OUR COUNTRY: First, Last and Forever.

WHEN this war is over, are we to have another organization similar to the Grand Army of the Republic?

THE HERALD subscribers say the morning papers are anything but interesting these days. They read the news in their favorite paper twelve hours earlier.

THE hostilities with Spain has developed two kinds of patriots—those who are willing to go to war when they are needed, and those willing to go when they are not needed.

THE Attorney General of the United States is about to promulgate an opinion that the government printing office is not properly in the classified service. We agree with the Attorney General.

THE American people are now having an object lesson presented in favor of the Nicaragua canal. It takes too long to send our vessels around Cape Horn, and ought to have the canal, regardless of cost.

GEN. FRANK REEDER is the latest rumored candidate for Governor. By the way, what has become of that Senatorial boom for the gubernatorial nomination? The winter's frost probably nipped it in the bud.

AT Hazleton the long distance telephone are rented to subscribers at \$50.00 a year. In this county the same company's rental is almost double that amount. The reason is plain. At the former place they have open competition, here they have none.

It's in the quality of the circular that we excel, say advertisers. THE HERALD, by reason of its excellent press service, absolute cleanliness and complete local summary, gives the business man all the news that comes to him. It has come to be known as a distinct journalistic and financial success.

A PARIS paper says that M. Angele Vardele, of the French Geographical Society, is confident that he will reach the Klondike in his new balloon. It is to be steered by means of a sail and a rope, as in the trips he made from Paris to Theuville and from Paris to Hamburg. The balloon is cylindrical-shaped, the sail being below. It is furnished with electric lights and a searchlight, and will carry a total weight of about three tons. The balloon will be inflated with hydrogen at Juneau, where the start will be made.

Those who claim to be observers of the times, allege that there is a marked falling off of interest in the bicycle, as compared with that of last year and several years before. The cause for this alleged change is said to be solely due to the war. People are giving more of their thoughts to the serious situation which a war incidentally brings to a nation, and besides they are disposed to cling to their dollars with more tenacity since the expenses incurred by the Government in prosecuting the war are certain to cause the necessities of life to take a marked rise in price. Cause and effect go hand in hand always.

ADDITIONAL interest will be lent this year to the celebrations on Memorial Day and the Fourth of July, by the war with Spain, and it behoves our citizens to unite and make these demonstrations long to be remembered. Watkin Waters Post, G. A. R., is pushing ahead with increased vigor the arrangements for the celebration of Memorial Day, but it would be in order for the patriotic and civic societies to further the good work by lending additional aid and participating with the full strength of their organizations in the demonstration. Let them show their patriotism and their appreciation of the noble men who fought in '01 and those now engaged in hostilities with the Spaniards.

Hood's Pills

A Handsome Complexion is one of the greatest charms a woman can possess. Hood's Complexion Pills...

FIBROID TUMOR CONQUERED.

Expelled by Lydia E. Pinkham's Vegetable Compound—Strong State Agent from Mrs. B. A. Lombard.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the case of Mrs. B. A. Lombard, of Lynn, Mass., who has had a fibroid tumor expelled.

"I had a conversation with Admiral Montojo, who recognized the superiority of the American squadron, admitted that his chief object was to seek the protection of the Cavite forts. He fought in the Reina Maria Cristina till she was on fire and aft and had 12 killed."

Read what Mrs. B. A. Lombard, Box 71, Westdale, Mass., says: "I have reason to think that I would not be here now if it had not been for Lydia E. Pinkham's Vegetable Compound."

Doctors could do nothing for me, and they could not cure me at the hospital. I will tell you about it. I had been in my usual health, but had worked quite hard. When my monthly period came on I flowed very badly. The doctor gave me medicine, but it did me no good. He said the flow must be stopped if possible, and he must find the cause of my trouble. Upon examination he found there was a fibroid tumor in my womb, and gave me treatment without any benefit whatever. About that time a lady called on me and recommended Lydia E. Pinkham's Vegetable Compound; she said she owed her life to it. I said I would try it, and did. Soon after the flow became more natural and regular. I still continued taking the Compound for some time. Then the doctor made an examination again, and found everything all right. The tumor had passed away, and that dull ache was gone."

OUR FIRST LOSSES.

Five Sailors Killed in Battle at Cardenas.

RIDDLING BY MASKED BATTERIES. Serious Damage Inflicted on the Torpedo Boat Winslow.

HER COMMANDER WOUNDED.

A Deadly Spanish Shell Bursts in Their Faces.

FIVE ESCAPED WITH WOUNDS.

The Winslow and the Gunboats Wilmington and Hudson Were Ordered to Attack Spanish Gunboats in the Harbor, and After a Short Engagement Our Vessels Were Compelled to Retreat, the Hudson Carrying Away Our Dead and Wounded Sailors.

Key West, Fla., May 12.—America's first dead fell Wednesday in a fierce and bloody combat off Cardenas, on the north coast of Cuba. Five men were blown to pieces and five were wounded on the torpedo boat Winslow.

The dead are Worth Bagley, ensign; John Varver, oiler; John Daniels and J. V. Meek, both first class firemen, and Josiah Tunnel (colored), cabin cook. The wounded are: R. E. Cox, gunner's mate; D. McKoon, quartermaster; J. Patterson, fireman; P. Bray and Lieutenant J. B. Bernardon.

The battle lasted 25 minutes. It was between the torpedo boat Winslow, the auxiliary tug Hudson and the gunboat Wilmington on one side and the Cardenas batteries and four Spanish gunboats on the other. The Winslow was the main target of the enemy, and was put out of service. The other American vessels were not damaged, except that the Hudson's two ventilators were slightly scratched by flying shrapnel.

The enemy's loss is largely conjectural. One of their gunboats caught fire, and the men of the Hudson think it sunk. The flames spread to the barracks and swept away several small warehouses, and for a time the whole water front seemed to be ablaze. The Hudson's crew also believe that two Spanish torpedo boat destroyers were disabled, but they admit that their estimate of the damage is largely conjecture, as the action was too sharp for outside observations to be made. The Winslow was within 2,500 yards of shore when the shell struck her. How she came to be so close was told by her commander, Lieutenant John Bernardon. He said: "We were making observations when the enemy opened fire on us. The Wilmington ordered us to go in and attack the gunboats. We went in under full steam, and there's the result." He was on the Hudson when he said this, and with the final words he pointed to a huddle of American flags on the deck nearby. Under the Stars and Stripes were outlined five rigid forms. The story of the fight, as told by the Hudson's men, is as follows: The Winslow, the Hudson, the Machias and the Wilmington were among the ships of Cardenas on the blockade. The Wilmington acting as the flagship. The Machias lay about 12 miles out, the Wilmington 200 yards, and the Hudson and Winslow, being small boats, were stationed close in, on what is called the inside line. At 11:30 the Wilmington spoke the Hudson and the Winslow and assigned them to duty. The Winslow to start at the eastern shore of Cardenas bay and the Hudson to the western shore, while the Wilmington took her station in mid channel. Nothing was discovered on either shore, and the boats were approaching each other on their return

MONTOJO INTERVIEWED.

The Spanish Admiral Blames the Authorities at Madrid for His Overwhelming Defeat at Manila.

London, May 12.—The Hong Kong correspondent of The Times, who arrived here on board the British gunboat Lynnet from Manila, says: "I had a conversation with Admiral Montojo, who recognized the superiority of the American squadron, admitted that his chief object was to seek the protection of the Cavite forts. He fought in the Reina Maria Cristina till she was on fire and aft and had 12 killed."

"The captain of the Boston, who carried the flag of force, said: 'You combated us with four battleships, not warships. We have never seen before braver fighting under such unequal conditions. It is a great pity you were not in a great city you could have passed your lives on vessels not fit for fighting.'"

"Commodore Dewey sent a message to Admiral Montojo as follows: 'I have pleasure in clasping your hand and offering my congratulations on the gallant manner in which you fought.'"

"Admiral Montojo attributes the responsibility of his defeat to the government in Madrid. He had only obsolete vessels, though he had requisitioned the government for ships. He had no torpedoes except some which he himself constructed out of ineffective material."

"During the bombardment of the Cavite arsenal Commodore Dewey suspended fire at the request of the Spaniards. The Cavite harbor stores, which were to be removed to a place of safety, witnessed the second bombardment. The American vessels were admirably handled."

San Francisco, May 12.—William S. Yard, who for many years has been the chief judge of Merrick county, made an assignment last night. Yard's liabilities, exclusive of mortgages on property held by him, amounts to \$77,000. These liabilities are made up of \$25,000 of general indebtedness and \$52,000 representing a mortgage on his part as trustee of two estates of which he has had charge for a number of years. Yard's assets are estimated at \$34,000, being the appraised equity he has in the real estate which stands in his name. The mortgage which he had on his property will more than absorb the equity which he had, and will leave the general creditors fairly out in the cold. They are for the most part local banks and members of his own family.

San Francisco, May 12.—The government has finally arranged for the chartering of the steamer Conemaugh and Ohio which arrived from Philadelphia a few days ago. This makes five steamers that have been chartered by the government to be used as transports to Manila. They are the City of Sydney, the City of Berlin, the Australia, the Conemaugh and the Ohio. The last two named were to have been engaged in the Klondike trade. It is also reported that the Monterey has been ordered to Manila.

Alleged Spanish Secrets Released. New York, May 12.—The Evening Post's Key West special says: Naval officers state that some of the passengers on board the French steamer Lafayette, brought here a few days ago for blockade running and afterwards released, were artillery officers hired by Spain on account of their marksmanship.

The Cape Verde Fleet "Located." London, May 12.—The Madrid correspondent of The Daily Mail, telegraphing late Thursday night, says: "Admiral Bernadillo admitted tonight that the Cape Verde fleet, which was at Fort de France, on the west coast of Martinique, French West Indies."

No More "Rebels" Now. Washington, May 12.—A bill was passed in the senate yesterday removing all disabilities imposed by the 14th amendment to the constitution upon persons who were at one time engaged in a rebellion against the United States.

Declines to Serve the Government. Washington, May 12.—Chairman Blanchard, of the joint traffic railroad association, who was recently appointed by Secretary Alsop to take charge of the transportation of the troops of the volunteer army, has informed the secretary that he must decline the honor conferred upon him.

Will Suppress Italian Revolutionists. Berne, Switzerland, May 12.—The government announced that it will suppress the Italian revolutionists in the hands of the Italian high marshals through Switzerland, with avowed revolutionary intentions, from crossing the frontier into Italy. Orders have been sent to this effect to the frontier authorities.

Population of Shenandoah. Shenandoah, Va., May 12.—The population of Shenandoah is about 18,000, and we would say at least one-half are troubled with some affection of the Throat and Lungs, as these complaints are, according to statistics, more numerous than others. We would advise all to neglect the opportunity to call on their druggist and get a bottle of Kemp's Balsam for the throat and Lungs. Price 25 and 50c. Trial size free. Sold by all druggists.

Opening of Philadelphia & Reading Sea Island City Route. The Philadelphia & Reading line to Sea Island City will be ready for business on and after May 15th. Schedule of train service will be announced later. It is the intention of the P. & R. management to make very extensive improvements in the Sea Island City line. It will be the first-class in every respect and up to the high standard now in effect on this company's Atlantic City, Cape May and Ocean City branches.

Decorated Day Tour to Gettysburg. The Pennsylvania Railroad Company has arranged for another of its popular seven-day personally-conducted tours to the battlefield of Gettysburg. The tour leaves Philadelphia on Saturday, May 25, at 8:00 a. m. from New York; \$24.00 from Philadelphia, covers all necessary expenses. Proportional rates from other points. For itineraries and full information, apply to ticket agents; Tourist Agent, 1190 Broadway, New York; 759 Broad Street, Newark, N. J.; or Geo. W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia.

TERRIBLE BREAKING OUT

CURED BY CUTICURA

It is the best medicine for skin diseases. It cures eczema, psoriasis, and all other skin ailments. It is sold everywhere. Price 25 cents per box.

DOWNING COMMITS SUICIDE. The Alleged Spanish Spy Becomes His Own Executioner. Washington, May 12.—George Downing, alleged Spanish spy, who was arrested last Sunday under suspicion of being a spy in the service of Spain, hanged himself at the Washington barracks yesterday. A towel and a silk handkerchief were used as the instruments of death. The guard who passed back and forth through the corridor had seen Downing for a few minutes before falling on his cot reading a magazine. When he returned the alleged spy was found hanging from a bar across the top of his cell. The noose had been prepared with the skill of a professional hangman, the knot being just below his ear. When discovered life was not yet extinct, but the efforts to preserve his life were futile and Downing soon expired. Wednesday Downing gave evidence of breaking down, and after sitting on his cot for several days he collapsed entirely and wept. The officer in command of the barracks talked with him, and acceded to his request that he be permitted to take a walk in the garden. The letter, he was promised, should be sent if it contained no improper information.

He Confided in a Woman. Washington, May 12.—Clark Braden, Jr., night clerk in the office of the American Express company at Forty-eighth street and Madison avenue, New York city, who on Jan. 6 last absconded with an express package containing \$5,000 in cash and five \$1,000 bills of the Connecticut Bank company, of Chicago, was arrested here last night. Braden had attracted attention to himself by his lavish expenditure of money in disreputable houses and on expensive livery teams. A woman, the wife of Braden's landlord, gave the officers the first clue to his guilt. Braden, in a spirit of bonhomie, showed her one of the bonds in his possession, and she notified the detectives.

Impossible to foresee an accident. Not possible to be prepared for it. Dr. Thomas' Electric Oil.—Monarch over pain.

"Saved Her Life."

An Alarming Dispatch Which Causes the Authorities to Urge the Concentration of State Troops.

Portsmouth, N. H., May 13.—Rear Admiral Carpenter, the commandant at the navy yard here, received a dispatch from Rear Admiral T. A. Jellicoe, at New York yesterday, informing him that the rear admiral had information which he considered accurate that the Spanish ships were heading toward the New England coast. Commandant Carpenter immediately informed (as mayor) and Mayor Tilton at once telephoned Governor Bassell and telegraphed the authorities at Washington for the necessary orders to bring the New Hampshire troops to Portsmouth as soon as possible. Nothing has been seen off this coast as yet by the incoming vessels of this port to furnish a foundation for Rear Admiral Jellicoe's message, but the authorities are moving quickly and taking every precaution in view of the possibility of its correctness.

New York, May 13.—At the office of Rear Admiral Kelson, commander of the midget fleet, it was said that the notice to naval officers in the New England district was in accordance with the custom of forwarding all information that might prove to be useful. The dispatch referred to was based upon the report brought in by the officers of the steamer Menomonic that they had sighted what they believed to be foreign war vessels Wednesday morning off Nantucket.

The "Vindicator" Bond Issue. Washington, May 13.—The treasury department is in thorough accord with the apparent sentiment of the country that the bond issue, if congress authorizes one, shall be a popular loan in every sense. There will be no syndicate operations. It is proposed to have a simple system in disposing of the bonds which will permit every person in the country who has \$25 or more to make an investment in the loan. Plans have been perfected which will result, if congress authorizes the loan, in assisting over 60,000 agencies for the disposal of the bonds.
