Sleeping Occupants Awakened to Meet Death by Flame.

FATAL HOTEL FIRE.

PROBABLY TWENTY-TWO DEAD,

While the Death List May Bo Increased by the Loss of Unknown Lodgers-Several Severely Injured in the Rush For Life.

Butte, Mont., March 22 .- The Hale House, a large three story brick build-ing on East Broadway, used as a lodging and boarding house by miners in the employ of the Anaconda company was entirely destroyed by fire which broke out shortly after 3 o'clock in the morning. So far as known two men are dead from injuries received by jumping from the windows, another is dying and 20 are missing, while a search of the ruins may disclose the fact that many transient lodgers also lost their lives. The dead are: Matt Doyle, aged 45, minor, jumped from third story window? Frank Rohdey, aged 40, lately from Portland, Ore, jumped from the third story window. Dying: Hugh Boyle, aged 30, miner, strated to lower himself from the third story by means of improvised rops, which parted 50 feet from the ground. He was just recovering from the effects of a broken leg through an

accident a month ago. Injured: Pat Galligan, went down with third floor when it collapsed and was rescued by firemen, badly burned. John T. Carter, badly burned and cut by glass; J. J. Conroy, burned on hands and bones fractured: Barney Reynolds, fractured right leg; Mike Judge, right arm broken; John Irwin, burned about the neck and face and cut by glass before jumping from the third floor. There were 250 men and women in the building when the fire broke out. Of these, it is believed, about 200 escaped without injury. The fire started in the bakery house in the center of the building, and had a good start before it was discovered. When the firemen arrived men in their under-clothing, and others half dressed, were clamoring down the fire escapes in the rear. The servant girls and others January, 1898. With its return to service this were at the windows in the front of the building, frantically calling for help. They were cut off from the rear of the building by the dense smoke. The ladders were run up, but not be-fore many of the frightened people had jumped. All the female help were gotten out by the firemen. On the side of the building many had made ropes of their bed clothes and sought to escape in that way. Some of them succeeded, but in other cases the ropes broke and the men dropped many feet sleeping cars, a compariment car and a to the ground. No one saved any-thing but what they had on at the plete in all its appointments and equipped time of the fire. The night was bitterly cold, the thermometer registering 5 below ezro. As long as there appeared any chance of anyone being in the building the firemen devoted themselves to saving

two hours after the fire began the walls had fallen in. It is possible some of the missing men may turn up. Early in the day the list of the supposed dead ran up as high as 40. This was because many of the men who escaped did not report for work at the mines. Little by lituntil but 20 known lodgers were un-accounted for. It is possible, however,

reach \$100,000.
