The Montgomery and Nashville Will Carry Relief to the Sufferers Near Sagua la Grande and Matanzas-Liberai Appropriations For the Navy.

Washington, March 3.—The decision of the navy department to send two suffering reconcentrados caused some

many excellent qualities commend it to all and have made it the most Grande and Matanzas, on the northern coast of the island, and that considerable difficulty is experienced in cent bottles by all leading druginfrequent visits of the merchant ships. On this account, and because of the immediate demand for supplies at the points indicated, the officers of the association requested the secretary of the navy to authorize the use of one or more of the warships at Key West in the transportation there of food supplies contributed by the charitable people of the United States in response to the appeals of Persident McKinley

and Secretary Sherman. The Montgomery will go to Matan-gas and the Nashville to Sagua la Grande, with the understanding that they will remain in those ports only long enough to deliver the supplies to the agents of the association for distribution where they will do the most good. Although the mission assigned to the warships will take them both within a short distance of Havana, estimated at from two to four hours, it is

Cuban capital. To remove the impression that had gotten abroad to the effect that the relations between the navy department and the house naval committee were and soc not harmonious, Secretary Long gave out a short statement on the subject. He said: "Congressman Boutelle has been misunderstood. The congressman, who is one of the most patriotic tury. The high road from Resht, on men in the world, is always ready to do the Caspian sea, to Teheran is impaseverything that can be done for the navy. In his annual report the secretary recommended that 1,500 men be added to the enlisted force on account of the increase in the number of ships. The naval committee, of which Mr. Boutelle is chairman, has already de-cided to grant this increase in the regular naval appropriation bill. Mean-time, if there should be any immediate necessity for more men, the same com-mittee, and Mr. Boutelle as its chair-

man, are ready to make provision to that effect at once." It has already been practically de-It has already been practically described by the house any already committee that the price which the secretary of the navy shall be authorized to pay for armor plate for the ships now for armor plate for the s approaching completion shall be \$400 per ton, but no formal vote has yet been taken on this proposition by the sub-committee. The work of the sub-committee, as far as it has gone, is now being reviewed and ratified by the full committee. Thus far the subcommittee's action has not been reversed. The full committee has ratified the action of the sub-committee in recommending an increase of \$100,000. for ordnance, propriation for this item up to \$300,000, besides the appropriations of \$25,000 for converting six inch guns into rapid fire guns, \$45,000 for capping armor plercing shells and \$50,000 for the manufacture of cartridge making machinery (the latter appropriation to go to the ordnance factory). An appro-priation of \$275,000 to increase the speed of the Chicago and to replace her old guns with rapid fire batterines is also recommended, and an appro-priation of \$250,000 for reserve torpe-

does and appliances. A commander for the monitor Mian-By Harry B. Smith and Victor Herbert tonomah, which was ordered into commission Tuesday, was selected yester-day in the person of Captain Mortimer Johnson, who it at present on waiting orders. Secretary Long says that the Miantonomah, with the ram Katahdin, will remain in the Delaware for the present at least. With the commissioning of these two vessels there ramain only the cruisers Columbia and Minneapolis on the Atlantic coast available for immediate service in case the department should decide to com-

mission more ships. There are a number of good ships on the Pacific coast, however, whose spair is under way, such as the Philadelphia, the Charleston, the Yorktown and others, and the payrolls of the construction bureau at the Mare Island navy yard has now mounted to the large total of \$60,000 per month for wages alone.

It is said in the navigation bureau that there is a pressing need of able machinists for the navy caused by the heretofore unnoted fact that every one of the machinists of the Maine lost his life in the explosion. Moreover, all the firemen but one were killed. The bureau has invited enlistments from men who have had naval service before in the engine rooms.
