Get More and You Get Less

Why is it every sarsaparilla which tries to sell itself, ranges itself against Ayer's as the standard? Why is it that all have to offer extra inducements—bigger bottles, fancy wrappers, cheaper price—anything, everything, but the one inducement of quality?

Ayer's Sarsaparilla

has never been equaled by any cheap imitation of it, and quality tells, just as blood tells.

It is the Standard.

"I have sold Ayer's Sarsaparilla for more than twenty-five years, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. A preparation must possess great merit to maintain such a reputation. I believe your sarsaparilla to be the best blood purifier that has ever been introduced to the general public. I often hear other manufacturers say that this is 'as good as Ayer's,' but no one ever yet heard it said that Ayer's was 'as good as any other kind. They always say Ayer's is as the standard of excellence.'"—S. F. Boyer, Duluth, Minn.

BEST SPRING REMEDY FOR THE CHILDREN.

The Perfect Health of a Large Family is Due to the Use of

Paine's Celery Compound

Worcester, Mass., March 5, 1898. Wells, Richardson & Co.—Gentlemen: Myself and family form a first-class example of the health-giving qualities of Paine's celery compound. Every spring we use this valuable remedy, and it has kept my children well and strong. I believe that it is better to take steps to keep well rather than to wait till one is sick. The good health of my family and freedom from doctor's bills shows the wisdom of taking Paine's celery compound.

Every time I have a chance I speak in praise of Paine's celery compound, knowing it to be superior to sarsaparilla or any ordinary spring medicine. Yours very truly, HARRY PRENDIVILLE. Publisher of the American Bondman. Here's a whole family. Husband, wife and children made well and kept well by Paine's celery compound. The pre-eminence of Paine's celery com-

ound over all other remedies, especially as a spring invigorator and blood purifier for every member of the family, from the youngest to the oldest, could not be better illustrated than in the case of the Prendiville family of Worcester, Mass. It is to be remembered that not one-tenth of all the magnificent cures fairly due to Paine's celery compound ever get beyond the knowledge of the immediate family; that, in fact, few people have any appreciation of the number of families throughout the United States where Paine's celery compound is kept constantly on hand, and is being taken, or has been taken, by some of its members. Paine's celery compound has already done an enormous work. It has saved lives. It has saved health. It has saved homes. It is not beyond the reach of the most modest household, while a much greater expenditure will procure nothing else so effective. Paine's celery compound, the remedy that makes people well, is within the reach of all. As frequently happens in the spring, the entire family begins to feel "run down," and to diagnose—the trouble they have when they say, "Doctor, I don't feel well." The advice of hosts of competent physicians is to use Paine's celery compound, the one known spring remedy that restores lost nervous energy, creates an appetite, purifies the blood, and builds up the strength of the entire system. Nervousness, headaches, thinness, pale faces and poor appetites among children come from the same causes that produce rheumatism, neuralgia and debility in older persons—from poor blood and insufficiently nourished nerves. Paine's celery compound is the first, last and only remedy used in intelligent, prudent homes, where pains are taken to get only the best in so vital a matter.
