The enforcement of the Alien Tax
law is still giving the County
Commissioners of this state trouble, and
the end will not be reached until the
Supreme Court passes upon the
matter. The Commissioners of this
county received a communication from
the Commissioners of Blair county
relative to the matter. The
writers state that they propose
appealing from a decision of the Court
of Common Pleas of Blair county
restraining them from collecting the
alien tax under the act of June 15,
1897. They suggest that all counties
where aliens are employed are interested
in this appeal, which will cost
about \$500, and Shenandoah county is
asked to contribute \$50. The
Commissioners decline to go into the
matter. They have attempted to
enforce the law, but in this they have
not been very successful, as very
little has been paid into the treasury
by employers of foreigners.

Important Qualities.

One of the most important
qualities the young can develop, says an
exchange, is self-reliance, yet
the training they receive from both
parents and teachers is generally of such
a character as to render young people
dependent. Even in the household,
if some simple work is to be done,
the father does it to save time rather than
entrust it to his awkward son. The
mother relieves the daughter that
the latter may acquire accomplishments,
or because she is impatient and can
not sit idly by while a "prentice hand
is at work.

In the school room the teacher
finds it easier to do the work of a
pupil than to superintend his operations.
In the workshop the master
takes the work from the hand of the
learner lest the product should be
spoiled. The daily lesson to the
young, imparted to them by experi-
ence rather than by precept, is that
they are incompetent and can not for
many years acquire the skill of their
preceptors. If not altogether dis-
couraged by the reproaches for their
awkwardness, they are at least de-
prived of that self-confidence or self-
reliance which in itself would go a
long way towards making them skill-
ful and efficient.

In social life the young man or
young woman is seldom recognized as
being able to do any thing without the
advice and assistance of his or her
elders. If an entertainment is to be
arranged, some one with experience
must be consulted; if cards are to be
sent out, the young people feel that
they are incompetent to make out a
list. Mothers complain of their
daughters that the latter cannot buy a
dress fabric or a bonnet without
assistance, forgetting that the daughters
have never been allowed to do so,
or, having made the attempt, have
been ridiculed or censured for their
choice.

In very many households the young
people are really dependents, and
have fallen into the habit of con-
sulting their elders on the most tri-
vial questions. They may have good
taste and good judgment, but have
acquired the habit of deferring to
their elders or superiors and are with-
out self-reliance. When freed from
this thralldom—by marriage, for ex-
ample—they gradually acquire self-
reliance, and then, forgetting their
own experience, rear their children
in the same way.

The most successful teachers never
do the work that should be done by
their pupils. By the exercise of great
patience they resist the temptation
to take the easier course, and simply
instruct the pupil as to what he
should do, leaving him to do it. In
that way they develop some degree
of self-reliance in the pupil. The
latter becomes less and less dependent
upon the teacher for help, and leaves
the school able to think and judge
for himself.

This method of training should be
applied in the household as well as in
the school. The child should be re-
quired to do his task without assist-
ance, and criticized, if at all, in a
kindly manner that will not dis-
courage him from trying again. It is
not an easy task to do this, especially
if the parent is of a nervous dispo-
sition. The awkwardness of the be-
ginner is irritating; so, also, is his
slowness. Patience is required to
keep one from defeating the object
of training by taking the work from
the hand of the learner, or from scolding
him for his incapacity.

It is well, however, to make the at-
tempt to teach self-reliance, for it is a
great help to after training and will
be needed by the young man when
he goes out into the world and finds
no parent to lean upon. The young
will not do as well as their
elders would do it. They have
neither the skill nor the experience

possessed by the latter, but they will
acquire both if encouraged to do
things rather than to look upon
things being done, and they should
acquire by this means a reasonable
degree of self-reliance.

Philadelphia Convention Approved.
Philadelphia, April 2.—District At-
torney Graham went to court yester-
day and asked that warrants be issued
for the arrest of Common Councilman
Charles Seger, Select Councilman J.
Emory Bryan and Nelson G. Green,
attorney for the Schuylkill Valley Wa-
ter company, on charges of bribery in
connection with the Schuylkill valley
water bill. The warrants were issued
and shortly afterwards the men sur-
rendered themselves. Green was held
in \$50,000 bail, and the others in \$10,000
each for a hearing next Monday.

Boys' Gun Practice Killed a Man.
New York, April 2.—Edward Torney,
a young carpenter, while working on
the scaffolding of a new building at
New Brighton, S. L. yesterday, was
shot in the side and killed. There was
no report of a firearm heard, and those
who saw the man fall thought he had
been seized with vertigo. They were
surprised when they found the bullet
wound. Inquiry revealed the fact that
a crowd of boys had been in the vicinity
practicing with a Flobert rifle.
Clarence Lucas, Jr., 15 years old, has
been arrested in connection with the affair.

NAVAL MILITIA.

Letters Sent to the Governors of the Sea
Coast States.
Washington, D. C., April 2.

Supplementing the action taken on
Thursday by the navy department in
requesting governors of states to drill
and equip the naval militia, so as to
be ready for any emergency, Assistant
Secretary Roosevelt yesterday sent let-
ters to the governors of those sea-
coast states not having such organiza-
tions to take steps looking to the for-
mation of naval militia. It is hoped
that each of these states will be en-
abled to promptly acquiesce in the de-
partment's request. The coast states
not having naval militia organizations
are Maine, New Hampshire, Delaware,
Texas and Alabama.

Late in the afternoon Secretary Long
received a telegram from the adjutant
general of Connecticut stating that the
governor directs him to notify the de-
partment that the naval battalion of
Connecticut is in readiness and is
awaiting orders from the president.

The navy department received in-
formation yesterday that the cruisers
Vizcaya and Oregon, the two Spanish
vessels which have been lying in
at Havana, had left that port. Their
destination is not known, but there is
reason to believe that they have gone
to join the torpedo flotilla.

The naval officials continue reticent
regarding the acquisition of new ves-
sels for the auxiliary fleet and the ne-
gotiations for the purchase of ships of
war abroad, but there were indica-
tions today that, in spite of the an-
nounced belief of the department that
no more ships were to be looked for in
that quarter, all hope had not been
abandoned. The next indication was
the cable dispatch from Denmark that
negotiations were under way for the pur-
chase of two Danish cruisers could be
obtained, but at the same time it was
not denied. Assistant Secretary Roose-
velt, when asked the question direct,
replied that he could not answer.

Recommends Ormer a Subterfuge.
The subcommittee on foreign relations
appointed to draft a report and prepare a
form of resolution outlining a course
of action will report to the full com-
mittee at its meeting today. The sub-
committee will recommend the adop-
tion of a resolution to the effect that
the first place for the recognition of the
independence of the Cuban republic,
and in the second for the intervention
by the United States with her army
and navy, for the purpose of assisting
the Cubans to secure independence in
case Spain continues to refuse to con-
cede it. The committee will treat the
recognition of the order for the recon-
centration of the Cuban non-combat-
ants as a subterfuge, and will dwell
upon the past, if not the present, treat-
ment of these unfortunate; will detail
the Maine incident and attempt to
demonstrate that it was the cause
for the declaration of war if this
country were desirous of making it
such, and also will touch upon the in-
jury to American interests caused by
the Cuban struggle as a full justification
for our interference. The com-
mittee will recommend that, unless the
day unless it is then made evident that
it has been impossible for the presi-
dent to complete his promised message
for lack of time.

Senator McMillan, who has been in
consultation at the White House two
or three times a day ever since the
situation became critical, will treat
the following statement: "The president
is flatfooted on the proposition that
Spain must move out bodily. He also
knows absolutely that Spain cannot, or
at least will not, consent to this com-
plete abandonment. That means war.
The president is squarely faced. He
is not ready. He recognized certain
serious unpreparedness. McKinley
feels he would be guilty of great neg-
ligence if the deficiencies he has not
made good before we are plunged into war."

Beats the Klondike.
Mr. A. C. Thomas, of Marysville, Texas,
has found a more valuable discovery than
has yet been made in the Klondike. For years
he suffered untold agony from consumption,
accompanied by hemorrhages; and was ab-
solutely cured by Dr. King's New Discovery

declares that gold is of little value in com-
parison with this marvelous cure; would
have it, even if it cost a hundred dollars a
bottle. Asthma, Bronchitis and all throat and
lung affections are positively cured by Dr.
King's New Discovery for Consumption.

Boiler Exploded, Four Killed.
Cottrellville, Ky., April 2.—A boiler
exploded four miles north of town
killed four men outright and fatally
injured another. The dead are Thomas
Ratcliff, Doc Wright, Clarence Ratcliff
and Thomas Newsom. Elma
Ratcliff was scalded, and will die. The
boiler, engine and shingle mill were
demolished. Low water in the boiler
caused the accident.

FINANCE AND TRADE.

The War Cloud Has Had No Disas-
trous Effects as Yet.
New York, April 2.—R. G. Dun &
Co.'s weekly review of trade says: In
spite of foreign conditions since the
destruction of the Maine failures in
three months are smaller than in the
first quarter of any year since 1895; the
ratio of default liabilities to pay-
ments through clearing houses has
been the smallest for that quarter since
1886; the average of liabilities per firm
in business has been the smallest since
1880, and the average of liabilities per
failure has been lower than ever be-
fore in any quarter. It is especially
significant that the failures for less
than \$100,000, without material de-
crease in number, were 23 per cent
smaller than last year in manufac-
turing, and 24 per cent smaller in trad-
ing.

The war cloud, which many have in-
ferred must have greatly increased
commercial disasters, does not appear
to have any such effect as yet, and
while there is some decline in the new
orders for industries, nearly all live
works are covered so far ahead that
the difference is not felt. Rates for
money have advanced, and the ex-
change rate, which used to be the ruling rate
in active times, again prevails, which
compels many speculators to liquidate.
But the imports of gold go far to pre-
vent any real anxiety.

M. L. Yeom, Cameron, Pa., says "I was
a sufferer for ten years, trying most all kinds
of pills, but without success. Dr.
Witt's Witch Hazel Salve was recommended
by a friend, and I used it, and was cured
in ten days." As a permanent cure for
piles, Dr. Witt's Witch Hazel Salve has no
equal. C. H. Hagenbuch.

A TEXAS STREET DUEL.

The Principles Dying and Three Others
Wounded by Stray Bullets.
Waco, Tex., April 2.—W. C. Brann,
editor of the Ironmaster, and Captain
M. T. Davis met and fought a revolver
duel last evening. The men met on
South Fourth street in front of the
Cotton Belt ticket office, and after ex-
changing a few words began firing.
When the battle was over Brann was
found to be shot in the left lung and in
both feet. Davis was shot through the
right lung and the neck of his arm. The
surgeons say both men are likely to die.

Trouble has been existing between
the men for a year, and when they met
last evening they lost no time in get-
ting into their weapons. About ten
seconds were occupied in the shooting.
At the end of which Brann and Davis
bleeding and W. H. Ward, Brann's
business partner, was shot through the
right hand, the bones being shattered.
A wild bullet hit Motorman Kennedy
in the knee. Another wild bullet hit
Eugene Kepler in the foot. Kepler and
his partner, Prinos, are touring the
world on a wager and had just reached
Waco. Brann, who is too weak to talk,
is probably past surgery, although the
doctors say there is some slight chance
for him. Captain Davis was taken to
the Pacific hotel, and is regarded as
mortally wounded, his right lung being
badly lacerated. Both men are bleed-
ing internally and are faint.

WHAT IT INDICATES

Nothing so interferes with one's plans or
ambition like sickness or poor health. Have
you ever thought that your kidneys may be
the cause of your sickness? You can easily find
out by setting aside your urine for twenty-four
hours; a sediment or settling indicates an un-
healthy condition of the kidneys. When urine
stains linen it is evidence of kidney trouble.
Too frequent desire to urinate or pain in the
back, is also convincing proof that the kidneys
and bladder are out of order.

It is a source of comfort to know that Dr.
Kilmer's Swamp Root is the great remedy for
all kidney and bladder complaints. It relieves
pain, stich or dull aching in the back, difficult
or painful urination, frequent desire to urinate,
scalding or pain in passing it, and quickly
overcomes that unpleasant necessity of being
compelled to get up many times during the
night. The mild and extraordinary effect of
Swamp-Root is soon realized. Its action is
gentle, yet immediate, the relief speedy and
the cures permanent. At druggists fifty cents
and one dollar. You may have a sample bottle
and pamphlet, both sent free by mail upon
receipt of three two-cent stamps. Men-
tion HERALD and send your address to Dr.
Kilmer & Co., Binghamton, N. Y. The
proprietors of this paper guarantee the genuineness
of this offer.

DO IT YOURSELF.

You can tell just as well as a physician
whether your kidneys are diseased or healthy.
All it is to do is to take a little
tumbler and fill it with urine. If there is a
sediment—a powder-like substance—at the
bottom after standing a day and night, there
is something wrong with the kidneys. An-
other sure sign of disease is a desire to urinate
often, and still another sign is pain in the
back. If urine stains linen, there is no doubt
that the kidneys are diseased.

Any and all diseases of the kidneys, liver,
bladder and of the urinary passages and con-
stipation of the bowels are cured by Dr.
David Kennedy's Favorite Remedy. There is
no question about its being the best and
surest medicine in the world for such troubles.
It quickly relieves and cures inability to hold
urine, itching, peeing, young and old, who take it
are not compelled to get up a number of
times during the night. For putting an end
to that scalding pain experienced in passing
urine, nothing is so good as Dr. David Ken-
nedy's Favorite Remedy. It corrects the bad
effects of whiskey and beer; is pleasant to
the taste, and does not seem to be medicine
at all. Diseases of the kidneys and bladder
often require the use of instruments to push
back the sandy matter so the urine can be
voided. In such cases Favorite Remedy
should be taken, as it is the only remedy
disease may prove fatal. It is sold for one
dollar a bottle at all drug stores. It is well
worth many times its price.

Samples Free.

If you wish to test Dr. David Kennedy's
Favorite Remedy before buying it, send your
full post office address to the Dr. David Ken-
nedy's Favorite Remedy, 100 N. 7th,
and mention this paper. We will then mail you
a sample bottle free, as well as circulars giv-
ing full directions for its use. Every reader
of the HERALD can depend upon the genuine-
ness of our offer, as all sufferers
from kidney troubles should take advantage
of it at once.

Aid For Johns Hopkins University.
Annapolis, Md., April 2.—The house
of delegates last night passed by a
vote of 56 to 22, the bill appropriating
\$50,000 per annum for the relief of
Johns Hopkins university. The bill has
already passed the senate, and only
needs the governor's signature to be-
come a law. The house a few days
ago rejected a bill to grant the presi-
dent \$100,000 per annum, and the pres-
ent bill was the next day introduced
in the senate and passed.

Sympathetic Husbands.

The sympathetic tenderness of a loving
husband is everything to an expectant
mother, especially during her first
ordal. George Layton, Esq., a promi-
nent druggist of Dayton, O., gives the
following case:

A customer of mine, whose wife has used
four bottles of "Mother's Friend" before com-
mencing, says, after seeing the effects of the
remedy, that if she had to go through the ordeal
again, and there were but four bottles on the
market, and the cost was \$100 per bottle, she
would have them.

"Mother's Friend" is a scientifically
compounded liniment which affords cer-
tain relief in the various ailments pre-
ceding childbirth, and assures proper
elasticity to the cords and muscles in-
volved in the final ordeal.

"Mother's Friend" is sold by drug-
gists, or expressed on receipt of one
dollar.

Madrid, April 2.—Both United States
Minister Woodford and the Spanish
ministers show pointed reserve con-
cerning the contents of the Spanish
memorandum, but it is said to be a re-
markably strong reiteration of the
Spanish case on all the points raised by
the United States, and especially in
regard to the pacification of Cuba and
the settlement of the Cuban question
from the Spanish point of view.

In political and diplomatic circles the
situation is deemed critical, because it
is difficult for either side to make con-
cessions likely to be acceptable to the
other, judging by the attitudes they
have maintained in the recent negotia-
tions. The impartial says the govern-
ment has received excellent impres-
sions on the favorable attitude of
European continental powers whose
friendly dispositions toward Spain
have been strengthened by the fact
that the United States and England
have lately been drawn closer by
