Washington, April 22.-There were two further important steps in Washington yeserday toward hostilities, not to men tion the overt act involved in the seizure of the Spanish vessel Buena Ven-tura off Key West. The first was the issue by the president of his proclama tion announcing to the world a block ade of a number of Cuban ports, and the second was the signing by him of the bill providing for the utilization of the volunteer forces in war. Then, in addition, there was a notable retirement from the navy department in the case of Captain Royal B. Bradford chief of the equipment division, Although he has not held his present of-fice long, and by custom is entitled to nearly three years of further service, he has become so impatient to join in active service that he addressed the following letter to the president:

"I respectfully tender my resignation as chief of the bureau of equipment of the navy department. It has been a great pleasure to serve during your ad-ministration in my pending capacity. and I beg to express my thanks for th honor conferred upon me by your appointment to such a responsible office. This resignation is tendered only that I may ask for active service affont." Captain Bradford addressed a similar

letter to Secretary Long, with the ad-dition of a request to have a command of an active warship. The resignation will be accepted, and by virtue of his etta, which left Valparaise on Monday will be accepted, and by virtue of his last for Montevideo. The exports of corn during the same three weeks have also largely increased.

Bradstreet's review says: General trade and speculation this week have exhibited most of the characteristics which have become popularly assoc ated with the near approach of hostilther quieting of distributive trade in some times at the east and south, traceable almost directly to anticipated warlike conditions, there is a lack of regularity even in the reports from thos centers, which serve to show that, now that the uncertainty so long prevailing has been dispelled, trade conditions are being shaped to the new order of things. There is consequently greatly increased activity in many special lines, accompanied by excited markets and heavy price advances.
