THERE is no truer gauge to the business care and sense of a man, and therefore his stability and chances for success, than the stationery he uses. There is no truer portrayal of the character of the firm than the appearance and cost of the sheets of paper they use to make their representations. A poorlyprinted heading, unless designedly made so, is a sure indication of a firm with loose business methods or, perhaps, with an undue desire to economize at the expense of appearances, in which latter class can be put the cheap man, for whom any thing is good enough. This man has the easy faculty of feeling that anything is good enough for all the rest of humanity, and therefore it behooves you to ask yourself if you can agree to be put in this class by this man.

Some time ago it was stated, on the authority of the Republican leaders at Washington, that the Lodge immigration bill would be called up in the House the early part of this month. Recent events, however, go to show that those Congress men seeking a renomination, including the representative from this district, have not the courage to place themselves upon record on this question, and will allow the bill to die a natural death. It has already passed the Senate, and Mr. Brumm has given assurances to some of his constituents that he would demand, in open session, that the bill be called up for consideration. Thus far he has failed to do so. Commenting upon this subject, the Hazleton Standard says: "It is this class of Congressmen who fear the votes of the very men they have encouraged to come to this country, so they could get and handle their votes. They were fear the votes of the cheap labor element, recently granted citizenship, more than they do the American working classes, who have paid the taxes, built up the country, and who coffee. 15 and 25c. now see their avenues of employment cut off, wages reduced and obliged to live from hand to mouth. The Congressmen, with mad haste, gave the millionaire capitalists any and all prohibitory legislation they asked, and even let them fix their own rates of tariff, but when it comes to protecting the American workingman against free trade in labor, that is a horse of another color."

No more deliberate and coldblooded murder was ever committed for the Throat and Lungs. Would you be in the history of Shenandoah than that chronicled in our issue of yesterday, when Charles Ringheiser, a this wonderful remedy to give you a sample bound of five assessors, the auditor young man of quiet disposition and bottle free? It never fails to cure acute or board of five assessors, the auditor general to be president thereof, who bearing a good reputation, was shot and mortally wounded by Charles Saduskey, a notorious character and ·jail bird. The evidence shows beyond a doubt that the act was deliberate and premeditated and without provocation. Crimes of this nature are too frequent in this county.

Saduskey, the culprit, should be captured at whatever cost, and made to pay the penalty of his crime. His punishment should be swift and cer-

EVENINGHERALD THE REAL CAUSE

Many physicians do not seem to know that the real cause of the weaknesses of many women is to be found in disordered Kidneys and Bladder. They erroneously treat women for "female troubles," and their medicine does not reach the affected parts at all. The other day the New York papers recorded the death of a woman who died of Kidney troubles and had been treated for years for "female disease." If she had taken Dr. David Ken-

IN SENATE AND HOUSE.

Lower Body Passes the Maine Victims' Rettef Bill.

Washington, March 22.-The house yesterday unanimously passed the bill for the relief of the survivors and victims of the Maine disaster. The bill reimburses the surviving officers and men for the losses they sustained to an amount not to exceed a year's sea pay, and directs the payment of a sum equal to a year's pay to the legal heirs of those who perished. There was quite a spirited debate over an amendment suggested by Mr. Cannon to give the survivors each a year's pay out of hand, instead of attempting to reimburse them for actual losses. Some old alleged scandais in connection with the reimbursement of the survivors of the Samoan disaster were raked up by the debate. The oad was saved from a rather sordid tone by a beautiful tribute paid to the gallant dead by Mr. Cousins, of Iowa, in a short but eloquent speech. He aroused the galleries to spontaneous applaus when he said that while the vultures might be watching over the waters of Havana harbor for the belated dead, above all the eagle's pierc ing eye was watching for the truth. The remainder of the day was occupied in the consideration of the old dalm of John Roach, the shipbuilder, for \$231,000. No action was taken upon

IT IS EASY TO TELL.

People who fail to look after their health are like the carpenter who neglects to sharper his tools. People are not apt to get anxiou 'not quite well" or "half sick" have you ever thought that your kidneys may be the cause of your sickness?

It is easy to tell by setting aside your urine for twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trcuble. Too frequent desire to urinate, scanty supply, pain or dull ache in the back is also convincing proof that the kidneys and bladder are out of order.
