The Critical Hour.

The time has come when the Spanish-American question must finally be considered and with the utmost calm ness, sincerity and wisdom. Peace may be continued; or it may be war. terrible, devastating and long-continued.

Let no mistake be made, through any foolish under-rating of the perils of the hour, or the strength and skill of the enemy. Let us not act on the supposition that the Spaniards are cowards. On the contrary they are hat-blooded, belligerent, reckless with an abnormal fondness for scenes upon which the people of other civilized. nations look with horror, and never stop to count the cost. They faced Perkins took substantially the sam the conquering legions of the first ground and his viscorous treatment of Napoleon with wonderful courage, the Maire disaster around the crowd nev stood before the iron-hearted 1 attalions of Wellington.

But while this country and Spain anva endeavored to come to an anni had now arrived, and that action man cable agreement, without resorting to bloody warfare, what of Cuba, which has a more direct interest in this momentous question and its citimate against Spain was already made up and that with congress rested the resettlement, than either ? In deciding the question of war, however, let us do so with a full appreciation of its horrors, of its cost in blood and treasure. War will be no holiday mi'air, even without any meddling on the part of any other European nation.

Peace must be preserved, unless there is with honor no other alternative. The world has never seen such a war as will take place on the high seas, and on the American coast, within the next ninety days, if passed, hostilities are once commenced.

SPANISH TREACHERY.

Senator Perkins Makes Serious Charges

Against Spanish Officials,

It was traffly and openly charged

in the senate yesterday by Mc. Perkins, of California, in a lost speech, that Spain was responsible for the Maine-disaster, as it had been brought about

by Spanish machinations and Spanish

treachery. The speech of Mr. Perkins

was only one of four prepared ad-dresses upon the Culom question de-

livered in the senate yesterday, Mr. Chry, of Georgia, while hoping for a

peaceful settlement of the problem, the country is now facing, declared strong-

ly in favor of independence of the Cu-

consideration for a resolution regarding the Cuban situation in the house

the crowded galleries was so manifest that Speaker Reed threatened to clear

them if it was repeated. The out-break occurred over a bill to authorize

fications in case of emergency upon

land, when the written consent of the owners was obtained, without await-

ing the long process of legal condem-nation. This led to a demand by Mr. Balley, the Democratic leader, for in-formation as to the facts which war-

ranted all those war measures. The particular statement which aroused

the galleries was to the effect that
