THAT SPANISH FLEET. Only the Minister of Marine Knows In What Direction It Is Bound

Madrid, April 28.-It is reported here from Madrid that the destination of the Spanish fleet, which is said to have been at sea for some days, is unknown to anyone but the minister of marine, Admiral Bermejo. But, it is added, news is expected before long at the Spanish capital of the bombardment of American caset towns. It is about of American coast towns. It is also said that the Spanish naval authorities are satisfied that Spain can easily force the blockade of Cuba when she desires to do so.

It is thought possible in some quarters that Admiral Montijo (commander of the Spanish squadron at the Philippines), who has a reputation for reckbravery and determination, but does not shine as a tactician, may put to sea and take the offensive. The public is cluiped by the Monterrat's success, which is regarded as furnish-ing proof of the ineffectiveness of the blockade of Cuba. Senor Romero Robledo declared in

the cortes yesterday that Spain ought to make up her mind to struggle along. since no one would support her.
