

Scrofula

Is a deep-seated blood disease which all the mineral mixtures in the world cannot cure.

Mrs. V. T. Buck, of Delaney, Ark., had Scrofula for twenty-five years and most of the time was under the care of the doctors who could not relieve her.

A specialist said he could cure her, but he filled her with arsenic and potash which almost ruined her constitution.

She then took nearly every so-called blood medicine and drank them by the wholesale, but they did not reach her trouble.

Some one advised her to try S.S.S. and she very soon found that she had a real blood remedy at last.

She says: "After taking one dozen bottles of S.S.S. I am perfectly well, my skin is clear and healthy and I would not be in my former condition for two thousand dollars."

Do not rely upon a simple tonic to cure a deep-seated blood disease, but take a real blood remedy.

SPAIN'S RESPONSIBILITY

In Connection With the Destruction of the Battleship Maine.

SECRETARY LONG'S STATEMENT

He is Confident That Suspicion Against Spanish Officials Has Been Practically Eliminated—But This Does Not Relieve Spain of Responsibility.

Washington, March 2.—The main interest yesterday in connection with the Maine inquiry centered in a statement by Secretary Long, following the cabinet meeting, that in his personal opinion any official participation by the Spanish government in the blowing up of the Maine was now practically eliminated from the situation.

Naturally the Cuban situation had been covered, he said, but there were no actual developments, and he felt that public excitement over the subject had materially abated. Then he added the statement, in the same passing way, that any participation by the Spanish government in the blowing up of the Maine was practically eliminated, in his judgment.

"The man thing we talked about in the cabinet were the outrages on the postmasters, one at white mountains in Georgia, and one at Colerain in South Carolina. In regard to the Cuban situation I said I thought things were growing quieter every day, and as far as my judgment went, I was inclined to think that any official participation on the part of the Spanish government in the disaster was now practically eliminated."

The foregoing conveyed all that Mr. Long desired to say on the subject, and this much was given only to offset the impression that he had returned to the navy department after lunch he found that what he had intended to convey was being given the force of an official declaration that the Spanish responsibility for the disaster had been eliminated.

Persons occupying the closest relations with the secretary said that the opinion expressed was such as any one might give with the facts now at hand. It was not in any sense, it was explained, a conclusion drawn from new evidence nor made public either through the court of inquiry or any officer now concerned in the inquiry.

Orders went out from the navy department late in the afternoon to put the ironclads Miantonomoh and Katahdin into commission on the 10th. They are now at the League Island navy yard, where they have been laid up for a year or two past.

The Vizcaya at Havana. Havana, March 2.—The Spanish cruiser Vizcaya arrived off Moro Castle at 6 o'clock last evening, after a good voyage from New York. She was met by scores of steam launches and gaily decorated yachts, with bands, and as she steamed to her anchorage the massive women were shouted from all the quays, which were lined with thousands of people.

De Lome Hanged in Effigy. Troy, N. Y., March 2.—Spain's former minister to the United States, Senator Dupuy De Lome, was hanged in effigy in this city yesterday, and the police had to be called upon to disperse a crowd of about 100 people who had assembled to hurl epithets at the object of their scorn.
