MINING STATISTICS.

Months Since Chief Brownlee, Re-It From Ignoring Mine Rules. ... Mr. Brownlee says there is no question that if the mine rules were more vigorously enforced the number of accidents in the mines would be very materially reduced.

The number of employees in the anthracite mines from which reports have been received is 29,825. Of these 23,482 are native born, 13,551 are naturalized citizens and 22,469 are aliens.

Mr. Brownlee says there are too many mines and too many men engaged in the business for mining to be profitable. He thinks the reason of discontent and suffering among miners.

Get More and You Get Less

Why is it every sarsaparilla which tries to sell itself, ranges itself against Ayer's as the standard? Why is it that all have to offer extra inducements—bigger bottles, finer wrappers, cheaper price—anything, everything, but the one inducement of quality?

Ayer's Sarsaparilla

has never been equaled by any cheap imitation of it, and quality tells, just as blood tells.

It is the Standard.

"I have sold Ayer's Sarsaparilla for more than twenty-five years, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. A preparation must possess great merit to maintain such a reputation. I believe your sarsaparilla to be the best blood purifier that has ever been introduced to the general public. I often hear other manufacturers say that this is 'as good as Ayer's' but no one ever yet heard it said that Ayer's was 'as good' as any other kind. They always set Ayer's as the standard of excellence."—S. F. Boyce, Duluth, Minn.

BOARD OF HEALTH.

Proceedings at a Regular Meeting Held Last Night.

A regular monthly meeting of the Board of Health was held last night. As the Borough Council held a special meeting and occupied the Council chamber the members of the former held their session at the residence of one of the members, Mr. Mahoney. The meeting was attended by Messrs. Spalding, Morrison and Malone, Health Officer Conry and Secretary Curtis.

President Spalding presented a blue print of the garbage furnace in use at Lancaster and they were inspected with interest.

There were four cases of communicable diseases during the month—diphtheria, 1; scarlet fever, 3.

The necrology report for the month was as follows: Deaths, 30; still births, 2; burial permits issued, 31; non-residents, 9; receipts for January and February, \$17.25.

The Health Officer reported that he had alerted a number of nuisances.

President Spalding spoke on milk inspection. He said he had spoken to several business people, but they refuse to act in the capacity of inspector owing to the injury that might result to their trade. At this point extracts from the Pottsville Board of Health's report were read, showing the steps taken on milk inspection.

The Board took no action on the subject but drifted back again to the crematory question, which was also dropped without definite action.

President Spalding stated that midwives are practicing extensively among the poorer classes of town and many deaths of children occur through the ignorance of the practitioners. He spoke at length on the subject. The Board took no action in connection with the matter.

A circular from the Associated Health Authorities of Pennsylvania was read, requesting the appointment of a delegate by the local Board to attend the 15th annual meeting at Lancaster on May 18 and 19, 1898.

It is very poor economy to endeavor to relieve a cold by neglecting it, when a bottle of Dr. Bull's Cough Syrup will cure it at once.

UNITED STATES SENATOR PRITCHARD

Mrs. Pritchard Got Entire Relief From Rheumatism by Use of Paine's Celery Compound

United States Senate, WASHINGTON, D. C.

Washington D. C. May 18/97

Wills Richardson Esq Col Burlington Vermont

Gent.

I find Paine's Celery Compound an excellent remedy for Rheumatism. It has not only cured me but I have recommended it to every one needing it.

It is now time, if ever, to get health and strength. Nothing should now interfere with building up weakened nerves and purifying the blood.

Now is the time of year when rheumatism and neuralgia must be cured, when debility and nervousness must be checked, when debility and nervousness must be checked, when health must be mended—if one hopes ever to get well.

It is not that rheumatism, neuralgia, insomnia and kidney troubles are hard to cure—Paine's celery compound has made a host of sufferers well—but people make themselves chronic invalids by neglecting the early symptoms of disease.

Thousands of lives that are now fast wearing out would be prolonged if Paine's celery compound were in each instance used to stop those ominous pains over the kidneys, to build up the run-down, nervous strength, and cure permanently those more and more frequently recurring attacks of headache and indigestion.

Senator Pritchard of North Carolina became prominent in the co-operative movement in North Carolina, the success of which resulted in his election to the U. S. Senate to fill the term of the late Senator Z. B. Vance. He was re-elected to the Senate in 1887.

Mrs. Pritchard's testimonial to her faith in Paine's celery compound is reproduced above. Below is a testimonial received from the wife of U. S. Senator Warren of Wyoming, whose distinguished services for the country's best farming interests are so well known.

"I was persuaded to try your Paine's celery compound in the early spring, when in a very run down condition. The duties devolving upon the wife of an official in public life are naturally very exhausting, and I was tired out and nervous when I commenced using the remedy. I take pleasure in testifying to the great benefit I received from its use, and can truthfully say that I am in almost perfect health again. If I ever find myself running down again, I shall certainly give it another trial, and will in the mean
