W. J. BRYAN, the Popoeratic candidate for the Presidency, has written a friend for advice about enlisting as a private in the army. Although the friend advised him several days ago to enlist, the defeated candidate does not care to give up a good thing for an uncertainty. The pay of a private is \$13 per month, and Mr. Bryan is now drawing on an average \$500 a night on his "lecturing" tour.

It is said that the organization known as the National Volunteer Reserves, a movement in which our people are interested, has already secured over 200,000 men and expects soon to be 300,000 strong. With the regular army brought up to its full secured over 200,000 men and expects quota of 61,000 and the men under Gen. Gomez, there is not much likelihood of a call for volunteers outside of the 125,000 just recently enlisted. Nevertheless, the 300,000 volunteers of this association will make an excellent reserve army.
