To Those it May Concern. There's an old saying that a person can-not handle pitch or any other dirty sub-stance without soiling their fingers, hence it is with extreme reluctance I refer to a scurilous, dirty article which appeared in the papers referring to me. All dirty streams have a dirtier source, and the cleanest way to deal with them is to turn on a flood and wash it completely out. When some lowbred renegade tries to amirch the character of an honest man, by trying to make stick to him some of his own foul-reeking dis-honesty, the best plan perhaps is to turn the flood of the law upon him. When the man, however, is so hopelessly sunk down in depravity that he becomes morally and men-tally irresponsible for what he says and does, it is better by chance to pity the sinner and hold him in utter contempt. A man who lies every day to the public through the press, who tries to induce people to buy of him by false pretences, will swindle and steal and it may be expected that such men will ten and death and the stead of th will try and drag honest dealers down with them. P. T. Barnum said the American people want to be humbugged; now it is for the public here to decide if they still want to be faked and humbugged by a man who is every season going out of business. The people should down those fakirs, and trade with legitimate merchants in all branches of business and they will find that they'll get honest treatment for the almighty dollar. Should a reply appear to this article in the near future, the undersigned will totally ig-

Sneak Thieves About.

Yesterday afternoon a thief sneaked into the Jardin street residence of W. A. Brawer. president of the Columbia Brewing Company Only a servant was in the house at the time and she was at work upstairs. The thief secured a pocket book containing four dollars and rifled the sideboard drawers. The silver-ware was found laid out on the dining room table, but only the posset book was missing. It was subsequently found in pieces in the yard. Last night the place was again visited and nearly all the contents of a refrigerator on the rear perch of the house carried away. Evidently no attempt was made to get into the house.

OFFICIALS AWAIT THE REPORT!

secial t o Eventsu Henaus.

Washington, March 23, 3 p.m.-Lieutenaut Commandar Maris has just arrived here with the Maine court's report.

on the Maine Question.

Excitement is running high. Congressman Grosvenor, of Ohio, says President Me-Kinley will send to Congress within the next seven days a recommendation that the independancy of Cuba be recognized.

Key West, March 23.—The report of the court of inquiry into the Maine dis-aster left here yesterday in the custody of Lieutenant Commander Marix, judge advocate. If the train connections are made he will arrive in Washington with the document tomorrow night. Whether the report will meet with the approval of the navy department is a matter of conjectuure. Even Rear Admiral Sicard declines to prophesy. The general opinion of naval offi-cers here, however, is that the navy department will quickly approve the findings and publicly convey them to the nation with as little delay as pos-

Within the last few days a minority sentiment has ben steadily growing that the court has been unable to determine definitely the cause of the explosion. Still, it is true that a majority hold to the conviction that the report will find and prove that the Maine was blown up intentionally. As is nat-ural, all who could speak authorita tively maintain the sllence which marks the history of this most remarkable court. In the absence of any reliable basis speculation continues rife as ever, and accurate news from Wash-ington is awaited as eagerly by Rear Admiral Sicard as by the youngest cadet in the fleet.

The sending of the report to Wash-ington was an undramatic climax to weeks of waiting Lieutenant Com-

REAR ADMIRAL SICARD. mander Marix went aboard the Nash-ville early in the day and brought off the findings. After a prolonged con-ference with Rear Admiral Sicard certain alterations were made, and then Rear Admiral Sicard affixed his signature of approval. After luncheon Lieutenant Commander Marix boarded the steamer City of Key West and sailed for Miamt at 4:30 yesterday afternoon, with the court's findings safe-ly stowed away in state room No. 16.

Despite the absence from Key West of the documents on which the eyes of the world are fixed, the court of inquiry continues in existence, though inactive. Should the navy department require further investigation, and express dis-satisfaction with the findings, it is probable the court would be obliged to return to Havana, though the release return to Havana, though the release have just received this morning 50 of the of all the Maine officers held here as newest and latest fads in shirts, and will witnesses until yesterday makes it un-likely that any hophole has been left which would justify the department in requiring the court to perform further

work. North Atlantic squaoron, arrangements sours, are making for his detachment from that duty as soon as it becomes ap-parent that such a step is necessary. Substantial Unualmity on the Maine Disaster and the Cuban Question. Washington, March 23.—The cabinet meeting yesterday insted something over an hour, and was devoted ex-clusively to the Spanish situation in general, and to the forthcoming report of the Maine court of inquiry in par-ticular. The tone of the discussion very firm and determined had these must come an end to the present data of affairs in Cubs. Secretary Louis air thorized the statement that the und standing before the cabinet was that the publication and transmission of the until next Monday or Tuesday, as the president would require that much ture consideration its momentous

character remained. Other entinet offloors stated that the general plan in-cluded the sending of a presidential message along with the report, stating that Spain had been called upon to make suitable response to the case as

presented by the court of inquiry, While the cabinet associates of the president maintained the usual reserve as to the exact character of the deliberations, yet it was conceded that that the coming report would show that the Maine explosion was not the result of an accident, but was due to

There is no doubt that enbarantial unanimity exists on the part of the president and all his cabinet, both as to the Maine question and the general subject of Cuba. The possibility of a ties, including the recourse to inter-vention, the recognition of independ-puny, personaled Mr. Schmicker to es ever, to bring about a very material and satisfactory condition in Cuba by what shall seem to be the best and most practicable method of obtaining this end.
