THE SITUATION UNCHANGED

There is No Longer Any Doubt That the Enemy is at Santiago de Cuba.

THE BALTIMORE REPORTED BLOWN UP!

News of the Destruction of One of Dewey's Ships Comes by Way of London.

Threatened Bituminous Strike.

Key West, May 26.—It is now known here positively that Admiral Cervera and his fleet are in a trap and helpless at Santiago de Cuba. Much jubilation prevails here among the naval officers.

Naval officials here say frankly that official reports are that occurrences that should end the war are momentarily expected.

Bituminous Miners Threaten to Strike.

Philadelphia, May 26.—The State Department is in a quandary and Governor Hastings may be compelled to call on President McKinley for troops, instead of furnishing men for service in the war with Spain.

CERVERA'S RECEPTION.

Madrid, May 26.—A dispatch has been published giving details of the arrival of Admiral Cervera's squadron at Santiago de Cuba. It says:

At 8 o'clock on the morning of May 19 the Infanta Maria Teresa entered the port of Santiago de Cuba flying the flag of Admiral Cervera. She was followed almost immediately by the Vizcaya, the Almirante Oquendo, the Cristobal Colon and the torpedo boat destroyer Pluton.

The inhabitants swarmed to the shores of the bay, displaying the utmost joy and enthusiasm. All the vessels in the port were dressed in gala array. On Sunday night there was an imposing demonstration in honor of the officers and crews.

WASHINGTON NEWS.

Latest Advice From the National Capital on the War Situation.

Special to EVENING HERALD.

WASHINGTON, May 26.—The call for 75,000 volunteers, issued yesterday, is looked upon as very significant, and as an indication that the authorities do not look for a speedy termination of the war.

There is no doubt that President McKinley contemplates an active campaign against Cuba and Porto Rico. It is unofficially stated that Schley's attack upon the fleet at Santiago will be simultaneous with a bombardment of Havana by Sampson's squadron.

The sending of supplies to the insurgents has been suspended pending these engagements, but it is believed that troops will be landed in Cuba before the end of the present week.

NAVAL ENGAGEMENT NOW IMPROBABLE SAYS SAGASTA

Special to EVENING HERALD.

London, May 26.—A Madrid despatch to the Central News Agency says Senator Sagasta, Spain's Prime Minister, says that as matters stand now a naval engagement in Cuban waters is extremely improbable and likely to be indefinitely postponed.

Admiral Cervera's squadron, Sagasta said, was safe in the Santiago de Cuba harbor, and that Americans would find Santiago forts and ships different from those at Manila.

Formal response to the Austrian government as to the men killed in Lattimer in the riots of last year, has been made by the State Department. MONUMENT MOVEMENT

A Lengthy Session Held by Representatives Last Night.

NEW LAWS UNDER THE CHARTER

Officers Will be Elected Annually in January Hereafter—Hon. M. C. Watson Elected to Succeed E. A. Beddall as Treasurer—The Site Not Definitely Settled Yet.

A meeting of the Soldiers' Monument Park Association was held in the Council chamber last night and the session continued about two hours, during which time several matters of importance in the movement were considered and acted upon.

It had been hoped that the site for the monument would have been selected by the acquisition of real estate privileges and titles from the Girard Estate. The Association has been unable to consummate its negotiations. Affairs are in such a shape, however, that the Association expects to have the question of site settled definitely within a very short time.

Considerable time was spent last evening in considering a report by the committee on constitution and by-laws which was appointed after the Association became chartered. The report was fully adopted. Among other things, it fixes the annual election of officers on the first Friday of January and the regular meeting nights on the first Friday of each month.

A change was also made in the treasurer-ship. Mr. E. A. Beddall, of Tanawana, held the position from the time the movement was started. Recently he suggested the resignation that perhaps it would be more convenient to have the treasurer nearer home. This was discussed and last night Hon. M. C. Watson, who has been a very active worker in the Association's behalf, was elected to succeed Mr. Beddall.

The next regular meeting of the Association will hold on June 3rd. It is expected the meeting will be an important one.

Senator Coyle Under Mail.

Private Detective John J. Toole yesterday arrested former State Senator Coyle, at his home in Philadelphia, on a warrant sworn out by T. J. Joyce, editor of the Mahanoy City Black Diamond. The warrant was sworn out before the situation of a plane and charges Coyle with perjury. Coyle appeared before a Philadelphia magistrate and, after waiving a hearing, entered bail in the sum of \$1,000. This suit grows out of the notorious Coyle-Joyce case of last year.—Journal.

A Heroine.

Miss May Dusto, while returning home from the High school yesterday afternoon, gracefully stepped in an act of heroism that resulted in the saving of a five-year-old child from serious injury, if not death. The child wandered from the pavement at the corner of Main and Lloyd streets towards the electric railroad as a car approached and a team suddenly swung around the corner from Lloyd street and headed in the little tot. Miss Dusto, in the situation, stepped in and quickly running out into the street, caught hold of the child and carried it safely to the sidewalk. Bystanders said Miss Dusto displayed excellent presence of mind under the circumstances.

"BOOM HARD COAL."

The Discrimination Against Anthracite Receiving Attention.

The movement inaugurated by the New York and the Press of M. C. Carmel to stop the receiving of anthracite at New York is interesting, it should be, in the view of this industry. A contemporary gives the following to show how anthracite being discriminated against:

"What is being carried from Chicago New York at a net rate to the railroads 7 cents a hundred pounds, at \$1.10 a ton. Coal is handled similarly in large bulk, does not require as many cars as much as open, or as good quality as does when. Anthracite coal is carried from the West Virginia mines to New York harbor at \$1.00 a ton, or less per ton. If without loss to the railroads, anthracite may be loaded from Chicago to New York for \$1.10 a ton, how can they do so? A charge of from \$1.00 to \$1.20 a ton for carrying anthracite one-third of the distance covered by the soft coal shipments, and still the distance covered by the wheat trains."

"The present policy of killing the anthracite industry to show paper profits on our over-crowded railroads should be abandoned."

"Every yard of the anthracite railroads could transport coal to New York at a profit and make a profit. With a reduction in price the demand would increase and the railroads would work six days a week instead of a day and a half as at present. New York interests in the future should own the railroads and keep the hard coal at the present third cent rate."
