators of information, religious as well as secular. The printers are not the best people on earth and editors are not sanctified gentlemen, but their finer nature is always touched by such sympathetic remarks as those coming from Dr. Talmage.

THAT was a very neat bit in the Philadelphia Times of the wicked sensational journalism on the Cuban trouble. To bold black letters stood out the headings: "Extra Noon Edition. War Actually Upon Us. The President Declares That We Are Now At War; by the Act of Spain. He Calls for a \$500,000,000 Loan!" And this was followed by the story in small type of a tramp who "heard" from a waitress that the above course was probably decided on. Looking back again to the top of the paper to see if the headings for such unreliable stuff had been read right, the eye catches the top line, printed in yellow ink, "Special Yellow Kid War News." It was a very neat burlesque of much that during the past week has been printed by the sensational press.

A household necessity—Dr. Thomas' Electric Oil. Heals burns, cuts, wounds of any sort, cures sore throat, croup, calarrh, asthma; never fails.

BELGIAN PRINCE COMING.

Belgium's Future King Is to Tour the United States. Belgium, March 2.—The steamer Kaiser Wilhelm der Gross, sailing from this port for New York, takes among her passengers Prince Albert of Belgium, nephew of King Leopold, and first applicant to the throne. He is to make an extensive tour of the United States.

Prince Albert has recently reached Antwerp, and is now a tall, solitary looking fellow, with pleasing features.

PRINCE ALBERT OF BELGIUM and good address. Like his uncle, the king, he is fond of sport, is a devotee of the bicycle and, although studious and enterprising, he is not so much of a speculator as the monarch. Prince Albert is popular in Belgium, and the people seem satisfied that he will make a good sovereign. His father, the Count of Flanders, brother of King Leopold, some time ago renounced his right to the crown on account of ill health.

Children and adults returned by burns, scalds, injuries, eczema or skin diseases may seem instant relief by using Dr. Williams' Kidney Pills. It is the Great Kidney Cure. H. H. Hagenbach.

Two Killed, One Paralytically Injured. Wetmore, March 2.—The boilers in Clark & Adler's shoe mill exploded last evening, killing two men and seriously injuring several others. Eugene Long, a foreman, was killed instantly. Peter Murie, co-adjoint of Alger county, was found lying dead and badly mangled near the boiler. George Moore was seriously injured and will probably die. Hiram Zantz and Peter Rix also received serious injuries. Several others were slightly injured. The cause of the explosion is unknown.

Proposed Democratic Reforms. Albany, N. Y., March 2.—The Democratic of both houses in joint caucus last night unanimously decided to support biennial sessions, home rule for cities, a fair and reasonable charge for public franchises, excise amendments to give home rule reformation of the liquor traffic, municipal control of railroads so far as practicable, to prevent government by injunction and favoring a tenable system of rapid transit under the direction of a commission.

Little Girl Burned to Death. Trenton, March 2.—Katie Reitzinger, aged 12 years, was burned to death at her home in this city yesterday. Her little brother, in the absence of his mother, had lighted a torch. When his sister attempted to extinguish the flame her clothing caught fire, and before help arrived the child was burned to a cinder.

A PECULIAR FACT.

Thousands of People Have Dyspepsia in Its Worst Form and Do Not Know It.

A weak stomach is the cause of about nine-tenths of all disease, yet in most cases the wrong thing is treated and the true cause overlooked.

This is because a weak digestion produces symptoms resembling nearly every disease because it weakens and disturbs the action of every nerve and organ in the body; poor digestion causes heart trouble, kidney troubles, lung weakness and especially nervous break down or nervous prostration, the nerves cannot stand the wear and tear unless generally fed by well digested, wholesome food.

Keep the digestion good and no one need fear the approach of disease.

Mrs. H. M. Lee of Rochester, N. Y., writes: For the sake of suffering humanity I want to say that from a child I had a very weak stomach, threw up my food very often after eating and after a few years nervous dyspepsia resulted and for more than twenty years I have suffered incessantly.

I tried many physicians and advised remedies with only temporary relief for nervous dyspepsia and not until I commenced taking Stuart's Dyspepsia Tablets last September, six months ago, have I been free from suffering caused by the condition of nervous dyspepsia.

I have recommended Stuart's Dyspepsia Tablets to many of my friends and now I want in a public way to say they are the safest, pleasantest and I believe surest cure for stomach and nerve troubles. I write my honest opinion and I will gladly answer any letter of inquiry at any time and feel that I am in my small way, helping on a good cause.

Stuart's Dyspepsia Tablets is not a patent medicine, but they contain only the fruit salts, digestive acids and peptones necessary to help the weak stomach to promptly and thoroughly digest food.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full sized package and anyone suffering from nervous dyspepsia, sour stomach, headaches, acidity, gas, belching, etc., will find them not only a quick relief but a radical cure.

Send to Stuart Co., Marshall, Mich., for little book describing cause and cure of stomach troubles giving symptoms and treatment of the various forms of indigestion.

Congressmen Bound for Cuba. Washington, March 2.—A party of senators and members of the house left Washington at 4 o'clock yesterday afternoon for a trip to Cuba. The party consists of Senators Gallinger, Thurston and Money, and Representatives Amos J. Cummings and William Alden Smith and their wives. Senator Thurston said before starting that the trip was undertaken for the purpose of making a personal investigation into affairs in Cuba. "It is not," he said, "in any sense an official tour, but it will naturally give us a better opportunity for investigation than we can possibly have from this distance."

Give the Children a Drink called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee, but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about 14 as much as coffee. 15 and 25c.

Investigating Wisconsin Trusts. Milwaukee, March 2.—The Evening Wisconsin says Attorney General Mylrea is investigating the Wisconsin Wholesale Trusts. He has received the information that has reached the attorney general he is led to believe the association is offending against the statute which forbids the formation of trusts intended to restrain trade or to regulate the prices of commodities, and a rigid inquiry has been instituted. Incidentally the scope of the inquiry has been broadened to make it cover all companies concerning which there is a suspicion.

Something to Know. It may be worth something to know that the very best medicine for restoring the tired nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys, and acts as a tonic in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at A. Waseley's drug store.

To Ignore Judge Rodgers' Decision. Washington, March 2.—In speaking of the decision of United States District Judge Rodgers, at Kansas City, in which he held in effect that the present system of government meat inspection was unconstitutional, Attorney General Griggs said that his advice to the agricultural department officials would be to continue the system as at present until all of the facts in the case could be presented to the court.

TO STOP ROWDY BASEBALL. Offenders May Be Expelled From the National League For Life. St. Louis, March 2.—Most radical legislation was enacted yesterday by the magnates of the National Baseball League, assembled here in annual session. At the afternoon session a measure for the suppression of obscene, indecent and vulgar language upon the ball field by players was adopted by the representatives of the 12 clubs present without a dissenting vote.

The provisions of this measure are sweeping, and provide for the trial of guilty persons before a tribunal of three judges, to be known as the board of discipline, which shall punish the culprit, either by suspension of expulsion for life.

The first tribunal under this provision will be composed of L. C. Krauthoff of Kansas City, Louis Kramer of Cincinnati and Frederick Stearns of Detroit. These men, who are prominent and well known to the patrons of the national game, will serve respectively for three, two and one year. One member of the board will retire each year, and his successor will be elected at the annual schedule meeting of the league.

IN SENATE AND HOUSE.

Mr. Loud's Second Class Mail Bill Before the Senate.

Washington, March 2.—The house yesterday entered upon the consideration of the Loud bill relative to second class matter. The bill is identical with the bill passed at the last congress, but Mr. Loud's amendment, which provides for an amendment permitting the transmission at point rates of sample copies up to 10 per cent of the bona fide circulation of the newspaper or periodical. This amendment removes much opposition to the bill. Mr. Loud made a very long and able speech in its favor, and an exhaustive speech in its favor, claiming that the government paid a subsidy of \$40,000,000 to the proprietors of publications which now get access to the mails at point rates. The debate will continue until Thursday, when the vote will be taken at 4 o'clock.

In the senate yesterday a motion by Mr. Hoar, of Massachusetts, to non-concur in the house amendments to the bankruptcy bill, drew a speech from Mr. Stewart, of Nevada, in which he vigorously denounced the measure passed by the house. He declared it was an atrocious measure, of diabolical intent, and could only result in grinding the poor debtor the more deeply into the financial mire. The Alaska homestead and railway right of way bill was under discussion during the greater part of the session. The resolution of Mr. Bacon, of Georgia, providing for a bronze tablet to be erected in the Capitol in memory of the officers and soldiers who lost their lives in the Maine disaster, was passed.

Whispering coach is the most distressing malady; but its irritation can be cut short by the use of One Minute Cough Cure, which is also the best known remedy for croup and all lung and bronchial troubles. C. H. Hagenbach.

The Florida Limited Will Again Run on the Southern Railway. The Florida Limited which is the synonym of all that is elegant in modern railway travel, and which during its former service has been a prime favorite for tourists from the North seeking the mild climate of Florida, will be placed in service by the Southern Railway about the first week in January, 1909. With its return to service this train will be built with a vestibule between New York, Philadelphia and St. Augustine will present features in the way of luxuriant and comfortable appointments not heretofore presented, and which will be destined to add still further to its already well established popularity.

The Southern Railway is having built for the Florida Limited service three trains, each containing a dining car, two drawing room sleeping cars, a compartment car and a library and observation car, each car complete in all its appointments and equipped with the very latest devices and appliances for the comfort and convenience of the passengers. While no schedule has as yet been announced, it can be stated that it will be the quickest ever arranged between Philadelphia and St. Augustine, and will be so planned that the Philadelphia train will leave some convenient hour during the day and arrive at St. Augustine before midnight of the following day.—Philadelphia Record.

Hungarian Socialists Suppressed. Vienna, March 2.—Baron Von Gautsch, the premier and minister of interior, has reported to Emperor Francis Joseph that the socialist movement among the Hungarian peasantry has so far abated that the danger may be considered past. The police campaign against the socialists has caused widespread offense by the forcible photographing of respectable university professors, doctors, journalists and others suspected of the slightest connection with the movement. Those objecting have been held down by several policemen and subjected to indignities.

AN OLD STORY NOW. Another Experience With "The Little Conqueror" in Shenandoah. Nothing is modern medicine has created the sensation that has followed the introduction of the "Little Conqueror" in Shenandoah it has been just the same as in other towns, and the march of the "Little Conqueror" continues. Everywhere the confidence increases as case after case of kidney disorder disappears by its magic, and how people do rejoice and talk about it. You know it is so much easier to endorse the statement of someone you know than the statement of someone you know nothing about in a far away town. Well, here is testimony of what we have here, and 'tis a dose to cure the ailment.

Mrs. M. Tempest, of 132 East Coal street, says: "I used to have kidney disease years ago but I got cured of it and there was no recurrence of it until about five months ago. I then had an attack of lumbago as I thought it was. My back was so lame and so sore that I could not get out of a chair without lifting myself up and I could not even turn in bed without sharp twinges catching me in my back. There was a dull, gnawing aching when on my feet doing any work like ironing. I had no headache but the whole trouble was in my back. I read about Doan's Kidney Pills so quickly relieving other sufferers and I procured a box from Krin's drug store. I had not used the whole box before the backache was gone and the lumbago had also disappeared. It was Doan's Kidney Pills which had brought about this result and I give them all the credit."

Five Thousand Witness a "Hangover." Columbus, Miss., March 2.—Peter Horton, colored, was hanged here yesterday in the presence of 5,000 people, mostly negroes, for the murder of Anthony Brown. Instead of evincing an interest in religious services, which were held in the jail for his benefit in the morning, Horton spent the forenoon laughing and joking with his fellow prisoners. The execution took place in an open field.

A South Carolina Murder Mystery. Spartanburg, S. C., March 2.—Yesterday afternoon T. J. Trimmer, a well known merchant and respected citizen, was shot and killed by Dr. S. J. Rivington, a prominent dentist. Trimmer's son also was painfully wounded in the left hand. The cause of the murder is a mystery, as the men had been close friends.

RUNNING ON TIME. SOUTHERN RAILWAY FLORIDA TRAILS MAKING A REMARKABLE RECORD. Jacksonville, Fla., Feb. 22.—Last season it was not an uncommon occurrence for the trains from the North to reach here from one to five hours late. The remarkable regularity of the arrival on time of the Southern Railway trains this season is a matter of comment and favorable criticism among the hotels and by all incoming tourists. The schedule of the Florida Limited, the fast train over the Southern Railway and the Florida Central and Peninsular, is several hours shorter than that of last year, but the track has been put in excellent condition and the engineers of incoming trains say the new schedule is made with ease.
