JUR. COUNTRY: First, Last and Forever

THE HERALD not only furnished its readers with the latest authentic news from the Philippines, but covered the local field thoroughly, and chronicled the court proceedings. There is nothing too good for HERALD readers these days.

THE short engagement between three of Admiral Sampson's ships and the fortifications near Matanzas settled one thing besides the Spanish forts. The guns aboard our men-of-war will do the work they are intended to do. Commodore Dewey has simply emphasized this statement.

It will come with a great surprise that Wm. L. Singery's debts reach the appalling figure of \$5,000,000. It is not believed that Mr. Singery himself realized how hopelessly in debt he was involved and the statement of the receiver makes it doubtful whether the estate will realize 50 per cent to the creditors.

THIS war is going to cost a pile of money, but there is some consolation in the thought that Spain will ultimately have to foot the bill. War industries in these times usually mount up pretty high. Uncle Sam will keep a careful account of all items of expense. Spain has some little real estate lying around that may serve as security.

THE attitude of the French press toward the war is revealed in a highly interesting review transmitted by special cable from Paris to the New York Herald. All the radical and advanced journals, including those which defended M. Zola, see in the action of the United States only the help given to the oppressed against the oppressor, but the more conservative republican journals clearly sympathize with Spain. "It seems that Spain, in the exercise of rights that are clearly hers beyond question, will preserve the sympathies of Europe," says the most authoritative government organ, the Temps. "In the action of the United States there is no justification in precedents of the rights of nations," says the Debats; while a popular journal declares that it is the right of Europe to hold territory in America that is called in question.

IT is the desire of the Navy department to suppress the publication of the movements of our ships. Such publication is merely giving notice to the enemy of our intended movements, and prevents any surprise, if such is contemplated. At Key West a censorship has been established, and rules have been adopted for the guidance of correspondents there. It would be a good thing for the department if some of the unreliable correspondents could be totally removed from that point. The rules are as follows: "It is prohibited to forecast the movements of the fleet and army; theories are forbidden; improper criticism of officers are forbidden; advice of engagements between opposing fleets must go first to the Department in Washington; press matter may follow; no code or cipher messages are permitted."

SPAIN may appeal to its "glorious history" for inspiration in this struggle, but this will not put off for a single hour the date of its overthrow. Spain may ery out in piping falsetto that its "honor" will not allow it to give up Cuba, but the days of Spain's misgovernment in Cuba are near their end. It is said that Spain's army in Cuba numbers, counting those in the hospitals, 120,000 or 130,000 men. Not a soldier of this force will ever see Spain until he goes out disgraced and discomfited as an American prisoner of war. Dark threats emanate from the Madrid press that Weyer is to be sent to Cuba to supersede Blanco, but although the United States, for purely selfish reasons, would like to see the portraiture and blunderer Weyer back in command in Cuba, it knows, and Weyer knows, that the Spanish flag will have been torn down and cast out of Cuba before he gets a chance to see the island again.

DEWEY'S NEXT MOVE.

May Combine With the Philippine Insurgents to Have the Latter Garrison the Island.

Washington, May 2.—It is a curious fact that the nation most directly interested of all the great powers in the conflict that took place at Manila Sunday should be among the last officially to know of the result. Up to the close of the hour yesterday absolutely the only information that our government had received of the brilliant victory of Commodore Dewey and the winning of the battle came to the government through the medium of the press dispatches. If the report is true that Commodore Dewey has captured the bombardment and blockade of Manila, it is unlikely that he can spare a vessel from his fleet to carry the news to Hong Kong, the nearest cable station, so it is not known when official advices will come.

There was some expectation that through the surrender of the city the commodore might acquire control of the entire bay, but even then there might be practical difficulties in communicating through it. A fear is entertained that before getting from this city the Spanish troops might be able to sabotage or communicate with the insurgent forces, and it is very uncertain whether there is enough technical skill in the American fleet to repair such damage.

The greatest anxiety is felt as to the casualties sustained by the American fleet. From the small number of vessels by the Spanish fleet it is feared that before they burnt, blew up or sunk their ships they managed to inflict severe damage upon Commodore Dewey's squadron. All of the ships engaged were vulnerable in one respect, namely, in their lack of protection in life. There were no armor plating in the gun turrets, and Dewey's fleet, the nearest approach being the flagship Olympia. If Commodore Dewey has lost a considerable portion of his men it is feared he will be much embarrassed in the work of maintaining possession of Manila for lack of sufficient forces. It will not be possible, having regard to the safety of the ships, to spare any considerable number of men to keep the city, especially if the engagement has disabled many of them. There was some talk yesterday of sending troops out from Manila to take up the work, but this has not yet taken shape as far as can be learned, and it is likely that the department will wait to hear from Commodore Dewey himself before taking any action. It may be, and in fact has been, expected, that by sending word of the victory to the United States, success in having his men relieved of the task of garrisoning the island.

As to the future of the island, it is likely that the government will retain possession of at least one good port, such as Manila, for a coaling station and base of supplies during the remainder of the war. It is believed the officials have not decided what to do with the islands at the end of the war, but in their possession the United States will enjoy a powerful weapon in enforcing its claims of peace with Spain. Supporting Porto Rico shall not be seized, it would seem that Spain will have little to encourage her in further resistance.

BRITISH SYMPATHY.

A Large Majority of the People Favor the United States.

London, May 3.—The question as to whether British sympathy is really with America is still haunting those who are chiefly interested in establishing a good understanding between the two nations. Mr. Alfred Harmsworth, who personally and through his papers has been doing the most efficient work in this direction, is convinced that a large majority of the people of the United Kingdom are unreservedly in sympathy with the United States. He bases his conviction on a careful canvass of the country, which he has just had completed. It shows that Scotland is particularly solid for America, and that the English are in the main hostile to America. Of the merchants, shippers and business men generally, 30 per cent are openly American, 35 per cent are neutral and 35 per cent are against war anywhere.

The Non-Confomulars are solidly pro-American, and the majority of the Roman Catholics are pro-Spanish. In all cases, according to the statistics collected.

The British aristocracy, aside from the Catholics, is evenly divided, while the Jews are opposed to America.

Rights of Americans in Hayti.

Port au Prince, Hayti, May 3.—The efforts which have been making for 29 years past to induce the Haytian government to accord the same trade and labor rights to Americans as to the natives, have at last proved successful. At present the Haytian constitution there shall be no difference in the treatment. Americans are also admitted to the retailing privilege, heretofore restricted to Haytians.

Italian Bread Riots Continue.

Rome, May 3.—A riotous outbreak in Ravenna, capital of the province of that name in central Italy, says a brand riot has occurred at the village of Boglietta Cavallia. The troops fired on the rioters and three rioters were killed and three soldiers wounded.

Probably to Carry Troops to Cuba.

Mobile, Ala., May 3.—A call for transports has been received here. The war department has wired Major Pond to secure at once, if possible, two lighters and one bulk carrier of carrying 500 tons with barges. It is believed that the intention is to make a landing somewhere along the Cuban coast.

Favorite Remedy Cures When All Other Medicines Fail.

People who suffer from Gravel, Bright's Disease, Kidney, Liver or Urinary Troubles, Pain in the Small of the Back, Frequent Desire to Urinate, especially at night, who feel a Scalding Pain in Passing Water, and whose urine is cloudy and contains sediment after standing a short time, ought to know that there is a medicine which will cure those ailments. It is Dr. David Kennedy's Favorite Remedy.

It has cured when all other remedies have failed. It can be obtained at drug-stores for \$1 a bottle. It is needed by the army of traveling salesmen, by thousands of railroad men, by those who are kept in offices breathing foul air and sitting or standing all day long, as all of these employments breed kidney and bladder trouble.

SAMPLE BOTTLE FREE.—If you are a sufferer, or if you have a suffering friend, send your name and address to Dr. David Kennedy Corporation, Rondout, N. Y., when a sample bottle of Favorite Remedy and pamphlet containing valuable information will be mailed free to you. Be sure to mention the name of this paper when you write.

The Cost of War.

Washington, May 3.—The comparative statement of the government receipts and expenditures issued yesterday shows that during April the receipts from all sources aggregated \$32,322,943 and the expenditures \$44,314,062. This deficit of over \$11,000,000 was caused by increased expenditures on account of war preparations.

Cable Communication Interrupted.

New York, May 3.—The central cable office of the Western Union Telegraph company issues the following notice: "We are officially advised that the cable between Hong Kong and Manila is interrupted."

The Pope Prostrated.

Rome, May 3.—His holiness is quite prostrated by the news from Manila. He has expressed his horror at the terrible loss of life, and repeatedly said that he could wish to have died before seeing such a war. Both the pope and Cardinal Rampolla, papal secretary of state, have refused to consider any interference, declaring that the attitude of the Vatican is one of strict neutrality.

Powers Will Not Intervene.

Vienna, May 3.—In well informed circles it is positively denied that the powers will intervene at the present juncture, nor has any agreement been arrived at for mediation at any future time. The disparity of views is considerable enough to render highly improbable the co-operation of all six powers in any diplomatic step, either at Madrid or Washington.

A CHANCE FOR CUBANS.

A Bill to Enlist Them in Our Army Under Restrictions.

Washington, May 3.—Several war measures were passed by the senate yesterday, and, notwithstanding their importance, not one of them elicited the slightest debate. Probably the most important measure passed by the senate was the emergency war deficiency bill, carrying \$25,720,945. Mr. Hawley, chairman of the military affairs committee, secured the passage of a bill providing for the enlistment of a volunteer brigade of engineers, and of 10,000 men in the south who are immune to yellow fever, these enlistments to be in addition to those provided for in the president's call for 25,000 volunteers. The men will enlist for the war. The war revenue measure, passed by the house of representatives last Friday, was received by the senate and referred to finance committee for consideration.

Senator Proctor introduced a bill permitting Cubans to enlist in the Army and Navy during the Spanish war. Such volunteers are to receive no compensation or allowances, but are to be furnished with such supplies, arms, ammunition and other military aid as the officer of the United States commanding them may deem absolutely necessary to enable them to perform effective military services. There is also a provision depriving those serving under this law from the benefit of the pension laws of the United States.

"Not Victory, But Annihilation."

London, May 3.—The Daily Mail in an editorial this morning on the engagement at Manila, says: "It was, in Nelson's words, 'not victory, but annihilation,' and it proved Commodore Dewey a worthy disciple of the heroic Frenchman. It is characteristic of the American race to be generous to the weak, and as the president is averse to needless bloodshed he will doubtless send Spain, whose honor is now saved, in a generous spirit."

Decorations Day at Gettysburg.

Memorial Day, May 30, will be a great day at Gettysburg. Impending ceremonies will be performed on this historic spot in which President McKinley and his Cabinet are expected to take part.

The personally-conducted tour of the Pennsylvania Railroad to Gettysburg, Luray, and Washington, which leaves New York and Philadelphia May 28, will afford an excellent opportunity to visit the famous battlefield on this occasion. Two days will be spent at Gettysburg, one at Luray, and two at Washington.

The party will be under the guidance of one of the company's experienced tourist agents. A chaperon, whose special charge will be insuring luggage, will accompany the trip throughout. Round-trip tickets, covering all necessary expenses during the entire time absent, will be sold at the extremely low rate of \$27 from New York, \$24 from Trenton, \$24 from Philadelphia, and proportionate rates from other points.

For itineraries and full information, apply to ticket agents; Tourist Agent, 1196 Broadway, New York; 789 Broad Street, Newark, N. J.; or Geo. W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia.

The Yale Off Day War Duty.

New York, May 2.—The steamship Yale, formerly the American liner Paris, left her dock last night under sealed orders. When the vessel swung out from her pier, hundreds of steam vessels in the river saluted her with their whistles, and a number of small cannons in the vicinity boomed salutes. The Yale carried a full supply of stores on an extended cruise, and had 5,000 tons of coal aboard.

THE OCCUPATION OF CUBA.

Our Troops May Leave For The Island on Sunday Next.

Tampa, Fla., May 3.—Two hundred native Cubans who have been quietly enlisted in New York city by General Julio Sanguilly arrived in Tampa last night. They will be formed into a cavalry regiment and, under the leadership of the famous Cuban who enlisted them, will probably embark for Cuba with the American troops. The rest of the regiment will be made up of Cubans from Tampa and vicinity. The New Yorkers created a sensation as they marched down the street in a body, and they were followed for blocks by a perfect mob of excited Cubans.

Slowly, but surely, arrangements are being made for the landing of an American force in Cuba. The plant system yesterday gave formal notice to the government that its steamers, Olyette and Florida, both of which are in port here, were at the disposal of the government for use as troop ships. The Mascotte, of the same line, was turned over this morning.

By Friday seven other vessels are expected to be in waiting at the wharves at Tampa for the reception of the United States troops. The boats all have been contracted for and have a carrying capacity of about 6,000 troops. It is not believed, however, that actual embarkation will take place before Sunday. Much remains to be done in the way of gathering ammunition and supplies, and several days must elapse before all is in readiness. It is believed that the force will be made of 3,000 infantry, 1,000 cavalry and 10 batteries of artillery, all in close to 5,000 men. Only one regiment of cavalry, the Ninth, is now in camp at Tampa, but the Tenth, now at Chickamauga, will, it is believed, be brought down here to fill out the quota.

The fortifications at Egmont and Mullet Keys, commanding the south channel of Tampa bay, and on which work has been rapidly pushed, are now practically complete and ready for the mounting of the guns.
