FIRE BUGS ARE GUILTY.

(Continued from First Page.)

one of the cases when he asked the court to dismiss. He can make more out of nothing than any other member of the bar. Did nobody set fire to this mill? Mr. Marr pointed out the shortcomings of the evidence given by the defendants on the stand and said the witness Willis knew more than he wanted to tell of the meeting at Daniel's corner. The truth was they never went to Deary's. When they left Willis went down to Parker's. Then we find Richardson and Darrah at Eichman's about nine o'clock, before the fire. Let me tell you there is no man at the bar who knows better how to try a criminal case than my eloquent friend Mr. Whitehouse, and if there had been a father, a mother, a brother, or a sister who could locate these young men at other points at the time of these fires they would have been here to testify.

Mr. Marr claimed the Supreme Court sustains evidence such as given by Wooden as legal corroborative of Fleming's story. You find Darrah near Eichman's corner when the stable fire was discovered, and Richardson on the other street, giving the alarm. Is there any evidence here to show who else set fire to this stable? Not a bit.

According to their story you find them next on the railroad. What were they talking about? Of the fire? No. It was not "fire" that bothered them. They wanted to get a bottle filled. Richardson and Darrah go one way, Fleming and Knowles the other. They never said "we are going home" or "good night." Knowles tells you he then took a walk out in his way for his health and meets Darrah and Richardson at Tyler's corner, squares away from his home, 30 minutes after they had parted for the night. Who believes that story? Fleming came into town a comparative stranger after the Parker fire and met his gang at the Eichman fire when it was in full blaze. He tells you they talked of what a grand fire the bakery mill would make. Wooden said, "Don't do it. There are a lot of girls working there." Richardson said, "Yes, your girl is working there and you see a crowd." At this Fleming said that Wooden was right and Wooden wanted Fleming to go home with him. Fleming said, "No, I stayed with you one night a week ago and I will go somewhere else to-night." Fleming lit the eastern end of the mill and Richardson and Knowles to the centre. One of the defendants told of trying to set fire to the Kaiser House and of the failure to do it. We have shown you they were all traveling together that night in a gang, and for what purpose? What reason have they given you other than what we have given you?

Mr. Marr concluded his address at 11:05 o'clock, and soon after Judge Koch commenced charging the jury. The court occupied about an hour and a half and the case was given to the jury at about one o'clock.

THE MEYERS' CASE. Herzog Robert, chief clerk to the County Commissioners, whose he was duped by Sheriff Toole to go to the Medico-Chirurgical hospital at Philadelphia, and he found ex-Solicitor Ulrich there suffering from typhoid fever. Mr. Roberson secured a certificate from the physicians to that effect.

The counsel for the defense made a motion to withdraw a juror and continue the case until Mr. Ulrich would be able to appear, but the certificate stated that owing to the illness Mr. Ulrich would be eight weeks ill at the shortest. Judge Rechter denied the motion.

It was arranged that Messrs. Schalk and Whalen should make the address to the jury in behalf of the prosecution and Messrs. Smith and Wallinger in behalf of the defense. Mr. Schalk opened his address at 10:30 and was the first to speak. Smith, who will conclude on Monday, when Mr. Wallinger will speak, after which Mr. Whalen will close for the Commonwealth.

THE TRACKS DID NOT FINISH THE TRESTLE LAST NIGHT.

The Pennsylvania Railroad Company was so confident that the trestle would complete work on the new bridge and trestle at Boston Run last night that the passenger train was instructed to report this morning ready to run the first train to Pottsville at six o'clock. The tracks did not get along as rapidly as anticipated, however, and no trains were run over the short line to-day. It is believed that all the work will be finished in time to run trains to-night. At least the railway officials are confident of that result.

The condition of Harry Welker and Engineer Cleavenstein, is still serious. Both showed improvement yesterday morning, but passed a very bad night. Welker's head pained him so much that Dr. James S. Carpenter had to be summoned for an extra visit yesterday afternoon. Cleavenstein is suffering intense agony from his internal injuries.

COUNCIL MEETING.

(Continued from First Page.)

The new Borough Council held its first meeting since the re-organization last night and waded through considerable business in a short time. The members present were Messrs. Devers, McGuire, Lally, Boehm, Shoemaker, Straughn, James, Englert, Brennan, Bell, Hand, Murphy and Harkins.

The first order of business was an application to have an arc electric light placed at the corner of Catherine street and Mayberry alley. A petition bearing 72 names was presented. The matter was referred to the lamp and watch committee.

High Constable Devers said people were making complaints against refuse that was being hauled to the public dump at the west end of Lloyd street, and the discussion that followed led to a resolution to have the dump and resulted in some of the borough officers receiving instructions of a very positive character.

After Mr. Devers concluded his statement President McGuire said: "It seems that, notwithstanding your duties and the fact that you are a paid official of this borough, you come into Council to make complaint about something you ought to attend to."

At this point Constable Devers attempted to say something. Mr. McGuire told him to keep quiet, but as the constable persisted in trying to talk President McGuire said, with some emphasis: "If you don't give order the Chief of Police will remove you."

"Is that so?" retorted Mr. Devers, as he did back into his seat. Mr. McGuire then added: "The Council will be justified in taking action to remove you to do your duty. You know of a violation of the ordinance existing there and it is your duty to see that the ordinance is properly observed."

Mr. Devers eventually got in his shot at the chairman, "I say you gave privilege to dump it there," to which Mr. McGuire replied, "I tell you you are under a wrong impression." Later Mr. Devers asked if Council would back him up if he made any arrests and he was told that it would where the arrests were justifiable.

During the discussion the Chief Burgess was referred to and that official arose and said: "It seems the High Constable is looking for trouble and trying to drag me into it. I am trying to do my duty and as little as I do think the High Constable does a d—n sight less."

Mr. Devers was on his feet in an instant, but his remarks were drowned by the chairman's rappings for order. A bill from Wm. J. Britt for \$17 for paving the alley at the rear of the Borough building was up for second consideration. From the discussion it appeared that the Columbia Brewing Company had agreed to pave the alley on condition that the borough would assume any responsibility for the paving.

The finance committee reported through Mr. James that Edward Burke, tax collector, owes a balance of \$13,321.40 on his 1897 duplicate, which amounted to \$31,473.30. Mr. Straughn said that, while he appreciated the excellent work performed on the part of the present tax collector, he believed the law should be enforced in reference to the reports he should make every month. In accordance with the suggestion the secretary was instructed to notify Mr. Burke that monthly reports will be expected from him.

Mr. James moved that the solicitor of Council file a written opinion as to whether it can legally exonerate real estate. The following opinion was read and said he would do so. He added that there was no doubt in his mind that Council had the right to exonerate real estate, but in doing so good judgment had to be exercised and the real estate exonerated must not be of a productive character.

The Lamp and Watch Committee was instructed to get bids for police uniforms and helmets. The Survey Committee was instructed to ascertain if Mayberry alley has been provided with a grade to its western limit. Mr. James said Council should instruct the Supervisor to put a sign at the southern end of West street reading, "Danger! Contagious ground!" He said the place is in a filthy condition.

This brought a suggestion from Mr. Boehm that a sanitary committee of Council be abolished and the health affairs of the borough left upon the shoulders of the Chief Burgess, High Constable and Board of Health. President McGuire concurred in the suggestion and upon motion of Mr. Coakley it was decided that the sanitary committee be abolished.

It was reported that one of the pumps of the public water works is not working right and Council decided to ask the manufacturers to have the pump examined at once. Mr. Englert reported the plug in front of the Fire Engine Company's house and one near the Indian Ridge breaker out of repair.

The management of the Schuylkill Traction and Lakeside Electric Railway Companies having failed to make satisfactory repairs made by Council about the street cars made to the bridges, for payment for the company, the matter was placed in the hands of the law committee and the Borough Solicitor.

The bond of Borough Treasurer T. J. Mullaly in the sum of \$20,000 was read and ordered to be recorded if the Solicitor finds it correct. Just before Council adjourned President McGuire announced his appointment of committees as follows:

ROADS AND HIGHWAYS—Bell, chairman, Lally, Boehm, Harkins, Straughn, Coakley and Hand. FINANCE—Hand, chairman, Straughn and Lally. FIRE APPARATUS—Englert, chairman, Magargle and Murphy. SURVEY—Brennan, chairman, Boehm and Hand. OBEDINANCE—Straughn, chairman, Englert and Magargle. LAW—Harkins, chairman, James and Niswender. LAMP AND WATCH—Coakley, chairman, James and Brennan. CONSTRUCTION—Murphy, chairman, Shoemaker and Coakley. ROOM AND STATIONERY—Lally, chairman, Magargle and Brennan. FLUES—Niswender, chairman, Englert and Shoemaker.

Patrick Donahoe Other Members of the Family as Warmly Advise Use of Paine's Celery Compound

Five men in this country who have lived to recommend its use in cases like mine, where the nervous system, from any cause, is run down and needs a reliable tonic. I am happy to state that two members of my family have used Paine's celery compound with the most gratifying results. My daughter-in-law, Mrs. P. M. Donahoe, has received the most pronounced results from its use, whilst my son, J. Frank Donahoe, the organist of the Cathedral, is loud in its praise, having found it a great help in regaining his strength from overwork in his profession. Yes, I believe in Paine's celery compound.

Three-fourths of all the aches, pains and disabilities that aged persons suffer from arise plainly from retarded circulation. The slow blood stream gets clogged with an accumulation of waste matter that declares its presence in twinges of rheumatism, lumbago, neuralgia and inability to sleep. All these unnatural conditions can be corrected and permanently done away with by vigorously cleansing the blood and revivifying the tardy circulation. Paine's celery compound is pre-eminently capable of doing this beyond any other remedy.

There is nothing vague about the sort of "good health" that is promised by Paine's celery compound and vouches for by men and women who have it. It means, among other things, firmer nerves, complete digestion, sweeter breath and more regular bodily functions. Paine's celery compound secures these where other remedies fail to.

cause Paine's celery compound is the discovery of a great physician, who knew all that the school and text books could teach him, but more than that, he knew sick men and women, as few physicians in my age have known them. Prof. Edward E. Phelps, M. D., L. D., of the Dartmouth medical school, was able to drive out disease from his system, because he knew where the disease was lodged and how to help the excretory organs, instead of confusing them as so many illogical remedies do in their effort to cleanse the blood. Paine's celery compound encourages and strengthens the kidneys, and enables them to cleanse the blood of its waste, poisonous matters that are the direct cause of drowsiness, listlessness, melancholia, blood diseases, wasting sicknesses, headaches and that general "run down" condition that opens the door to definite organic diseases of the heart, kidneys or stomach, especially when a person is advanced in years and no longer possessed of the abundant energy that characterizes youth alone.

Paine's celery compound makes the blood a bright red color, increases its volume in the arteries and quickens its circulation, and enables a nervous person to sleep eight or nine hours at a stretch. Every man or woman whose nervous strength is in all overtaxed, or whose life is a busy one in many directions, will feel the invigorating, vitalizing effect of Paine's celery compound, and see his or her health mend from the first use of this greatest of all known invigorators and remedies.
