Poles, Hungarians and Lithuanians Leave in Large Numbers.

Mahanoy City, April 26.—Ever since the coming of this district here, working but two three-quarter days a week, a large number of Poles, Hungarians and Lithuanians have been leaving the town daily. The majority of them go to the soft coal region of Illinois, and many to their native lands. The railway officials here state that forty left this week for the West. The Lithuanians and other foreigners have been kept busy trying to hold their own.

Virginia Price, 16, feels all right of the boys who returned from this place on Thursday, was found in Pottsville yesterday morning and brought here last night. Not only the other boys who returned, but the crowd congregated at the billiard parlor and were entertained by a song and a bit of the boys. They started at 10:30 o'clock that night on a train and reached at Gordon. From there they went to Schuylkill Haven and back to Pottsville. After traveling in the railway night with nothing to eat the company situated at Pottsville and most of them had a hearty retreat towards home. Price was one of the few that remained in Pottsville.

The excited condition of the public mind by reason of impending war was fairly illustrated last night. It is the regular custom of the bugler of the E. O. O. 62d Camp, Sons of Veterans, to summon the members to their meetings by sounding the bugle call. When the bugle was sounded last evening, it caused a great many people to believe that it was a call for the National Guard to assemble, and the rumor spread that they had received orders to go forth. A proposition to produce a standing pipe instead of the automatic valve was rejected.

The Pennsylvania Congressman, at least those representing anthracite districts, called on Secretary Long and strongly advised the use of anthracite coal in the vessels of the Navy. There are no definite results as the outcome of the visit, but the matter will be pushed in the interest of hard coal. One of the war vessels now being built will likely be constructed of anthracite, in order to give the coal a fair trial.

The two legislators met in the club room, and the Journal, and exchanged a few brief words.

Three from two you can't. Right! Three from two you can't, either in dollars or dividends or satisfaction. It takes the best sarsaparilla root to make the best sarsaparilla extract. The best sarsaparilla comes from Honduras, C. A., and the Dr. Ayer Co., practically controls the entire product. Yet others claim to be making "best" sarsaparilla. They must be making it out of the remainder left after subtracting these from two. But, "three from two you can't." You can't make the best sarsaparilla without best root. You only get the best when you

It is a shuffleboard and has been placed in the parlor on the second floor. Since its introduction, it has been very popular and is attracting much of the business which is usually done at the billiard table.

A meeting of the water committee of the Borough Council was held last night and it was decided to adopt the plan suggested by a motion to lay out a direct connection between the steel pipe line which carries the water over Lehigh mountain, from Brownsville and the pipes that supply this town. An automatic valve will be placed north of the Power's Run reservoir, which is now fed by the steel pipe line. A proposition to produce a standing pipe instead of the automatic valve was rejected.

Antitrusts for the Navy. The Pennsylvania Congressman, at least those representing anthracite districts, called on Secretary Long and strongly advised the use of anthracite coal in the vessels of the Navy. There are no definite results as the outcome of the visit, but the matter will be pushed in the interest of hard coal. One of the war vessels now being built will likely be constructed of anthracite, in order to give the coal a fair trial.

### MOSTW INSANE.

Taken Into Custody While Ringing a School Bell. When mostw, well known about town and formerly janitor of the old White street school building, was taken into custody this morning and committed as insane, he was arrested by Trust Officer James Smith while ringing the bell in the building in which he had worked as janitor. Mostw's mind has been failing for some time and it is believed he is now approaching a dangerous stage. At times he imagines himself a famous physician with constant calls upon him from patients in Philadelphia, but without means to reach the city. On other occasions he suffers from the hallucination that he is in the service of Capt. Linden, of Philadelphia, and has about \$5,000 in salary due him. Today he complained that he had been beaten in a saloon and demanded fifty million dollars in damages. He also begged a revolver to shoot his imaginary assailant. The unfortunate man was taken to Pottsville this afternoon and will be sent to asylum some time next week.

### DO IT YOURSELF.

You can tell just as well as a physician whether your kidneys are diseased or healthy. The way to do it is to take a bottle of Dr. Davis' Favorite Remedy, and fill it with urine. If there is a bottom—a powder-like substance—at the bottom after standing a day and night, there is something wrong with the kidneys. Another sure sign of disease is a desire to urinate often, and still another sign is pain in the back. If urine stays limen, there is no doubt that the kidneys are affected.

### THE WEATHER.

The forecast for Sunday: Fair to clear and warmer weather, with light northwest city wind and a decided warm wave, followed probably by a cold rain.

### MOVING THE MILITARY.

Thirty-three Regiments Ordered to Concentrate at Southern Points. Washington, April 16.—Decidedly the most warlike step taken by the war department in preparation for the possibility of an encounter with Spain was inaugurated yesterday, when orders were issued for the concentration at four points in the south of six regiments of cavalry, 22 regiments of infantry and the light batteries of five regiments of artillery. At Chickasaw, there will be six regiments of cavalry and the light batteries of five regiments of artillery; at New Orleans, eight regiments of infantry; at Tampa, seven regiments of infantry, and at Mobile seven regiments of infantry. Since the civil war no such proportion of the army has been mobilized, and the movement itself is the best evidence of the gravity of the situation as looked upon by the president and his advisers.

The determination to renege on the troops in the south, where they can be recalled there to the conditions of a more tropical climate, has been under consideration by the president and his cabinet for some time. It was not until yesterday, however, that the president, in view of the enormous expense which will be entailed, felt justified in taking this step.

The heavy batteries of artillery in each of the five military regions ordered south will remain at their present posts. The two new regiments of artillery recently authorized by congress have not been recruited to their full strength and in addition are not well equipped with horses and other necessary requisites for service, and therefore are not included in yesterday's orders. The department has so distributed the 22 regiments of infantry in convenient places on the gulf that they will be accessible for transportation to Cuba. Instructions to the commanding officers of the regiments ordered to move were sent out by General Miles last yesterday, with directions that they be put into effect as soon as possible. As a result a number of the regiments are now en route.

### PROPERTIES INSPECTED.

A valuation report has been made by a Pottsville official.

Walter S. Shaeffer, one of the executors of the Shaeffer Estate, was a visitor to town yesterday, and viewed several of the properties belonging to the estate. He also inspected the workings of the Robinson colliery, and a gentleman who seems to be well informed says that the visit and a subsequent conversation had bearing on the proposed consolidation of the Robinson, West Shenandoah and Newby collieries, and the creation of a joint breaker.

Last evening at the Calvary Baptist church a very large audience was present in spite of the rain. Miss Morgan's farewell address was both impressive and instructive and was listened to by all with great delight. Rev. D. I. Evans and the pastor also addressed the audience. During the evening W. Waters sang two beautiful solos in a very feeling manner. Miss Morgan's final appeal to the unconverted and to persons giving themselves to the Lord, this morning, total of forty-seven, the result of three weeks' services. We'll bless our God for this great blessing to the church. Tomorrow the pastor will preach morning and evening. At the evening service, the ordinance of Believers' Baptism will be administered.

## MAYOR OF LOWELL.

Family of Wm. F. Courtney Has Reason to Believe in Paine's Celery Compound.

Mayor Courtney, in employing Paine's celery compound in his family, had the example and assurance of many persons who occupy high responsible positions in other cities. Mayor Ramsell of Lynn, a personal friend of Mayor Courtney, recently gave his opinion of this great remedy as follows: "A previous experience with Paine's celery compound as a restorer of exhausted energy induced me recently to take it again. The many duties of the mayor's office having taxed my slight physical resources, I found I made no mistake. In one week I found my appetite improved, the feeling of weariness disappearing and my nerves becoming steeper. Paine's celery compound has thus been a friend in time of need and I like to say a word for a friend." His unhesitating recommendation had much to do with its use by Mayor Courtney. Mayor Miles B. Preston of Hartford, Ct., said within a day or two, speaking of the same remedy: "The modern man of business, he ever so sturdy, finds often that the continued pressure of affairs has caused the nerves to become strung and fall in tone. At such a time Paine's celery compound becomes of value. Having experienced its benefits I gladly commend it." Among other statements as to the value of Paine's celery compound, Mayor Bennett of St. Charles, Ill., adds: "I believe that Paine's celery compound has enabled me to escape my periodical attacks of rheumatism this winter. I very cheerfully recommend it to any one in similar need, in the full belief that it will be helpful in every case."

WILLIAM F. COURTNEY.  
"There is absolute relief from nervous prostration, sleeplessness, poor appetite, growing thinness and loss of vigor and strength in Paine's celery compound. It is a fact verified by the practice of the best physicians and by thousands of personal testimonials that Paine's celery compound invigorates, builds up, the nervous system, and cures disease when all other remedies have failed. It is the greatest spring remedy in the world."
