THE SUFFERING IN CUBA Cancer the Breast.

Mr. A. H. Crausby, of 158 Kerr St., Memphis, Tenn., says that his wife paid no attention to a small lump which appeared in her breast, but it soon de-veloped into a cancer of the worst type, and notwithstanding the treatment of the best physicians, it continued to spread and grow rapidly, eating two holes in her breast. The doctors

soon pronounced her incurable. A celebrated New York specialist then treat-ed her, but she costinued to grow worse and when informed that both her aunt and grandmother had died from cancer he gave the case up as hopeless. Someone then re

commended S.S.S. and though little hope remained, she begun it, and an improvement was no-ticed. The cancer commenced to heal and when he had taken several bottles it disappe. ed entirely, and although sev-eral years have elapsed, not a sign of the disease has ever returned.

A Real Blood Remedy.

S.S.S. (guaranteed purely vegetable) is a real blood remedy, and never fails to cure Cancer, Eczema, Rheumatism Scrofula, or any other blood disease.

Senator Proctor's Companion Talks of His Observations. THE REPORTS NOT EXAGGERATED

The Suffering Probably Greater in Matauzas Than Elsewhere, Though Miss Barton Is Doing Noble Work in Relieving the Terrible Distress,

Washington, March 14,-Senator Proctor, of Vermont, and his com-panion, Colonel Myron M. Parker, who have been spending some time in Cuba, returned to Washington last night at 10:35. Senator Proctor was met at the station by friends and was driven at once to his residence. Sena-tor Proctor said to a reporter that he did not desire to discuss his trip at commend the good work Miss Clara Barton was doing in Cuba he had said nothing in the way of an interview.

Colonel Parker said to a reporter; 'We went to Sagua La Grande, Matanzas, Cienfuegos and Artemisa, provinces of Pinar del Rio. I was with Senator Proctor most of the time. The stories of the amount of suffering in the island of Cuba have not been ex-aggregated. It is intense over every por-tion of the island. The reconcen-trados are gathered into the villages, where they can be seen in all their pitable aspects. The suffering is perhaps greater in Matanzas than else haps greater in Matunzas than eise-where. What impressed me most and would doubtless impress any visitor to Cuba is the utter desolation of the island. Miss Barton is doing great work among the reconcentrados, and is to be praised for her heroic efforts in that direction. We were well treated by the Spaniards."

In answer to the question as to what in his mind should be done to put an end to the awful suffering. Colonel Parker would not commit himself, but said significantly that he had no doubt this government would take the best course. He commended most highly the action pursued by Consul General Lee, who, he said, was a man fitted for his place in every respect, from what he had seen of his administration of affairs there. "The matter of his recall reached there just a little before the contradiction, and was not credited. It was denied that his return to the country was wanted," he said.

In regard to the question as to whether the impression prevailed in Havana that the Maine was destroyed by external influence Colonel Parker spoke guardedly. He said, however, that the same impression prevailed there as here. There was little or no war talk, and the De Lome incident was not mentioned there during his

ELEVEN LODGERS DEAD As the Result of Fire in a New

York Lodging House.

The Fire Broke Out While the Men

 The Fire Broke Out While the Men Were Asleep, and in the Wile Scram-ble For Life Many Escaped to the Street Naked.
 New York, March 16.—Eleven men perished by fire in the Bowery Min-sion, at 105 Bowery, early yesterday morning. The bodies were recovered but so disfigured as to make identifi-cation in most cases impossible. The Escape of the Street Science of the Science of the Science Street Naked. but so disfigured as to make identified catton in most cases impossible. them to the morgue. No. 105 Bowery is one of the best known lodging houses of that thor-oughfare. It is called the Bowery Mission lodging house, and is conducted by The Christian Herald. In the basement of the building there is a cheap restaurant, while the ground floor is used exclusively for mission purposes, Gospel services having been hold there daily for several years. The four upper floors are fitted as a cheap lodging house, with acco. odstions for 150 men, who pay 15, 20 and 25 cents, ac-cording to the location of the rooms. Baturday night almost every bed was occupied. At 1:30 yesterday morning one of the lodgers discovered flames

coming from the wash room on the third floor, but before he had time to alarm the house the fire was noticed by passers by on the street. By this eases time the flames had onten their way tions. to the top of the building, and were bursting through the roof.

When the alarm was given and the inmates aroused a wild scene of excite-ment ensued. Many of the lodgers be-came panic strickon. They rushed into the hallways, and fell over each other in their efforts to reach the street. Those on the lower floors got to the street safely by the stairways, while those on the upper floors ground their way through the blinding smoke to the metal fire escapes in front of the building. The majority of them saved only portions of their clothing, and several of them were naked.

In the meantime three alarms of fire had been sent in, and in a few minutes the firemen were busy deliging the building with water. They succeeded in confining the fire to the three upper stories of the structure. Many of the naked and injured were cared for by the people in the vicinity, and about 50 of them were accommodated at the Everett street police sta-tion, some three blocks away. Several of the most destitute were

brought to the station house in patrol wagons, and on their arrival there were partially clothed by members of the
