MUNITIONS FOR DEWEY

Hurrying Implements of War to San Francisco.

TROOPS MAY ACCOMPANY THEM.

Government Waiting to Learn Commodore Dewey's Desires.

THE NEW MAJOR GENERALS.

They Include Joseph Wheeler and Fitzhugh Lee.

WHERE IS CAPE VERDE FLEET?

A Report from Lisbon That the Spanish Warships Have Returned to Cadiz Is Doubted in Washington, Where It Is Believed They Have Sailed to Attack the Oregon—In That Event Admiral Sampson's Fleet Will Meet Them, and Spain Will Lose Some More Warships — A Resolution Introduced in the National House Providing for the Annexation of Hawaii.

Washington, May 5.—The navy department has now secured two vessels, the Australia and the City of Pekin, in San Francisco, which will be loaded with coal and supplies and rushed off to join Commodore Dewey's fleet. Whether or not they will carry troops will be determined positively when the commodore is heard from upon this matter.

The navy department is hurrying together an exceptionally large stock of ammunition to go forward by the City of Pekin to recruit the ammunition of Commodore Dewey's fleet. The first shipment of projectiles left New York Tuesday, and additional shipments will be made until the full quota of powder and shot will be in San Francisco within the next ten days. There will be a total of more than 20,000 projectiles of various caliber and weight, about 10,000 six pound rifle balls, 2,000 five inch shells, 3,000 three pound shells and 3,000 one pound balls. Powder intended for other uses will be forwarded to San Francisco and sent to Commodore Dewey.

No official news has come to confirm the report from Hawaii that the Islands have been tendered by President Dole to the United States for war uses. It is said that if the incoming mail brought the proposition to San Francisco it would scarcely be trusted to telegraph there, on account of its importance, but would be forwarded by the railway mails, which would bring it here in about five days. The naval officers would welcome the possession of Hawaii just at this moment, but it is said President Dole's proposition must be submitted to congress.

The fine British cruiser Blake left Gibraltar yesterday bound straight for Rio, and it is supposed here that she goes to observe any engagement that might threaten between the Oregon and the Spanish fleet.

Great interest is felt in the reported return of the Spanish Cape Verde fleet to Cadiz, but, while admitting the possibility of the fast vessels of the Spanish flying squadron making the passage in the five days that the vessels have been out from St. Vincent, naval officers are disposed to regard with great suspicion news of this kind emanating from Portugal, because of the recognized sympathy of the Portuguese with the Spanish side. It would be worth a good deal to the Spanish admiral commanding the flying squadron, supposing he were on his way across the Atlantic, to throw us off guard in having us believe that he had returned to Spain. The dispatch which came from Lisbon stated that "the combined fleet of Spain will shortly start for American waters." It is pointed out that the Cape Verde fleet may be even now nearing our coast, intending to attack the Oregon.

Should it be decided finally by the president to send troops to assist Commodore Dewey to hold Manila, the war department officials say that the small number of regular soldiers available are ready to move. It is thought, however, that if the troops are sent they will be made up largely from the volunteer forces that readily could be concentrated at San Francisco from various states west of the Rocky mountains.

DESPERATE RIOTING.

Mayor and Town Councilors Captured and Ransom Demanded.

SOLDIERS FIRE ON THE RIOTERS.

Fisherwomen and Tobacco Girls Burn Storehouses and Offices—Mob Stones the Civic Guard—Resignation of the Queen Regent Seriously Considered.

Madrid, May 5.—The outbreaks in the provinces are assuming alarming proportions. This is especially the case in the province of Gijon, on the bay of Biscay, where the troops have been compelled to fire on the rioters "in self defense." The latest news from Jigon is that the artillery has been ordered out. At Talavera de la Rovna one of the Jesuit religious houses has been burned. It is asserted here that the riots arise from hunger rather than from political motives.

Everywhere the dissatisfaction is growing, especially over the price of bread. Acts against authority are becoming more and more overt. At Caceres, capital of Estre Madura, the populace marched into the railway station to prevent the export of provisions and overpowered the soldiers.

The fisherwomen who broke out against the octori dues at Gijon received the most determined assistance from the tobacco girls. Together they sacked several bakeries and burned all the octroi offices, with all the papers belonging to the foreign ships loading in the harbor. The civic guard was stoned at the prison and the mob marched off with the iron bars of the jail. When the troops appeared they were hotly stoned, replying with fire and wounded many. The mob then attacked the government buildings and smashed the windows. The troops again fired, this time from the balconies, and wounded many, but the women kept throwing stones.

At Catalan the rioters captured the mayor and town councilors and demanded a ransom. On the mayor protesting he was shot through the leg, after which the gendarmes dispersed the mob.

In the town of Aguilas, province of Murcia, a mob mostly composed of women burned the storehouses and offices.

It is reported that the Republican and Carlist emissaries are endeavoring to incite mutinies in the garrison there. Several agitators have been arrested.

The Carlists organs, and The Imparcial and Liberal, predict grave events. The cabinet, however, is disposed to energetically maintain order and hasten the vote on the financial bills, in order to suspend the cortes and give the crown and executive power full freedom of action.

The Madrid newspapers are very pessimistic in their comments upon the situation in the provinces and the debates in the cortes, and it is believed the resignation of the cabinet is imminent.

The idea of the resignation of the regency of Queen Maria Christina is being seriously considered by the members of the imperial family of Austria, with a view of averting an anti-dynastic movement and saving the throne. An exchange of ideas on the subject is going on between the queen regent and her Austrian family, but its most influential members are decidedly opposed.

Those who are best informed as to the government service allege that if the Spanish arms suffer another reverse like that at Cavite the government would informally request the great powers to lend their services to arrange the best possible terms of peace. Many Liberals consider that Spain, having maintained her honor and justified her chivalry, can now afford to yield to superior force, but it is doubtful whether public opinion would approve this line of action.

The government would be content to cede Cuba to the United States, but would not pay indemnity, because unable. Those well informed regard the war as practically terminated, and that toward the end of May it will become history. What will follow, however, it is difficult to foresee. All the elements of a long civil war in Spain are unfortunately becoming visible. The government and the Liberal party are popularly hated, as being responsible for the war. The Republicans possess no durable chances of success. The Conservatives and Carlists are the great parties of the future, and some of the Conservative groups are gravitating toward Carlism.

The budget committee of the lower house has refused to sanction the proposed contribution of a year's taxation in advance, but has decided to charge again 20 per cent of all taxes, with the exception of those on dutiable commodities. The queen regent has signed various measures bearing upon the army in Cuba.

The Marquis Cerralbo is reported to have said that there is no truth in the report of a Carlist rising in Catadon, and that even the local governor had declared it a Republican rising.

In a striking speech in parliament yesterday Senor Romero, leader of the Weylerites, said that Cuban autonomy was a farce, and called on all classes of Spaniards to defend their king and fatherland against Spain's international enemy.

The Cortes will probably pass a measure prohibiting the exportation of corn, flour, rye, maize and potatoes. It will also suppress the import duty on them.

A little boy asked for a bottle of "get up in the morning as fast as you can," the druggist recognized a household name for "DeWitt's Little Early Risers," and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles. C. H. Hagenbuch.

Thousands of Mules Purchased.

St. Louis, May 5.—Quartermaster C. C. Smith received orders from Washington yesterday to purchase all the mules possible until further orders. Acting under instructions Captain Smith has already bought 2,800 pack mules. The total number of mules purchased at this point is now 7,000, with the probability that it will run up to 10,000 before the week is over.

Thirty-five years make a generation. That is how long Adolph Fisher, of Zanesville, O., suffered from piles. He was cured by using three boxes of DeWitt's Witch Hazel Salve. C. H. Hagenbuch.

Californians For Manila.

San Francisco, May 5.—The work of mustering the California troops into the volunteer army was begun. Everything seems to point to an immediate trip to Manila. The Seventh regiment, with headquarters at Los Angeles, is now assembling there, and will be ordered to the rendezvous in this city as soon as the First regiment has been mustered in.

Children like it, it saves their lives. We mean One Minute Cough Cure, the infallible remedy for coughs, colds, croup, bronchitis, grippe, and all throat and lung troubles. C. H. Hagenbuch.

Girls who have to stand on their feet most of the time work as hard as any day-laborer yet they do not get what is rightly called exercise. Close, confining, indoor occupation gives no exhilaration to the nervous system nor active circulation to the blood. It wears, tears and drags a woman's life away. The whole physical system grows sluggish and torpid under it.

No wonder so many sales girls and factory girls and housewives suffer from indigestion and constipation and bilious troubles. No wonder they are subject to the diseases of the delicate special organism of their sex. The wonder is rather that they can stand it as well as they do.

But "a poor weak woman," as she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most eminent medical advice *free of charge* and in *absolute confidence* and privacy by writing to Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. Occupying this position for thirty years he has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription. His "Golden Medical Discovery" is the only permanent digestive and nutrient tonic. The two medicines taken alternately, form the most perfect and successful course of treatment ever prescribed for female troubles complicated with a sluggish, overwrought, nervous, diseased constitution. In severe constipation Dr. Pierce's Pleasant Pellets should be occasionally taken with the others. They never gripe.

Another Spanish Prize.

Key West, May 5.—The Spanish fishing smack Do Septembre was brought in by a prize crew from the Helena. She was taken eight days ago in Yucatan channel by the gunboat. Adverse weather was encountered, during which the charts were blown overboard and the capture, with their little prize, cruised aimlessly about the waters of the gulf until yesterday, when the British steamer Jamaica was encountered and put them on their course. The capture of the schooner was not attended by any sensational circumstance, one blank shot sufficing to round her up.
