> WITH THE FLYING SQUADRON. Vessels of the Fleet Ready to Move at an Hour's Notice.

Old Point Comfort, Va., May 2.-May day on the warships of the flying squadron found beautiful weather and peaceful conditions at Old Point Comalthough all about Hampton Roads evidences were seen of warlike preparations. The work of laying mines and torpedoes in the harbor continued all day, in charge of the army engineer corps, acting under Colonel Frank. Stories to the effect that Commodore Schley already has his orders to move are absolutely without foundation. Communication between Commodore Schley and the navy department is constant, and it is certain that plans have been made and laid for squadron's work, but no specific orders

The squadron is in perfect and very formidable readiness for sea, and can leave at an hour's notice. The story that the Ram Katabdin is attached to the squadron is untrue. The converted yacht now known as the Scor-pion, and which is in command of Lieutenant Commander Marix, arrived last evening and anchored with the fleet off Old Point. It is understood that the Scorpion is to be the disputch bont of the squadron, but she is also equipped for fighting, and is very fast.
