THE WARLING LA LUCHA, Havana Newspaper Says War Has

Been Practically Declared. Havana, March 29,-Deep interest is felt here in the news received from the United States. La Lucha, in an editorial, says:

"The United States' note to Spain, demanding that a date be fixed to end the hostilities, is simply a declaration of war. It was not issued until after the finding of the United States court of inquiry had been received, which finding is without scientific basis and is open to question, even upon the part of the most prejudiced. President McKinley has been forced by jingo opinion and the sensational newspaper press to close the debate on the ques-tion and shield Captain Sigsbee, who is one of the most popular officers in

the United States navy.
"It was needless to send the Maine to Havana, as American interests were amply protected by General Lee and also by the Cuban government, the latter often acting to its disadvantage and in favor of American interests It is well for Spain to know at last the real purpose of the money loving Americans. Spain now knows what to expect and how to act."

La Lucha then warns the United States that if she expects to have all her own way in Cuba "she can only do with cannon." In conclusion La Lucha says: "The United States is rich and Spain is poor, but the end of the war may find Spain with a good portion of American money."
