The question discussed was "Resolved that immigration into the United States should be restricted to persons who can read and write the United States constitution in some language, except that a satisfactory provision should be made for those dependent upon qualified immigrants."

Pennsylvania upheld the affirmative and Cornell argued in the negative Cornell was represented by Miss Gall Laughlin, Walter M. Zink and Clinton F. Horton, Pennsylvania was repre-sented by Thomas R. White, William C. Johnson and Ray W. White. The Pennsylvania speakers based

## A Minister's Trials.

This narrative from a minister is of greatest value to those whose nerves are unstrung, health shattered or otherwise ailing. It is particularly appropriate in this age of active, nervous, endless labor.

We are living too fast. "Fast as light-ning," expresses it, for we talk by elec-tricity, cook by electricity, travel by electricity and so on. Its a hurry, hurry, hurry from the cradle

to the grave.
We crowd too much: crowd our work, We crowd too much; crowd our work, crowd our sating, crowd our pleasure, crowd our sleeping.

A "breaking down of the nervous system" is the way of expressing the result. It means a depleting of the nervous induced by prolonged strain; overtaxing of the nervous system; a product of overhours root break.

It baffles physicians of all schools.

No one knows the horrors of such a condition better than Rev. J. N. Mc-Gready, of Elkton, Mich. For years he labored faithfully and well. He was progressive and aggressive; a leader among men, a deep thinker and a hard worker. In his zeal, he overworked; overtaxed

his mental and physical strength.

The outlook was dark, with health shattered and recovery apparently hopeless. Many means for a cure were tried, without receiving benefit.
Finally he took Dr. Williams' Pink Pills

for Pale People and was restored to health. Fic says:
"In April, 1896, the physicians said I

must stop preaching or die.
