tails of the arrest of 200 rioters in a monastery there. It appears that the students from Pavia, who joined in the disturbances, entrenched themselves in the Capuchin monastery, and while a detachment of troops was passing fired upon them. The military authorities sent two field guns to the scene, opened fire on the monastery, made a breach in its walls and entered the building, but the students escaped. All the monks were arrested, and they will be imprisoned previously to being dis-tributed among the other monasteries of the order. For the present the monks will be held at the disposal of the military authorities. The workmen of Creva, near Luino

The Duke and Duchess of Saxe-Meiningen, who were attacked by brigands outside of Rome a couple of years ago, were driv-ing through Luino when they found themselves between the rioters and the customs officers as the latter fired a volley. The duke and duchess were not hurt, but a dozen of the rioters fell The ducal party returned here at a gal-

The riotous demonstrations at Luine began on Sunday. The mob leaders demanded a reduction in the price of bread, which the local authorities conceded. Yesterday the rioters attacked the carabineers in their barracks, and also attacked the prison. The police fired on the mob, killing several persons and wounding a number of others The premier, the Marquis di Rudini, has sent a circular to the authorities of Milan, Naples and other affected districts, and to the commanders of the army corps, declaring that though the agitation may be spreading it is less intense, also pointing out that the tranquility of Piedmont, Sicily and Sardina is a factor of the highest importance "in discouraging the agitators of disorders and encouraging those who are wishing to maintain the in-tegrity of the fatherland."

Continuing the premier urges the of-ficials not to harbor exaggerated fears and to avoid constant demands for troops, as, if the whole army is needed it would put the country in a state of war. In conclusion the premier says civil and military functionaries must "employ inflexible rigor in promptly repressing disorder,"

Rigid Press Censorship in Italy. London, May 11.-The Milan corre-spondent of the Daily News telegraphs: "I am unable at this moment to send you more than a few words. Fresh and more rigid measures have been adopted in the censorship of tele-

grams. The forced silence is ominous. Any official accounts of the restoration of order must be received with all reserve. The rebels are besleging Milan."

The Rome correspondent of the Times says: "It is believed that matters are steadily growing worse. The government is clearly unequal to the difficulties of the situation, and great anxisty prevails in political circles."

# **Poor Way** to Treat Eczema

Is to rely upon local applications, such as soaps, lotions, salves, etc., which can not possibly go below the surface. This treatment is very much like attempting to boil water by applying the heat to the top of the vessel containing it. Everybody knows what a crude and unsatisfactory process it would be, and no one would think of employing such a method. Yet it is a very common thing for those afflicted with Eczema to expect to be cured by treatment which does not touch the disease. Eczema is not a skin disease, as so many people think, although it produces fiery and burning itching that becomes almost unbearable. Zinc ointments, and other applications containing minerals, should be avoided, as they are very injurious to the skin. The disease itself, the real cause of the trouble, is in the blood, and only a real blood remedy, like Swift's Specific, which goes down to the very foundation and forces out all impurity, can over have any permanent effect upon it,

I had Eczema on my foot for twenty years, and notwithstanding constant treat-ment it continued to spread and grow worse. I used salves and lotions innumerable, and also used several blood remedies, but none had any effect. The disease finally extended from my toes to my knee, and the pain and itching were almost unbearable. On account of my age (which is 70) the physicians said a cure was impossible. One dozen bot-tles of S. S. S. cured me completely, and now only the scars remain to show the awful struggle I have endured. Mrs. SARAU PIKR,

I have been a sufferer for eight years with that horrible disease, Eczema, and no per-son can describe the burning and itching I had to endure. I was treated by the best of physicians with no success, and tried all or physicians with ho success, and tried all the patent medicines recommended for Fe-zema without any good results. I went to several celebrated medical resorts, but the disease soon returned. I then tried S. S. S. and after a short while the burning and itch-ing subsided and I continued to improve steadily until I was well-entirely cured.

Those who are content with only temporary relief from Eczema can continue the use of local applications, but all who would have every trace of the irritating, burning disease thoronghly eliminated and the system rid of it forever, will find the only cure in Swift's Specific (S. S. S.). Being a real blood remedy, it never fails to cure the most obstinate, deep-seated cases, which are beyond the reach of other remedies. S. S. S is the best blood remody, because it is PURELY VEGETABLE and is the only one guaranteed to contain no mercury, potash or any other mineral.

Books on blood and skin diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.
