So far, it has proceeded with all possible rapidity. The blockading squadron moved at once to Cuba. It is true that Admiral Sampson has not vet "opened on Morro Castle and runup the Stars and Stripes," for he does not mean to waste powder. Instead of accepting the wild theory that "every day's delay in opening fire is a day gained for Spain," the government is acting on a full understanding of the fact that every day's delay necessary for preparation is a gainfor our campaign and a manifest loss to Spain. We can well afford to wait until the time for attack is ripe. and impoverished Spain is weakened correspondingly. Morro Castle will be of no use to us until we have at hand the force to occupy Havana. Merely shutting off supplies from the Spanish army by the Caban blockade serves our purpose sufficiently while we wait; and meanwhile arms and ammunition and other supplies can be landed at some other port for the pavy yard and will be fitted up as Cuban army, better fitted to conduct suxulary cruisers. military operations there than any we could send, even if we had as adequate force available. Everything is moving auspiciously for the American arms, and the end seems nearer than we could have dared to hope before the conflict began. N. Y. Sun.

Phat In addressing Mrs. Pinkham you are confiding your private ills to a woman -a woman whose experience in treating woman's diseases is greater than that of any living phyician-male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man besides, man does not understand-simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knows ing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price

you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The folwing invitation is freely offered;

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a Soman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance. Lydia E. Pinkham Medicine Co., Lynn, Mass.

"The present Mrs. Pinkham's experience in treating female ills is unparalleled, not allowed to blow their whisties for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime within the city limits. There is not past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year."
