**Prevent Pneumonia**

Prevention is always better than cure, even when cure is possible. But so many times pneumonia is not cured that prevention becomes the natural act of that instinct of self-protection which is "the first law of nature." Pneumonia can be prevented and is often cured by the use of Ayer's Cherry Pectoral.

"Some years ago I had a severe cold and was threatened with pneumonia. I could neither rest nor sleep, and was in a wretched condition. I procured a bottle of Ayer's Cherry Pectoral and took it according to the directions, and at the end of fifteen days was as well and sound as before the attack. I have recommended it in many cases of pneumonia since, and have never known it to fail in effecting a cure."  
JOHN HENRY, St. Joseph, La.

"I was attacked with a cold that settled on my lungs, and defied the skill of my physicians so that they considered me incurable. At last I began to use Ayer's Cherry Pectoral and I was entirely cured after having taken two bottles."  
FRANCISCO A. SEVERIANO, Taunton, Mass.

**Ayer's Cherry Pectoral**  
is put up in half-size bottles at half price—50 cents.

**Spanish Fleet Must Leave St. Vincent**  
Washington, April 26.—A notice was sent to the Portuguese government on Sunday declaring that if that government continued to allow the Spanish fleet to remain at Cape de Verde islands it would have to take its position as an ally of Spain and an enemy of the United States. The notice was sent to Portugal that it must compel the Spanish fleet to leave Cape Verde or else acknowledge its friendship to Spain was in the nature of an ultimatum. As a result the Spanish fleet was yesterday notified to leave St. Vincent at once.

**A Courteous Apology to France.**  
Washington, April 26.—The French ambassador, M. Cambon, has filed memoranda with the state department against the detention at Philadelphia of the Swedish merchant ship St. Andrew, laden with 2,300 tons of coal for use by the French Mail Steamship line, running between Saint Nazaire, France, and Vera Cruz, Mexico. As a result the state department has written a courteous letter to the French authorities, stating that the detention of the St. Andrew was due to a misunderstanding, and that the collector of customs at Philadelphia had been ordered to release the ship. The authorities at Philadelphia apparently regarded the coal as destined for Spanish use.
