THE ARSON CASE TRIAL.

(Continued from First Page.)

come to me and say, "I thank you. I did not want to get on that case." He is a honest man, but he lives in the vicinity, and did not want to have anything to do with the matter. There are people who would come here to help us, but they don't want to stand up against all this feeling. We will prove that one of the defendants was home before the alarm of fire was given at the hosiery mill; that another got home too soon to have been; and a third, was in an alley, far away from the scene, on private business, when three men were noticed going to the mill, before the fire. You are not bound to convict, said Mr. Whitehouse, because there was a fire. That would not add one stone to the ruined mill.

Joseph Eckroth was the first witness called in behalf of the accused and he swore that Bryant boarded with him and was in bed when the second fire alarm was sounded. Eckroth said he woke Bryant up then and Bryant went out. Bryant then came home and did not go to the third fire, at the mill.

William Knowles, one of the defendants, was next sworn. He said: "I didn't go to the mill. I was not there when the mill was set on fire. I was home five minutes before it caught fire. I was in the company of Knowles, Darrah, Flemming and Wooden that night. We were going from place to place, but I don't remember the street about the burning of the mill. We started out from Deiter's crossing to Wynn's. Me and Darrah crossed and walked to the Welsh church on Centre street and kept on until we got to Kaier's crossing. There we met Knowles, Darrah, said, "Where are you going, Eddie?" to Knowles, and they went up Mahanoy street. I don't know but I had just got there when I heard the fire alarm. I went up to the fire and met Darrah. He said "This is bad for Fritz; I have been helping him out." and Darrah went home. I didn't work the next day. I met Darrah and Knowles and we unloaded a car load of lime for Hogan at the mill. I was paid for it, and we drank some whiskey there. I first met Flemming the night before at the Eichman fire.

Q. Flemming says you went and got some cotton waste, is that true?

A. No, sir; I was not near the hosiery mill at that time.

On cross-examination by District Attorney Rehtel the witness said he was 22 years old and a mine laborer. He said he also worked for the Diamond Drill Company, as a laborer, and also worked 16 miles from Pittsburg.

Mr. Whitehouse objected to any inquiries about the past life of the witness, because it was not cross-examination, and Judge Koch sustained the objection.

Q. Where are you now?

A. In the county court house.

Mr. Rehtel: That is very good. Where did you come from here?

The county prison.

Mr. Whitehouse objected to questions as to why the witness was there and the court sustained it.

Witness was then taken over his direct-examination in efforts to get him to contradict himself. When questioned as to the Eichman fire he said: Darrah, while alone had walked to Dr. Klock's crossing at the alley and tried to get a pint. Just then I heard of the Eichman fire. Eichman's home was two or three blocks away. I saw the flash and ran down Pine street to the hose house and gave the alarm to a man named Foley the next day. The Eichman fire I met Flemming, Wooden, Darrah and Knowles.

Were you the first man to give an alarm for the Eichman fire?

Yes, sir; I was the first. I saw it when I was at Klock's corner.

Did you notice that Wooden and Flemming talked together that night?

A. No, sir; I was not near the hosiery mill at that time.

WHAT IS THE GRIP?

It is Certainly a Most Mysterious Disease, But Its Real Cause is Clearly Explained.

Investigation has shown that nearly every family in the city has had at least one of its members attacked by the grip, but it seems to be coming in a different form this year than ever heretofore. Men and women complain more of nausea, pains in the arms, limbs and about the neck and a general lack of appetite and ambition.

Now, all this proves clearly just where the cause of the grip is located. Have you ever seen a sewer or drain clogged up after a heavy rain? It is precisely this way with the grip. The kidneys get clogged up and the poisonous acids which should pass from the system are thrown back until finally they get into the blood and so poison the whole body.

Read what the eminent Dr. Hamilton has to say upon this subject. "It is clear," says he, "that in order to drive grip and similar poisons from the system it is only necessary to open up the sewers in other words, to put the kidneys in perfect working order so that they will carry these poisons away instead of allowing them to clog up and ruin the blood, and, unfortunately, this is not altogether an easy thing to do."

There is, so far as the medical profession and science know, but one discovery that will quickly and effectively open up the kidneys in a perfect working order. That discovery, which has cured so many thousands of men and women; which is keeping so many in perfect health to-day, and which is used by an unrivaledly the world over, is the most perfect remedy known, and the finest child with benefited effect, for it is perfectly pure and harmless. Prof. Bayer, of Germany; Dr. William Edward Boyer, of England; and Dr. G. M. of New York, are all prominent men who speak in the highest terms of this great remedy. If you have any symptoms of the grip let me advise you to get promptly for you will find that Safe Cure will relieve you quickly take you from a condition of misery and put you on the road to health."
