WASHINGTON NEWS.

(Continued from First Page.)

must await the naval operations now under way. There will be no invasion until Sampson and Schley meet the enemy.

The government has ordered the construction of the Washington navy yard of 400 Maxim rapid-fire guns. The work is to be done in two weeks. The guns are intended for use in the invasion of Cuba, in the army and on the gun boats and auxiliary cruisers.

It is stated this morning that President McKinley has ordered John A. Wiley, of Franklin, Pa., that he will appoint him Brigadier General of the volunteers. General Gobin, also of Pennsylvania, had been also named for the place.

As to the whereabouts of the Spanish fleet, naval officials profess to be certain that it is still at Santiago de Cuba, having arrived there last Thursday. American scouts have been in that vicinity since the news of the arrival of the enemy's fleet, and as no report has been made of Admiral Cervera's departure it is believed he has not changed his base of operations.

Naval strategists are confident that the objective point of the Spanish fleet is Havana, and if he can successfully evade the American fleets and reach that port, expects to be reinforced by the Madrid government by dispatching several warships and destroyers to Cuba to reinforce him. There is no likelihood, however, of the Spanish fleet reaching Havana. Everything confirms the report that the enemy is bottled up at Santiago.

An eager expectancy is manifested by the entire navy department at this hour, (12:00 p. m.) for direct reliable news of Rear Admiral Sampson's squadron.

It is believed by every high official that a battle has already taken place in the West Indies. Details are momentarily expected.

That the United States has no thought of relinquishing the Philippines is evidenced by the fact that Gen. Merritt is to proclaim military law over the islands on his arrival. If Governor General Aguinaldo, at Manila, attempts to raise the question of authority, Gen. Merritt will have force enough back of him to settle the dispute in favor of the United States. He will be given all the troops he wants.

Bids were today opened by the navy department for armor for the battleships Illinois, Alabama and Wisconsin.

The Bethlehem Iron Works and Carnegie bids were the same price—\$300 per ton.

The work was divided equally between the bidders.

The department says it will require 7,500 tons of armor for the ships.

THE COUNCIL'S APPEAL.

Grounds For Asking That Surcharges Be Stricken From Record.

Pursuant to instructions given him by the Board of Council at its regular meeting last Thursday night, Borough Solicitor Burke today filed in the Court of Common Pleas at Pottsville, the Council's appeal from and exceptions to the surcharges filed against the body by the Borough Auditors. The exceptions are as follows:

FIRST.—The said Auditors have no authority in law to surcharge the members of the Borough Council, your appellants.

SECOND.—The said Auditors at no time within their audit in progress allowed the appellants an opportunity to be heard before them, the Auditors, on the matters surcharged; for this reason, said surcharges are not warranted by law.

THIRD.—The said Auditors gave appellants no notice of their intention to file said surcharges in the court of Quarter Session, nor did they give appellants any notice that said surcharges had been so filed. For want of such notice said surcharges have been illegally entered against appellants.

FOURTH.—The said Auditors did not furnish upon evidence produced before the said Auditors—there being no evidence produced and appellants not having been given an opportunity to be heard in their own defense, but the said surcharges are founded only upon the whim of the said Auditors and are not as a weapon to fight imaginary personal grievances of the said surchargers are, therefore illegal.

FIFTH.—After the said report had been completed by the said Auditors, and before the same had been filed together with the said surcharges, the said Auditors did not allow appellants a hearing, which is a legal and constitutional right appellants have, and the surcharges are, therefore, illegal.

SIXTH.—The items of expense surcharged to appellants are legal expenditures of the borough funds and cannot be legally surcharged.

Beaten and Robbed. A Hungarian who beat his way on the Empire freight train from Mt. Carmel to this town tells of an unpleasant trip. At Centerville three young men beat him, relieved him of his silver watch and some money, and then tried to throw him from the train. Spain Privatizing. Madrid May 24.—In the senate yesterday Count Almencas vehemently protested against the alleged action of some American warships in displaying the Spanish flag in order to deceive the garrison of Guantanamo, as announced in a dispatch from Captain General Blanco, who added that the American ships were "immediately recognized and repulsed." The count asked if the government had notified the powers of this incident.

The minister of the interior, Senor Capolunyo, replied that he had notified the powers and described this reported action as "cowardly and iniquitous."

Count Almencas then said that "in view of America's manner of making war, Spain must immediately decree privatizing, in order to utterly defeat the United States."

To this the minister of the interior replied that the government had deliberated upon the matter "and had even taken certain decisions, which would shortly be known."

Count Guendulain said the American "act of piracy was admitted by certain theorists as international law."

Senor Martinez Pacheco remarked that it was doubtful whether such an act was legal. "But," he added, "in face of the Americans' conduct in the war with Spain we must not show consideration for them."

Continuing, the speaker protested against Spain's adherence to the Geneva convention, whereupon the minister of the interior replied that Spain had not yet entered the convention.

HAIR HINTS

It is much easier to keep the hair when you have it than it is to restore it when it's lost. If your hair is "coming out" it needs instant attention. The use of AYER'S HAIR VIGOR will promptly stop the hair from falling, and stimulate it to new growth.

"Some years ago my hair began to fall out and I became quite bald. I was advised to try

Ayer's Hair Vigor and had it but a short time before my hair ceased to fall out and a new and abundant growth made its appearance. My hair is now abundant and glossy."

The race was run in six heats and among the entries were the fastest men in the state. Among the number was Sidney Peet, who spent several weeks in this region last fall, endeavoring to get on a match with Fahy. Peet had three yards start and made his appearance in the fifth heat, winning in 34 seconds. The sixth heat was won by Fahy, with 54 yards start, in 13.5 seconds. The final heat was won by Fahy, with 64 yards start, in 13.2 seconds. Orab, of Fairmont, 15 yards start, second. Sidney Peet, three yards, finished fifth.

The Meyers Case. George J. Wallinger, Esq., counsel for Commissioner Charles Meyers, removed from office, on Saturday petitioned the Superior Court at Easton to grant a supersedeas in the case. Judge Reeder granted a rule that argument be heard to-morrow on the exercise of special attorney and supersedeas, under the conditions that Mr. Meyers shall not perform the duties of office pending the appeal. Notice was served on District Attorney Rohlfel and A. W. Schalk, Esq., the latter having requested to be heard in the matter. Unless the Commissioner shows cause why this order should be modified, it will be issued by Judge Reeder to-morrow. Mr. Meyers' successor will not be appointed until this question is settled, because if the Superior Court should reverse the lower court the new appointee would of necessity be ousted from office.

BETTER WORKING TIME.

An Official Says There Will be an Improvement in the Trade.

"That a marked improvement in the coal trade is in sight seems to be generally accepted by leading officials of the coal companies and it cannot come too soon to please the laboring classes.

General Manager Lusher is quoted in an interview as saying that commencing with next month he expects the colliers to work four three-quarter days, or even better, each week, and that this order of working is to be continued until the winter at least.

This expected improvement in the trade is accounted for in the opening up of the large western shipments of anthracite coal. During the past week over two hundred cars daily are being sent from the Schuylkill region through Shamokin consigned to western points.

The Reading Company will end its fiscal year on June 30th, and it is reported that the company will endeavor to market a larger quantity of coal than usual next month. The market requirements of newly mined anthracite for June is estimated at 2,500,000 tons. The New England demand for anthracite is still light, a fair volume of old orders being moved.

The Philadelphia Ledger, speaking upon the trade says: "Our comments upon a reduction of royalties appear to have met a ready acceptance for the 'Shanette' laborers' of the coal regions seem to have few if any defenders. It is generally recognized that Anthracite must be sold cheaper to withstand competition and royalty is the only producing cost that can be reduced. As it has not shared in the paring down process heretofore, it should now stand a reduction; as all other items have."
