## BURNED BY POWDER.

Spark From a Lamp Causes a Slight Ex plosion.

Joe Trenowski, a single man 22 years of age, residing on West Raspberry alley, was severely burned about the face, hands and arms this morning by an explosion of powder in the Maple Hill colliery. While he was en-gaged in making a cartridge a spark from his lamp dropped into the roll of powder. Trenowski went to the Miners' bospital.

Mahanoy City's Big Attraction The attaches of Kaier's Grand Opera House, Mahanoy City, will have a benefit this evening and the attraction that has been secured for the occasion is the rollicking comedy "My Friend From India," which not nly scored one of the biggest successes in New York earlier in the season but has also been a pronounced hit wherever it has been seen in the provincial towns. It will be produced by the original cast and this guarantees a splendid perfermance. The piece was seen at Ashland on Saturday night and a big audience was more than pleased with it. A telephone message to the HERALD, says it is the best attraction seen there this season. Shenandoah will be well represented at Kaier's to-night, and those in attendance will be well repaid for their visit.

An Auspleious Opening.

Seldom are the people of Shenandoah and vicinity favored with openings of such an auspicious nature as that of R. F. Gill's new dry goods emporium, which took place on Saturday afternoon and evening. It was a striking success and was attended by a large number of shoppers. The opening was all that could be desired. For months past Mr. Gill and his clerks were engaged in making preparations for their first week of spring business. Mr. Gill, who always leads his earnest efforts towards the powerful lever of spot cash, scoured the markets, and secured the best, latest and most desirable of this season's goods. His opening has made many favorable impressions.

Sunday School Election.

The following was the result of the election of officers in the Methodist Episcopal Sunday school: Superintendent, Dr. J. S. Callen; 1st Assistant, H. E. Dengler; 2nd Assistant, A. H. Gil, Ferguson Injured.

Gilbert Ferguson, of Merriam, and well known in this town, was engaged in drilling a hole in the mines of the Locust Gap colliery when the ladder upon which he was standing collapsed and threw him violently to the ground, snapping off the bones of the leg immediately below the knee. He was removed to the Miners' hospital.

The feature of the report of deepest interest to the navy is the complete exoneration of Captain Sigsbee and all on board contained in the second finding, setting forth the perfect order and discipline prevailing on the ship and more directly stated in the sixth finding, which declares the disaster to be due to no fault of those on board.

CAPTAIN SIGSBEE EXONERATED.

There Were Two Explosions, the First of Which, Caused by a Submarine Mine, Lifted the Big Vessel and Caused Another Explosion From Within-The Court Unable to Fix Responsibility For the Disaster—The
President Spends Another Sunday in

The semi-official El Globo says: "At Conferences With His Chief Advisers

Washington, March 28 .- The following is a complete abstract of the re-port of the court of inquiry which in-vestigated the wrecking of the bat-tleship Maine. This abstract is made from the report itself, access to which was obtained yesterday, despite official secrecy unparalleled in the handling of official papers. The report is made up of eight parts, as follows:
First—The court finds that at the

time of the explosion the battleship Maine was lying in five and one-half

to six fathoms of water, Second—The discipline aboard the ship was excellent; everything stowed according to orders-annualtion, guns, stores, etc. The temperature of the magazines at 8 p. m. was normal except in the after ten inch magazine, that did not explode.

Third-The explosion occurred at 9:40 o'clock on the evening of Feb. 15. There were two explosions, with a very short

BOARD OF INQUIRY. on the first explosion.

Fourth—The court can form no defi-

nite opinion of the condition of the wreck from the divers' evidence. Fifth-Technical details of wreck-age, from which the court deduces that a mine was exploded under the ship on the port side.

Sixth-The explosion was due to no fault of those on board. Seventh-Opinion of the court stating that the explosion of the mine caused the explosion of the two maga-

Eighth-The court declares that it cannot find evidence to fix the respon-

sibility. The report is unanimous and is signed by all the members of the court. It does not refer to the existence or non-existence of mines in the harbor of Havana except in the specific finding that a mine was exploded under the ship, and the opinion that the exof the two magazines was caused by the explosion of a mine.

The report as a whole is a formal, dispassionate reciful of facts, and bears the stamp of that strict officialism which marks naval procedure. It is brief, not exceeding 1,800 words, and among the eight parts goes to the greatest length under the second head-ing, which deals with the discipline and order of the ship. This the court specifies with extreme minuteness, the least detail of the satisfactory condition of everything on board being given.

The normal temperature of the large forward magazine at 8 o'clock-only an hour and 40 minutes before the ex-plosion-disposes of the question of accidental combustion within these magazines. While the court holds that these magazines did not explode from internal causes, they nevertheless are of the opinion that the explosion of the mine under the port side of the ship caused the explosion of the two mazagines. This will explain the remarkable destruction wrought, the expiosion thus being shown to have com bined the force of a mine without and two magazines within. The two ex-plosions which the court finds to have occurred, with a very short interval between them, is an additional detail

showing that two forces operated in causing the destruction.

The finding that the ship lifted on the first explosion indicates an external source, and one of tremendous power to be able to lift a battleship of thousands of tons. The character of the wreckage, technically described in the fifth part of the report, from which the court deduces that a mine was ex-For rent. Centrally located. Trolley cars pass the place. The inability of the court to find evidence to fix responsibility, as stated in the eighth part, makes the report so guarded in expression of blame that neither Spain nor the Spanish are mentioned throughout.
