**THE SCHOOL BOARD.**  
Interesting Meeting Held by the Members Last Night.

A regular monthly meeting of the School Board was held last evening and considerable business of importance was considered. The Directors in attendance at the meeting were Messrs. Devitt, Hanna, Congbill, Baugh, Keiper, Edwards, Devoe, McNeill, Bell, Higgins, Jirard, Britt and James. Solicitor M. M. Burke, Trust Officer James Smith and Superintendent J. W. Cooper were also in attendance.

The latter placed in the hands of the secretary a lengthy communication in answer to a letter presented at the last meeting of the Board, requesting an appointment of corps of night school teachers. The superintendent stated that the office considered it unwise and unjust to re-open the examination after all teachers had been elected, unless it be done upon the express desire of the Board and the invited request of the committee on teachers and salaries.

He also stated that the committee on the subject had already contained the names of 25 teachers who are normal school graduates and the list is too large now to encourage the substitutes to keep themselves well qualified for the work. To establish such a precedent, he continued, would embarrass the Board, and it is to petition for examination when any of the teachers having relatives capable of qualifying and who desired a leave of absence. The superintendent said he might also be laid open to the charge of seeking favors by examining and appointing substitutes not elected by the voting and closing the communication with the statement that should if be the desire of the Board, or the united request of the committee on teachers and salaries, that the office should examine the applicant, the Board should insert in the town papers a notice for the examination of the applicant in reading and other subjects.

The report was accepted and approved. An application of Mrs. John M. Reeves, of South Jordan street, for exemption from 1897 taxes was referred to the exonerated committee, after Solicitor Burke, in response to Mr. Devitt's legal opinion on the exemption, stated that the Board was to exercise its best judgment within the conditions imposed by the law so far as real estate exonerations are concerned.

An application of Miss Hattie Jones for a recommendation for a normal school diploma was granted.

Superintendent Cooper made his monthly report on the schools, stating that the attendance during the first part of the month was fair, but not so regular as the two previous months on account of sickness prevailing among the pupils.

He reported 275 boys and 377 girls, a total of 2,895. The daily attendance was 1,233 boys and 1,293 girls, average of 2,525; boys' percentage, 92; girls, 99; a total of 91 and 800 pupils were not absent during the month. The schools had 126 visits from patrons and 39 by Directors.

**MAHANAOY CITY.**  
Reports Concerning the Work of Lehigh Valley Inspectors.

Mahanoy City, April 7.—Messrs. Higgins and Carter, general inspectors of the Lehigh Valley railroad system, who go from one end to the other of the system to discover defects and suggest remedies, are visiting Delano today. The merchants at Hazelton are making large efforts to have the shops at that place enlarged, which would practically mean the abandonment of the Delano shops and removal of the workmen to that place. They urge in behalf of the change that Hazelton is a very important point on the Lehigh Valley system and the business done there is very large. On the other hand, it is said that all the land available for the purpose at Hazelton is undermanned, even that on which the shops now stand. It is also said that the Delano shops are in first class shape and very valuable property to the company, and that any advantage that might be gained by going to Hazelton would be counter-balanced by the loss to the company in the surrender of this property. It is said, in connection with this investigation, that the business of the Ashland and Shenandoah stations is less than the business here, but notwithstanding this the agents at the two first named places receive higher salaries than Mr. A. Palmer, the agent here receives.
