FRIDAY, MARCH 25, 1898.

In spite of war rumors, the base ball season promises to open on time.

Though little is being heard relative to the soldiers' monument, it is not to be supposed that the project has been abandoned or that it is under a cloud. At least we hope not.

March, for the past few days, has been what March should have been earlier in the month. If we are not visited by a frost, however, we will not complain at such weather as we are having.

The use of boodle in politics has been brought to a fine point in the staid old county of Lancaster. They could give Philadelphia politicians odds and beat them at their own game.

The fashion papers assure us that "bangs" will soon be in vogue. From the appearance of things at the several naval stations of the United States, it looks as though "Uncle Sam" is getting ready to keep up with the times.

A single Philadelphia paper has poems on the detention of the Maine on hand. If the Spaniards be found guilty of the blowing up of the ship perhaps the most adequate punishment would be to compel them to read these poems during a fixed period.

No intelligent Spaniard can doubt that whatever other issue a war between Spain and the United States might produce, it would forever separate Cuba from Spain. If, in addition, the Philippines were taken away from her, the last of her dependencies would disappear and the rule of Spain would be confined to the Peninsula.

Tampico, in Mexico, is about to restore the bull fight as a municipal pastime, a law prohibiting it in the State of Tamaulipas having recently been repealed. In the march of civilization as the century draws to its close Tampico advances at a double quick step, and no doubt considers itself entitled to high credit for its enterprise. Its papers celebrate the construction of the new bull ring with more enthusiasm than if it were a museum or an academy of sciences, and the community probably takes ten times as much interest in it.

A fraternal insurance case has just been decided in Philadelphia of much interest to these societies. Edward G. Miller, a member of the Ancient Order United Workmen, transferred his $2,000 policy to a creditor to secure a claim, without consulting his wife, the original beneficiary. The creditor continued paying assessments amounting to $440.34. When Miller died his policy was paid into court, which awarded the creditor $665.07, the full amount of dues and assessments paid by him, with interest, and the balance to the widow.

In voting to reimburse the officers and crew of the Maine for the personal losses sustained by the destruction of that vessel, Congress has taken a step that will receive the hearty approval of the entire country. The startling and unlooked for "accident," found the victims unprepared to save anything, and all their little belongings went down with the wreck. Uncle Sam with commendable alacrity proposes to repay them out of his well-filled purse, and eventually Spain will be called on to reimburse this country for the entire loss, and with freedom for Cuba thrown in to boot.

Either the Boston edict against theatre hats is defectively worded or the women of that city are making a wholly unnecessary fuss about it. Apparently, there is fault on both sides, for, while it is asserted that the ordinance forbids the wearing of any kind of a hat in the theatre, it is said that many of the women who obey it wear, instead, plumes in their hair, which amount to the same thing, so far as obstructing vision is concerned. There should be a judicious compromise. A low hat is not objectionable, and should be permitted, but anything that rises above it, from an aigrette to an ostrich plume, is an obstruction and should be barred."

A Minister's Trials.

This narrative from a minister is of greatest value to those whose nerves are wasting, health shattered or otherwise ailing. It is particularly appropriate in this age of active, nervous, exhausting labor.

We are living too fast. "Fast as lightning," expresses it, for we talk by electricity, cook by electricity, travel by electricity and so on.

Its a hurry, hurry, hurry from the cradle to the grave.

We crowd too much; crowd our work, crowd our eating, crowd our pleasure, crowd our sleeping.

A "breaking down of the nervous system" is the way of expressing the result.

It means a depleting of the nerves induced by prolonged strain; overtaxing of the nervous system; a product of overwork and hustle.

It affects all people in all walks of life. It baffles physicians of all schools.

No one knows the horrors of such a condition better than Rev. J. N. McCready, of Elkton, Mich. For years he labored faithfully and well. He was progressive and aggressive; a leading young man, a deep thinker and a hard worker.

In his zeal, he overworked; overtaxed his mental and physical strength.

The outlook was dark, with health shattered and recovery apparently hopeless.

Many resorts for a cure were tried, without receiving benefit.

Finally he took Dr. Williams' Pink Pills for Pale People and was restored to health. He says:

"In April, 1896, the physicians said I must stop preaching or die.

"I had overtaxed myself and was suffering from a complete breaking down of my nervous system and a persistent stomach trouble.

"Several physicians treated me, but no permanent benefit was derived.

"Four times I was stricken with nervous prostration; twice with gastritis.

"These attacks would throw me into spasms.

"I could eat neither meat or vegetables.

"If my bare feet touched the floor I was immediately seized with cramps.

"I was used up; helpless, hopeless.

"I commenced to take Dr. Williams' Pink Pills for Pale People. One box was exhausted and I felt no better. This discouraged me.

"My wife urged me to try the pills some more, feeling that my life depended upon the result.

"I continued to take them.

"Since then, and it has been several months, I have enjoyed life.

"Have preached all summer and held revival meetings for fifteen weeks.

"I have had no muscular exercise for years, but recently, have done considerable hard work in my garden, my muscles standing this test remarkably well.

"Every Sabbath I preach three times and now think I am good for another twenty years, if the Lord wills."

To add weight to his words, Rev. McCready makes affidavit before J. D. Brookes, Notary Public.

Dr. Williams' Pink Pills for Pale People exert a powerful influence in restoring wasted nerve power and in purifying and enriching the blood. Druggists consider them the most effective remedy which they dispense.

CAPTAIN SAMPSON'S RELAXATION

It Was a Surprise to Navy Officers, Captain Evans' Promotion.

Key West, March 25.—It was known that Captain Sampson, of the battleship Iowa, had no end of official business to attend to, but it was also known that he was already overworked, and it was decided that he must have relaxation. Admiral Sicard ought to be retired, but no one thought of asking Sampson to go. Captain Sampson was therefore given a steamer and ordered to cruise around the Florida reefs. The cruise was considered a necessity for the continuance of what many think will be a valuable career. His health has not been of the best. A fleet officer said to-day concerning it:

"Captain Sampson's assignment may not be permanently popular, but it is one of the most responsible given by the government. Under his command, in his fast, steel cruiser, is a battery of submarine torpedoes, and the commanding officer of a boat so armed has in his hands practically the solution of the war problem."

The appointment of Captain Robley D. Evans (Fighting Bob) to command the Iowa has created intense enthusiasm among all the regular naval element and caused great satisfaction all around. He is supposed to be at Charleston.

Rear Admiral Sicard will probably return home on sailing orders, and the Iowa will presently remain the flagship.

The pathos of Rear Admiral Sicard's retirement at this critical stage appeals to all who have known or served under him. One naval officer said:

"It was evident that the admiral's failing health made it impossible for him to retain command at this trying juncture. But the way in which he has struggled against bodily ailments in the endeavor to devote the closing months of a splendid 40 years' service to active duty is a silent chapter of heroism as gallant as any victory in naval history."

Ten thousand demons gnawing away at one's vitals couldn't be much worse than the tortures of itching piles. Yet there's a cure. Doan's Ointment never fails.

The Florida Limited Will Again Run on the Southern Railway.

The Florida Limited, which is the synonym of all that is elegant in modern railroading, and which during its former career has been a prime favorite for tourists from the North seeking the mild climate of Florida, will be placed in service by the Southern Railway about the first week in January, 1899. With its return to service this famous train will be solid Pullman vestibuled between New York, Philadelphia and St. Augustine and will present features in the way of luxurious and comfortable appointments not heretofore presented, and which will be designed to add still further to its already well established popularity.

The Southern Railway is having built for the Florida Limited service three trains, each consisting a dining car, two drawing room sleeping cars, a compartment car and a library and observation car, each car complete in all its appointments and equipped with the very latest devices and appliances for the comfort and convenience of the passengers. While no schedule has as yet been announced, it can be stated that it will be the quickest ever arranged between Philadelphia and St. Augustine, and will be so planned that passengers can leave Philadelphia at some convenient hour during the day and arrive at St. Augustine before nightfall of the following day.—Philadelphia Record.

Notice.—Applications for further information addressed to Jno. M. Beall, district Passenger Agent, Southern Railway, 828 Chestnut street, Philadelphia, will receive prompt attention. 10-25-tf

CAPTAIN SIGSBEE RELIEVED.

All Maine Officers But Lieutenant Wainwright to Leave Havana.

Havana, March 25.—Orders for return home were received yesterday by Captain Sigsbee and the other officers of the Maine now here, and all will go north except Lieutenant Commander Wainright. Chaplain John P. Childwick will go with the officers. Lieutenant Commander Wainwright, who will remain in charge of the wrecking operations, will have his quarters, as now, on the Fern, Commander Cowles commanding. Captain Sigsbee and his brother officers expect to leave for the north by the Plant line steamer Olivette tomorrow.

The correspondent read the naval orders bulletin to the officers on the Fern's quarter deck last night. Deep interest is felt, and much enthusiasm was expressed among them and among the correspondents on shore over the orders affecting Captain Sampson and Captain Evans, while every one expresses the hope that Captain Sigsbee will be given an important command.

The Cuban railways make liberal concessions to the relief trains carrying supplies to the interior and the coast towns. The roads from Cienfuegos, supplying 15 towns, and from Cardenas, supplying 50 towns, carry the supplies free, while the roads east and west from Havana city make a 75 per cent reduction on third class rates. It is expected that the other lines will make similar concessions. Special Commissioner Louis Klopsch is justly gratified at the continued success of relief stations in Havana city, and equally pleased with the arrangements for the depots in the interior.

WANAMAKER'S CAMPAIGN.

Arrangements Perfected to Thoroughly Canvass the State.

Philadelphia, March 25.—The state committee appointed by General Koontz, chairman of the Bourse conference, to arrange the Wanamaker campaign for the Republican nomination for governor, organized yesterday and outlined the plans for the inauguration of a thorough canvass of the state. Ex-Postmaster General Wanamaker met with the committee and manifested a lively interest in its work. Elias Deemer was elected chairman, General Charles L. Leiper treasurer and John J. Green of Chester secretary. The name decided upon was the "Republican Union of Pennsylvania." Mr. Wanamaker has daily been in receipt of offers of assistance on the stump of some of the best known public speakers in the state. These offers were accepted by the committee, and 50 more speakers will be added.

TWO NEW WAR VESSELS.

The Kentucky and Kearsarge Added to Uncle Sam's Navy.

Newport News, Va., March 25.—The twin battleships Kentucky and Kearsarge were launched here yesterday in the presence of an immense crowd. There was not a hitch in the program, and cheers from 50,000 throats greeted the latest additions to the United States navy as they slid from the ways, the prow of the Kearsarge sprinkled with champagne, the Kentucky christened with pure water from the home of Abraham Lincoln. Mrs. Winslow, wife of Lieutenant Commander Winslow, son of the commander of the famous old frigate that first bore the name, christened the Kearsarge and Miss Bradley, the daughter of Kentucky's governor, acted as sponsor for her state's namesake. As the Kentucky started on her journey to the water a number of pint bottles of Kentucky whisky were hurled from the crowd and smashed against the shining side of the battleship.

A luncheon by the Newport News Shipbuilding company to the invited guests given at Chamberlain's hotel, Old Point Comfort, concluded the ceremonies.

Mr. E. Rouse, of the Ferguson House, says: "I was taken with a lame back about four months ago. There was a continuous pain across my loins and a great deal of headache. The kidney secretions were not normal and every movement I made, such as stooping, bending forward, or attempting to lift anything caused sharp twinges to pass through me which held me motionless for a second or two on account of their severity. I learned about Doan's Kidney Pills in some way and procured them at Kirlin's drug store. The first box did me so much good I got another, but I did not have to use half of the second box, before the whole trouble and annoyance were things of the past. Since I took Doan's Kidney Pills there have been no traces of my former troubles and I give them all the credit."

Tired Eyes.

People speak about their eyes being tired, meaning that the retina or seeing portion of the eye is fatigued, but such is not the case, as the retina hardly ever gets tired. The fatigue is in the inner and outer muscle attached to the eyeball and the muscle of accommodation which surrounds the lens of the eye. When a near object is to be looked at, this muscle relaxes and allows the lens to thicken, increasing its refractive power. The inner and outer muscles are used in covering the eye on the object to be looked at, the inner one being especially used when a near object is looked at. It is in the three muscles mentioned that the fatigue is felt, and relief is secured temporarily by closing the eyes or gazing at far distant objects. The usual indication of strain is a redness of the rim of the eyelid, betokening a congested state of the inner surface, accompanied by some pain. Sometimes this weariness indicates the need of glasses rightly adapted to the person, and in other cases the true remedy is to massage the eye and its surroundings as far as may be with the hand wet in cold water.—Philadelphia Ledger.

"Saved Her Life."

Mrs. John Wallet, of Jefferson, Wis., than whom none is more highly esteemed or widely known, writes. "In 1890 I had a severe attack of La Grippe and at the end of four months, in spite of all physicians, friends and good nursing could do, my lungs, heart and nervous system were so completely wrecked, my life was despaired of, my friends giving me up. I could only sleep by the use of opiates. My lungs and heart pained me terribly and my cough was most aggravating. I could not lie in one position but a short time and rest on my left side at all. My husband brought me Dr. Miles' Nervine and Heart Cure and I began taking them. When I had taken a half bottle of each I was much better and continuing persistently I took almost a dozen bottles and was completely restored to health to the surprise of all."

NOT ALWAYS UNDERSTOOD

A fact often overlooked, or not always understood, is that women suffer as much from distressing kidney and bladder troubles as the men. The womb is situated back of and very close to the bladder, and for that reason any distress, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort.

The error is easily made and may be as easily avoided by setting urine aside for twenty-four hours; a sediment or settling is evidence that your kidneys and bladder need doctoring. If you have pain or dull aching in the back; pass water too frequently, or scanty supply, with smarting or burning,—these are also convincing proofs of kidney trouble. If you have doctored without benefit, try Dr. Kilmer's Swamp-Root, the great kidney remedy. The mild and the extraordinary effect will surprise you. It stands the highest for its wonderful cures. If you take a medicine you should take the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail upon receipt of three 2-cent stamps to cover postage. Mention Herald and send your address to Dr. Kilmer & Co., Binghamton, N. Y. SOUTHERN RAILWAY FLORIDA TRAINS MAKING A REMARKABLE RECORD.

Jacksonville, Fla., Feb. 22.—Last season it was not an uncommon occurrence for the trains from the North to reach here from one to five hours late. The remarkable regularity of the arrival on time of the Southern Railway trains this season is a matter of comment and favorable criticism around the hotels and by all incoming tourists. The schedule of the Florida Limited, the fast train over the Southern Railway and the Florida Central and Peninsular, is several hours shorter than that of last year, but the track has been put in excellent condition and the engineers of incoming trains say the new schedule is made with ease.
