THE MILITARY INVASION

Sending of Our Troops to Cuba Has Already Begun.

INSURGENTS WILL AID LANDING.

Our Government Has Sent Expeditions to a Large Number of Points With Arms and Ammunition-Gen. Miles Leaves Washington For the Front,

Washington, May 21 -The military favasion of Cuba has begun. Unless the the orders of the war department mis-carried, at an early hour yesterday morning the troops that have been gathered at the gulf ports began to break camp and march aboard trans-ports walting to carry them to the memy's territory. About 25 of these ships, the biggest and fastest that could be obtained suitable for the purpose, had been gathered ready to receive the troops. They will accommodate about 30,000 men, for in a short voyage like that from one of the gulf ports to Cuba it is possible with safety and comfort to carry a much larger number of men aboard ship than would be admissible in the case of a cruise to the Philippines, for instance. How many troops started yesterday, where they took ship and where they are bound are questions which the directing spirits of the campaign refuse posi-tively to answer. They have no desire that the Spanish should have oppor-tunity afforded them to gather forces to attack our soldlers as they land. Therefore, nothing of the details of this first movement can be learned.

There is a suspicion that the start will be made from Tampa and Mobile, and it is probable that in such case the fleets of transports will converge at Key West to pass under the convoys of the warships which Admiral Sampson has provided to ensure the safety of the troops during the passage across the Florida straits to ensure them against attack at the hands of some stray Spanish cruiser or gunboat. It is probable that there will be no less than four separate military expeditions, and that these will be landed at four different points. Whether Porto Rico is one of these points or not can not be learned. Before the entire force which it is proposed to use in Cuba can be landed the transports must make four separate voyages across the straits. Arrangements have been made to utilize the services of the insurgents to the largest possible extent. The government already has sent expeditions to a large number of points on the island and landed arms and ammunition for the insurgents. Most of the parties succeeded perfectly in the object, and it was said at the war department today that a sufficient number of the insurgents have been armed to constitute a very effective support for the troops as they land.

A war conference was held at the White House at 3 o'clock yesterday afternoon between the president and his two war secretaries, Alger and Long, and Major General Miles, in command of the army. Vice President Hobart, who accompanied the president to Arlington and returned with him to lunch, was present a part of the time, and Secretary Day, who had just returned to Washington, also dropped in dur-ing the conference. After the entire situation, naval and military, had been gone over Secretary Long retired and Secretary Alger and General Miles re-mained to discuss more in detail the military operations now about to be put into execution as a result of the definite official information that the Spanish squadron is securely held with-

in Santiago harbor. Naturally, those who participated in the conference observed strict reticence regarding it. It was stated, however, in an authoritative quarter that the discussion had covered the entire range of naval and military operations, with particular view to the active move-ments about to begin. General Miles made known that at 1 o'clock yesterday morning, immediately following the receipt of definite information as to the presence of the Spanish fleet at Santlago, he had gone to the war de-partment and had issued telegraphic orders putting the troops in motion, and thus starting the forward movement of the military arm of the ser-

It was sald at the war department that chief reliance would be placed at the outset on the United States regulars, rost of whom are centered in Florida, and in such volunteer regi-ments as were thoroughly equipped and reasonably well seasoned for ser-vice. Although the officials will not state how many troops are available for immediate service, it is roughly es-timated that there are about 20,000 regulars and 13,000 volunteers at Tampa. These include 17 regiments of regular infantry and 14 regiments of volunteer infantry, 12 battalions of artillery and five regiments of cavalry. The infantry force, regular and volunteer, is about 28,000 men, the cavalry about 4,000, the artillery about 1,200.

Back of this force are other available regiments at Mobile, New Orleans and other points easily accessible to Tampa. Still further back is the large volunteer camp at Chickamauga, comprising about 40,000 infantry volunteers, 1,000 cavalry volunteers and three regiments of artillery volunteers. It is understood to be the plan-although as to this there is no precise official statementto have the troops at Chickamauga take the place of those at Florida ports as fast as the latter leave for active service, thus keeping a large force alida. Aside from the troops already specified there are 18,000 men at Camp Alger, near Washington, and lesser bodies of troops on Long Island and in various states. The 75,000 volunteers under the recently issued second call constitute still another reserve, which, however, is yet to be organized and

equipped.
General Miles and his staff, making a party of 34 persons, left for Tampa last night on a special train over the Bouthern railway. General Miles would not state where his headquarters will he located, and indeed it is probable that he will move from place to place as circumstances may demand. General Shafter will be in immediate command of the forces now embarking, while General Miles will have general supervision over these and all military

S. C. P. Jones, Milesburg, Pa., writes: "I have used DeWitt's Little Early Risers ever since they were introduced here and must say I have never used any pills in my family during forty years of heuse keeping that gave such satisfactory results as a laxative or enthantic." C. H. Hagenbuch.

Richmond-First game; Richmond, 5;
Norfolk, 1, Second game; Norfolk, 14;
Richmond, 4. She was leaking badly. According to Lieutenant J. A. Patterson, who is in command of the prize crew, the cap-ture was a very commonplace affair. Lieutenant Patterson says:

"About 5 o'clock Wednesday morning the St. Paul scouting off Santiago harbor, R. 1 sighted the Restormet 12 miles away, apparently heading for the port. She was going in openly and honestly, and not skulking along the shore. The St. Paul took a course to cut her off, and good when within halling distance fired a Mr. blank shot. The pursued steamer paid no attention, but she hove to immediately when a solid shot was fired across her bows, "About 6 o'clock I went out with a

prize crew and took possession without protest. The captain talked frankly, saying that he was bound for Santiago, Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years he withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. though he had sailed from Cardiff on April 21 for San Juan. This was best fore the declaration of war was re-ceived. At San Juan he was ordered to proceed to Curacao, and from the latter place to Santingo de Cuba. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New

There never was any possibility of her escaping from the St. Paul, as her hest speed was only eight knots.
