## FRENCH NEUTRALITY.

Copy of the Decree Delivered to the State Department Yesterday.

ALLOWS PRIZES IN ITS PORTS.

A Privilege That Is Not Conceded By Great Britain and Other Countries. Regulatious, as a Whole, Are Very Fair-No Move Toward Intervention

Washington, May 14.-The French embassy has given to the state de-partment a copy of the French decree of neutrality. It is of special interest just now, in view of the presence of the Spanish squadron near the French West Indies. It is noted by the offi-cials here that the decree permits prizes to be taken to French ports for 24 hours, which privilege is not allowed by Great Britain and some other nations. The text of the French de-

cree is as follows:
"The government of the republic declares and notifies those whom it may concern that it has resolved to observe strict neutrality in the war which has been declared between Spain and the

United States.
"Attention is called to Frenchmen residing in France, in her colonies and in countries under protectorate, or residing in foreign countries, that they must abstaln from any act which, committed in violation of French laws or of international law, might be considered hostile to one of the parties, or con-trary to a scrupulous observance of neutrality. They are specially for-bidden to enroll or to take service either in the army or on board a manof-war of either belligerent, or to con-tribute towards the equipment or armament of a nava! vessel.
"The government declares, further-

more, that no naval vessel of either belligerent power will be allowed to enter or to sojourn with prizes in any port or harbor of France, her colonies, etc., for more than 24 hours, with the exception of an enforced stay of necessity fully justified. No sale of articles coming from such prizes can take place in said ports or harbors.

German officials say the reports emanating from London as to Germany's purpose to intervene in the Philippine Islands are not worthy of attention or denial. There has been no move toward intervention, and it is said there will be none. The authorities representing the continental powers feel that Lendon is encouraging these reports, with a view to increas-ing the bond of friendship between the United States and Great Britain at the expense of the good feeling between the United States and the continental

## WRONGFULLY CONFISCATED.

Property of Americans and Neutrals Selzed Contrary to Proclamation. New York, May 14.—An attorney of this city left yesterday for Key West, to institute proceedings before the prize court for the recovery of vessels and merchandise valued at about \$1,000,000 and confiscated more than a fortnight ago. Marine underwriters, London bankers, Paris merchants and New Orleans business men are among those interested in the undertaking which in certain aspects differs from anything of the sort attempted in this country before. The vessels affected Panama, captured April 25: Miguel Jover, captured April 24: Cata captured April 24; Pedro captur ed April 22, and Guido, captured April All are Spanish steamships, having varied cargoes, upon which bankers in different parts of the world have ad-

The contention will be made that the cases come within the spirit of the resident's proclamation of April 28, declaration of Paris, allows Spanish vesse's units May 21 in which to depart united road from American ports. That the government should confiscate property belonging to its own subjects or neutrals because it was found in Spanish vessels clearing at this and other ports just before hostilities were an-nounced is thought to be contrary to he president's intention.

General Gemez to General Miles. Key West, May 14.-Lieutenant Andrew S. Rowan, of the United States army, arrived here yesterday from Cuba bearing important dispatches from General Calixto Garcia, com-mander of the department of the east, insurgent army, for General Miles or General Shafter, commanding the army of invasion. Lieutenant Rowan had a long conference with the insurgent general, who told him that there were 5,000 troops in his command scattered throughout the island. These troops are well supplied with arms, but lack ammunition. General Garda expressed his joy at the intervention of the United States.

New England Coast Threatened. Boston, May 14 .- Officials of high rank at the Charlestown navy yard place considerable credence in the rumor that a part at least of the enemy' fleet is not far distant from this coast. The United States cruiser Columbia and the ram Katabdin hurriedly left this port under sealed orders, and the cruiser San Francisco will leave at The auxiliary cruiser Yankee joined the Columbia off Cape Cod and went to sea. Women and children have been ordered to leave Fort Warren.

S. C. P. Jones, Milesbury, Pa., writes: "I lave used DeWitt's Little Early Risers ever since they were introduced here and must say I have never used any pills in my family during forty years of house keeping that gave such satisfactory results as a laxative or cathartic." C. H. Hagenbuch.

Bloody Encounters Between Soldiers and Civilians-Awful Butchery. London, May 15 -A dispatch to The Daily Mail from Lugnac, Switzerland, dated yesterday, says; At Potedera, in Tuscany, the bread riots were very serious. The commander of the troops ordered eight trumpet signals before he gave the word to fire. The effect then was of the deadlest character. Those who were foremost in the crowd could not move and received the charge

## AN OFFICIAL DENIAL.

French Steamer Lafavette Did Not Furnish Ald to Our Enemies. Washington, May 14.—The state de partment yesterday gave out the following: "In view of widely published reports that the French mail steamship Lafayette, which was recently permit-ted to enter Havana and discharge her official mail, had violated the neu-trality under which the privilege was accorded her by the government of the United States, it is authoritatively stated that the department of state has been satisfacerily convinced that nothing of the kind was done; that no merchandise whatever, no contraband of war and no Spanish gunners were ecently landed at Havana by the La layette."

The statement was given out as result of representations received from the French embassy. The French ampassador has been sincerely anxious to maintain the good feeling existing b tween this country and France, and he feared that some recent publications to the effect that the Lafavette had carried guns and ammunition into Ha vana in time might become an accepted fact. He also looked upon these statements as reflecting upon the charaster of the French government, as well as upon himself, as he had given assurances that no contraband of war was landed by the Lafayette. As evidence of the complete sincerity of the the embassy took the unusual course of showing all the private dispatches passing between the embassy and the French consul general at Havana.
